General Explanation Attachment

Identifier Return Explanation

Identifier	Return Reference	Explanation	
7	Reduction claimed for blockage	Form 990-PF, Part X, Line 1e	During the fiscal year ended August 31, 2017 the W K Kellogg Foundation Trust ("Trust") ow ned in excess of 67 million shares of the common stock of Kellogg Company (the "Company") with a monthly average total value of shares held for the Trust's tax year of approximately \$4.9 billion before blockage discount. The percentage of outstanding common stock of the Company which the Trust held during the fiscal year amounted to approximately 20%. The fair market value of the stock before any reduction and the amount of discount (in connection with application of the maximum 10% provided in Section 4942(e)(2)(b) of the Internal Revenue Code) is supported by an independent valuation from William Blair & Company, LLC dated September 21, 2017. The claimed discount is appropriate in valuing the Trust's shares in the Company because the shares do not represent voting control of the Company and various factors affect the influence of a 20% block of shares. Due to the size of the block of shares, the maximum proceeds for this size block of Company shares is viewed by the valuation specialist to be through underwritten secondary offerings. The monthly blockage discount for the tax year was approximately 8.8%. Total Reduction Claimed for Blockage.
