Form and Line Reference	Explanation
Part I, Line 7	A cost accounting system was used to calculate the amounts reported in the table. The cost accounting system addresses all patient segments. A cost-to-charge ratio was used. The ratio was derived from Worksheet 2.
Part I, Line 7g	All costs reported on Part I, Line 7g are attributable to a physician clinic.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 4	Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. In evaluating the collectibility of patient accounts receivable, the Hospital analyzes its past results and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Data for each major payor source is regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. For receivables relating to self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Hospital analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts in the period of service based on past experience, which indicates that many patients are unable or unwilling to pay amounts for which they are financially responsible. The difference between the standard rates (or discounted rates if negotiated or eligible) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged against the allowance for doubtful accounts. During 2017, the Hospital increased its estimate of the allowance for doubtful accounts from \$1,799,999 to \$4,636,756. The increase in the allowance is due to an increase in accounts receivable and a change in the allowance methodology to fully reserve third-party payor accounts receivable over 180 days. During 2017 and 2016, write-offs were \$1,124,609 and \$1,228,668, respectively. The costing methodology used in determining the amounts reported above was a ratio of cost to charge.
Part III, Line 8	The Organization used a cost report as the costing methodology to determine the amount of allowable Medicare costs.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 2	Every 3 years, Androscoggin Valley Hospital participates in a community needs assessment with four other members of the community's health care system. Using information from that assessment allows the Hospital to provide healthcare services to the North Country community on an ongoing basis.
Part VI, Line 3	Androscoggin Valley Hospital offers many financial assistance and referral programs to ensure that cost will not be a barrier to patients getting the healthcare services they need. If payment of healthcare expenses could create a financial hardship, Hospital staff will work with patients to apply for financial assistance. Information regarding financial assistance policies is available at the Hospital's entrances and patient registration and on the Hospital's website. As part of the financial counseling application process, the Hospital will assess eligibility for health insurance coverage through federal or state programs such as New Hampshire Medicaid and assist in the application process.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 4	The geographic area served by Androscoggin Valley Hospital is the Berlin service area. The Berlin service area is composed of the city of Berlin, and the towns of Gorham, Shelburne, Milan, Randolph, Dummer, Errol and Stark. These communities are within the boundaries of Coos County, which is bordered by the State of Maine to the east, the State of Vermont to the west and Quebec, Canada to the north. The city of Berlin defines much of the region as the largest community in the County with a population of 9,501. The total population of the Berlin service area is 13,429. The changing economic landscape and the closing of paper and pulp mills over the last decade in the Coos County have significantly impacted the area's unemployment rate and population compared to those experienced by the overall state of New Hampshire.
Part VI, Line 5	Androscoggin Valley Hospital is the leading provider of healthcare to thousands of families in the small-town communities of New Hampshire's North Country. As a Critical Access Hospital, AVH offers 24/7 emergency care, in-house treatment of most medical issues, and an arrangement for treatment of all other problems with the nearest tertiary-care facility. Over the past decade, AVH has invested significantly in expanding and improving our facilities and services, and enhancing our team of dedicated, highly trained doctors, nurses and other staff. The result is a hospital that more effectively contributes to the health of our communities than ever before. Our new 2-North area, features numerous exam rooms, office space and two comfortable reception areas, which is home to expanded and enhanced space for innovative cardiac care, sleep medicine, pulmonary care, and ear, nose & throat services. At the end of the day, our top priority is to ensure the highest level of quality healthcare to those that we are so fortunate to serve. In an effort to continue to provide a high quality of healthcare for all patients in the North Country, the hospitals of Coos & Grafton County came together to explore collaboration. We, the boards and senior management of Androscoggin Valley Hospital, Upper Connecticut Valley Hospital, Weeks Medical Center and Littleton Regional Hospital realize that significant national, state and local economic pressures are jeopardizing local access, quality and sustainability. We have therefore formed North Country Healthcare (NHC) with the stated objective of working collaboratively to better serve the healthcare needs of North Country patients. This collaborative effort will work to: 1. Ensure access to quality care within the communities in which our patients live. 2. Provide local and high quality care with positive outcomes to our patients in the North Country. 3. Control the cost of care through innovative programs and the use of shared resources. National healthcare reform demands lower costs and higher quality from all hospitals, requiring collaboration in patient care across all providers: from primary care to specialist, from ambulance to hospital, from hospital to rehabilitation to home care, from local hospital to tertiary (specialty hospital) care. Therefore, Androscoggin Valley Hospital, Upper Connecticut Valley Hospital, Weeks Medical Center, and Littleton Regional Hospital have formed this joint venture to identify and implement sustainable opportunities for our future. The NHC and its member hospitals are prepared to manage costs and coordinate care in a way that is financially sustainable, while continuing to provide local access to quality care throughout the county and beyond. The hospitals of the North Country must work together as critical parts of our economy and community.

Return Reference	Explanation
Form 990, Part VI, Section A, line 7a	In accordance with the Affiliation Agreement with North Country Healthcare, each Hospital's charter and bylaws were amended to effect the establishment of NCH as the sole member and to create a shared governance structure between the Board of Directors of NCH and the Boards of each Hospital. Each Hospital continues to maintain its own Board of Directors (Corporation Board) that is distinct from the NCH Board of Directors. However, the Bylaws of NCH and each Hospital identify certain "Major matters" (divided into organizational and operational matters) that require initiation and/or authorization by a majority of the NCH Board. Members of the Hospital Boards are nominated exclusively by the Hospitals. However, the election of any such director must be approved by both the Hospital Board and the NCH Board. Some examples of other organizational "Major matters" requiring the initiation and/or approval of the NCH Board include amendments to by-laws, election of officers, dissolution of a Hospital, merger decisions and hiring/termination of Hospital Presidents. Examples of operational "Major matters" requiring the initiation and/or approval of the NCH Board include approval of annual capital and operating budgets, adoption of compensation and benefit programs, approval of information technology systems, financial systems and auditors, plus approval of any major changes to clinical services offered. The Chief Executive Officer position at each of the Hospitals has been changed to a President position. As with Board members, each Hospital President must be nominated at the Hospital level and then approved by both the Hospital Board and the NCH Board. This position reports to both the applicable Hospital Board and the Chief Executive Officer of NCH. The Chief Financial Officer of each of the Hospitals will remain an appointed position by the President, but this individual will also report to the President/Chief Financial Officer of NCH.
