SCHEDULE C PART II B - DESCRIPTION OF LOBBYING ACTIVITY	Federal, state and local officials were lobbied during 2017. As part of this miscellaneous office expense such as phone, computer supplies, freight, refreshment etc. were incurred and were reflected on line #1 accordingly. Dues were paid to CHA in the amount of \$415,975, of which 7.32% of this amount or \$30,444 were expended on lobbying. AHA dues of \$48,047 had 21.78% or \$10,465 expended on lobbying activities. Both amounts are reflected on 1f. Fiscal year 2017 was a historic year at the Connecticut capitol with tremendous shortfalls and budget cuts for physician reimbursement, mental health and community based services and the ongoing threat of a devastating hospital tax. As a result, federal state and local elected officials were lobbied to find creative solutions and ways to deflect drastic cuts and ultimately maintain the current level of access for needed services. Funding for mental health and substance use programming was of particular importance. As part of this effort, staff and office expenses were higher than in past years but essential to maintain access to needed services. The amounts spent on lobbying were not a significant portion of the Hospital's activities based on total revenues. Lobbying was mostly related to the Hospital's exempt purpose.

PART I, LINE 3C - CHARITY CARE ELIGIBILITY CRITERIA (FPG IS NOT USED)	The FAP indicates a 75% discount for patients with income between 301% and 350% of the FPG and a 56.81% discount for patients with income between 351% and 400% of the FPG. The FPG income limit for free care changed from 200% in the prior year to 300% in 2017. Anyone who has income at or below 300% of the FPL would get 100% of the bill. It is the same for both Danbury Hospital and Norwalk Hospital. When the hospitals merged and created one combined charity policy, the income limits were increased for Norwalk Hospital.

PART III, LINE 2 - METHODOLOGY USED TO ESTIMATE BAD DEBT EXPENSE	Bad debt expense is a function of actual bad debt write-offs and estimated bad debts for balances still in accounts receivable (AR) as of the measurement date. The Hospital calculates the estimated bad debts in AR by computing historical payment % by payer, service type and by account age and applies those percentages adjusted for price increases to current AR. The ratio of cost to charges is applied to the bad debt expense on the audited financial statements.

Form and Line Reference	Explanation
PART III, LINE 4 - BAD DEBT EXPENSE	<p>Patient accounts receivable result from the health care services provided by the Hospital. Additions to the allowance for uncollectible accounts result from the provision for uncollectible accounts. Accounts written off as uncollectible are deducted from the allowance for uncollectible accounts. The Hospital's estimation of the allowance for uncollectible accounts is based primarily upon the type and age of the patient accounts receivable and the effectiveness of the Hospital's collection efforts. The Hospital's policy is to reserve a portion of all self-pay receivables, including amounts due from the uninsured and amounts related to co-payments and deductibles, as these charges are recorded. On a monthly basis, the Hospital reviews its accounts receivable balances and various analytics to support the basis for its estimates. These efforts primarily consist of reviewing the following: Historical write-off and collection experience using a hindsight or look-back approach, Revenue and volume trends by payor, particularly the self-pay components, Changes in the aging and payor mix of accounts receivable, including increased focus on accounts due from the uninsured and accounts that represent co-payments and deductibles due from patients, Cash collections as a percentage of net patient revenue less the provision for uncollectible accounts, and Trending of days revenue in accounts receivable. The Hospital regularly performs hindsight procedures to evaluate historical write-off and collection experience throughout the year to assist in determining the reasonableness of its process for estimating the allowance for uncollectible accounts. The Hospital's primary concentration of credit risk is patient accounts receivable, which consists of amounts owed by various governmental agencies, insurance companies and private patients.</p>

PART III, LINE 8 - EXPLANATION OF SHORTFALL AS COMMUNITY BENEFIT	<p>All hospitals must record profits in order to generate the capital needed to invest in facilities and services. Services that respond to public health needs provided to Medicare patients at Norwalk Hospital generate negative margins averaging around 25% of cost. It is possible that some of these services would be discontinued if the decision was made on a purely financial basis. For this reason, it would be appropriate to consider the Medicare payment shortfall a community benefit. The Medicare allowable costs of care on part III, line 6 were computed using the cost to charge ratio from the Medicare cost report multiplied against Medicare charges.</p>

Form and Line Reference	Explanation
PART III, LINE 9B-PROVISIONS ON COLLECTION PRACTICES FOR QUALIFIED	PATIENTS Norwalk Hospital collection practices consist primarily of billing notices and follow up courtesy calls. The patient is notified of the financial assistance program with each written notification and at each point of service. Notification is shared by postings and verbal notification at the time the procedure is scheduled. If at any time during the collection process a patient would like to participate in the financial assistance program collection activity ceases. The patient is then sent an application and works with the financial counseling team for approval of full or partial discount.

PART VI - NEEDS ASSESSMENT	<p>Through Western CT Health Networks annual Planning Process, an environmental assessment is conducted to identify healthcare gaps and needs of the service area community brought about by local and national trends in economic, legislative, demographic, healthcare industry and other environmental factors. These forces are incorporated in meeting the healthcare needs of the community by helping to frame the priorities, goals and initiatives of Western CT Health Networks long range and annual strategic plans. The Western Connecticut Health Network Community Health Committee meets quarterly to discuss the CHIPs progress across the network. Similarly, the Norwalk Hospital Community Health Committee also meets to discuss the CHIPs progress in the Greater Norwalk Area. In 2018, Norwalk Hospital, along with the Norwalk Health Department and community members, began the process for the next CHNA cycle. A meeting was held in January with DataHaven and other local hospitals and healthcare organizations to discuss the Community Wellbeing Survey, its content, and areas that will be targeted. Further planning will take place throughout the year.</p>

This broad community initiative provides wrap-around services to individuals with housing instability suffering from mental health and/or substance abuse issues or serious medical conditions. Norwalk Hospital's Greater Norwalk CCT consists of approximately 20 representatives from local programs, agencies and institutions. The CCT meets weekly in the community to develop, review, implement, and monitor treatment plans for vulnerable populations. As of September 30, 2017, individualized care plans have been developed for more than 200 individuals. Outcomes for patients with care plans in place include maintained sobriety, mental health stabilization, improved access to care, a 32% reduction in inappropriate Emergency Department (ED) visits and reduced homelessness with more than 50 individuals assisted in finding stable housing.</p> <p>The Western Connecticut Health Network, which includes Norwalk Hospital, has formed a Medicare Shared Savings Program Accountable Care Organization (ACO) to work together to provide higher-quality coordinated care for our patients, while helping to slow health care cost growth. A Community Forum, attended by over 45 representatives of health, social service and government agencies was held in April, 2016 and again in July 2016.
