Part V, Section B, Line 5: A variety of different secondary data sources were accessed. They included but were not limited to the Centers for Disease Control and Prevention (CDC), New Hampshire Department of Health and Human Services (NHDHHS), Youth Behavioral Risk Factor Surveillance Survey, City of Manchester, Census data, and local town data.

Representatives from CMC and Elliot Health System (EHS) interviewed key leaders from towns in our service area to ascertain the key health related issues that they were facing and dealing with in their local communities. The towns that were included in the interview process were Auburn, Bedford, Candia, Hooksett, Goffstown, Deerfield, and New Boston. Though the overall needs were similar the priority of them varies between the towns. Overall, the common themes were substance use, the availability of behavioral health services, transportation (especially in the elderly populations and the more rural areas of New Boston and Deerfield), self-care and management of chronic disease, and access to health care for the low income populations and communities.

Communications on community needs were collected via discussions with local leaders in the health care field. These leaders consisted of individuals from: Catholic Medical Center, Dartmouth-Hitchcock Clinic, Public Health Department - City of Manchester, NH, Elliot Health System, and Community Health & Mission.

Health Care for the Homeless (HCH) of CMC provides behavioral health services and substance abuse counseling to the homeless throughout the Manchester HSA. Health and Boston University School of Medicine, CMC conducted the third annual "State-of-the art Management of the Opiate-dependent Patient, Pain Treatment and the Heroin Epidemic". The targeted audience for this conference included prescribers, nurses, allied health professionals, pharmacists and social service agencies. The program addressed many facets of substance abuse within our community, hospitals, and practices.

Ambulatory Care, chronic disease, including asthma and aging issues have all been addressed through various means. Catholic Medical Center's Primary Care has implemented The Patient-Centered Medical Home (PCMH) Model, a proactive approach to preventative medicine through the introduction of care coordinators to the primary care practices. All care managers work with the practices' most high risk patients (asthma, diabetes, COPD, etc) to ensure they understand their medications and follow-up care. The PCMH Model encourages patients to become involved and educated in their personal care plan. CMC offers free health screenings, chronic disease, and self-management classes to the community. These programs provide the opportunity for early detection of chronic disease; referral based follow-up care and education on adopting healthy lifestyle behaviors, communicating with the healthcare team, problem solving, and goal setting. To aid with aging issues, CMC's Parish Nurse Program provides nurse consultations, education, referrals, and screenings at Parishes throughout the Greater Manchester Area.

In order to address the barriers to access of health care services related to poverty (lack of insurance, cost, transportation and education on accessing care, and lack of medical home) CMC provides comprehensive care

to Manchester's underserved and refugee populations. Health Care for the Homeless provides primary medicine and behavioral health care to over 1,700 homeless patients. CMC's Certified Application Counselors (CAC) provide outreach and enrollment services to the communities' uninsured. CACs provide information on a full range of qualified health plan (QHP) options and assist individuals in applying for coverage through a QHP in the ACA's Marketplace Exchange.

CMC has staffed the emergency department with a community health worker to improve primary care access for the homeless population, provide education on accessing care, and transportation support. CMC provides shuttle support to CMC Ancillary Services to those in need, at no cost. CMC assists patients through the Medication Assistance Program to obtain medications they would otherwise not be able to afford and has developed a prescription delivery program with Rite Aid Pharmacy to assist patients with filling their medications upon discharge.

CMC's Poisson Dental Facility has expanded access to oral health services to patients of the Pregnancy Care Center and Manchester Community Health Center (MCHC). The Poisson Dental Facility provides access to exams and treatment planning for women from the Pregnancy Care Center and access to oral health care during the first post-partum year until their treatment plan has been completed.

Department, and Health Care for the Homeless (HCH). The majority of HCH patients often arrive with very poor oral health. In an effort to meet the growing need for oral health services, CMC's Poisson Dental expanded services to include school-based dental care for children in need attending Manchester elementary and middle schools. This school-based program is made possible through collaboration with the City of Manchester Health Department and Easter Seals NH. Poisson Dental also provides onsite dentistry at Dartmouth Hitchcock Manchester by integrating these services within their pediatric practice. This allows for ease of access for the patients and direct communication amongst the providers of care.

CMC's Fertility Education provides teens at local schools and parishes educational opportunities such as The Cradle Within, Ideal Dating, Sexual Risk Behavior, and Conflict Resolution. The goal is to equip adolescents with the tools to identify healthy relationships and the benefits of choosing sexual risk avoidance behaviors. The Pregnancy Care Center provides supportive prenatal care to all women, including teens, regardless of their ability to pay. Their mission is to improve pregnancy outcomes by serving those most in need and unable to access services in a traditional prenatal setting. The Pregnancy Care Center expanded services, adding Centering Group Prenatal Care; this program is a multifaceted model of group care that integrates the three major components of care: health assessment, education, and support. Visits promote greater patient engagement, personal empowerment, and community-building.
