Part II, Community Building Activities	Biennially, Northside Hospital, Inc ("Northside") conducts a community-based Physician Need Analysis for Northside Hospital-Cherokee ("NHC") and Northside Hospital-Forsyth ("NHF") NHC and NHF each are sole county providers and as such must ensure that appropriate medical services are accessible to the residents of the communities served. Each hospital's Physician Need Analysis defines a geographic area compliant with the Federal Physician Self-Referral Law, identifies NHC and NHF medical staff members with an office in the defined geographic area, and includes a quantitative analysis of each community's physician need ("Community Physician Need") Based on the findings of the analyses, Northside engages in recruitment efforts designed to ensure that sufficient qualified health professionals are available to meet the identified Community Physician Need. Through these analyses, Northside has identified a defined numeric need for one-half physician full-time equivalent ("FTE") or more in twenty-seven specialties in NHC's Stark-compliant geographic area and a need for one-half physician FTE or more in thirty specialties in NHF's Stark-compliant geographic area. Both NHC and NHF are concentrating recruitment efforts on primary care and surgical specialties with an emphasis on recruiting needed physicians into Forsyth, Dawson, Pickens, and Cherokee counties to meet the identified Community Physician Need.							
Part III, Line 4	Northside provides for accounts receivable that could become uncollectible in the future by establishing an allowance for uncollectible accounts to reduce the carrying value of such receivables to their estimated net realizable value. Part VI, Line 2	Northside developed a standardized process for conducting its Community Health Needs Assessment ("CHNA") In short, Northside's CHNA process included - Defining the Northside Community - Reviewing Northside internal data - Reviewing publicly available health data - Reviewing proprietary quantitative consumer research data - Performing stakeholder interviews - Summarizing and prioritizing the health needs identified within Northside's Community - Developing an Implementation Strategy to address the identified needs - Presenting the finalized CHNA report and Implementation Strategy to the Board of Directors of Northside Hospital, Inc. for adoption - Providing continued public access to Northside's CHNA report via www Northside com/Community and providing an opportunity for public feedback via Northside chna@northside com Northside utilized an evidence-based model of population health adapted from the Wisconsin Population Health Institute and also utilized by County Health Rankings and Roadmaps. This model illustrates the complexity of assessing a community's health status by outlining the factors that act in combination to determine the current status of a community's health. The evidence-based model outlines the health determinants (demographics and social environment, healthcare access and quality, health behaviors, and the physical environment) that lead to the health outcomes in a community (morbidity and mortality). The Centers for Disease Control and Prevention ("CDC") performed a systematic literature review to determine a common set of health metrics that should be used to measure both the health determinants and health outcomes. Northside used the CDC's list of "Most Frequently Recommended Health Metrics" to determine what variables to consider for Northside's current CHNA Northside utilized the CDC's recommended variables and metric when they were readily available at the county level								
Part VI, Line 3	Northside informs and educates patients and persons who are billed for patient care about their eligibility for financial assistance and Northside's Financial Assistance Program in numerous ways. Northside conspicuously posts notice of its Financial Assistance Program and how to access its Financial Assistance. Policy and Financial Assistance Application at all major points of access to its inpatient and outpatient facilities, these points of access include the hospitals' patient waiting rooms and emergency departments. For patients that pre-register over the phone for hospital services, Northside verbally informs patients of its Financial Assistance Program and provides patients with information on how to obtain a copy of Northside's Financial Assistance Policy and Financial Assistance Application via Northside's website or via mail. Additionally, upon admission to one of its hospitals for services, Northside provides each patient a registration packet that includes information on its Financial Assistance Program. Further, a Financial Counselor will speak with all patients during either the pre-registration process or upon admission and explain Northside's Financial Assistance Program. If a patient indicates a need or requests more information regarding Financial Assistance, Northside will refer the patient to a Financial Assistance. Counselor who will work directly with the patient to assist the patient to a Financial Assistance. In order to expedite the Financial Assistance process, Northside uses third party software to help identify patients that qualify for Financial Assistance based on publicly available information (e.g., participation in statefunded prescription programs, participation in the Women, Infants and Children (WIC) program, participation in the Supplemental Nutrition Assistance Program (SNAP, formerly food stamps), subsidized school lunch program eligibility, or eligibility for other state or local assistance programs. Patients that are identified by such third-party software as eligible to

programs or drug discount programs. Northside also includes a summary of its Financial Assistance Program, including how to obtain more information and apply for Financial Assistance, on all patient bills Lastly, Northside works with many community outreach programs to provide Financial Assistance to patients who qualify for free or discounted services through these programs. To expedite the Financial Assistance process for such patients, Northside provides a pre-approval process for all patients who are referred for medically necessary services via a community outreach program. This process allows patients

Part VI, Line 4	Northside began the Community Health Needs Assessment process by defining each hospital's community, which included (i) defining each facility's primary patient catchment area, (ii) mapping the medically underserved areas around each facility to ensure that no medically underserved, low income, or minority populations were excluded within or near the primary catchment areas, and (iii) mapping each facility's distribution of outpatient services across the region. The results of this process revealed significant overlap between the communities served by each Northside Hospital facility. Thus, Northside Hospital-Atlanta, Northside Hospital-Cherokee, and Northside Hospital-Forsyth developed a single community definition in compliance with IRS Section 501(r) Final Rule. The Northside Community consists of Fulton, Forsyth, Cherokee, DeKalb, Cobb, Gwinnett, Dawson, and Pickens Counties In 2015, the estimated 3.7 million residents of the Northside Community accounted for 37% of Georgia's total population. The Northside Community is slightly younger than Georgia overall, with a median age of 35.6 compared to Georgia's 36.2. Overall, the 2015 Northside Community was comprised of a diverse population. Individual counties, however, have varying racial compositions, including two counties that have 90 percent of their populations belonging to just one racial group Overall, the Northside Community has a high level of educational attainment and affluence when compared to Georgia as a whole. The median disposable income, household income, household net worth, and housing unit value in the Northside Community are

Part VI, Line 5	Northside Hospital, Inc. is a charitable organization and as such is engaged in numerous activities to provide relief to the poor, the distressed, or the underprivileged. Northside routinely provides financial assistance, health professions education, cash and in-kind donations, community health improvement services, research, and community-building activities. Many of these efforts have been reported on throughout this return. In addition to the numerous community benefit activities. Northside engages in throughout the year, Northside also invests surplus funds back into expanding access to services for all people throughout its Community. For example, Northside invested approximately, \$280 million in building.

people throughout its Community. For example, Northside invested approximately \$280 million in building a new, state-of-the-art replacement hospital, medical office building and parking deck in Cherokee County The replacement hospital increased Northside Cherokee's inpatient capacity from 84 inpatient beds to 105 and provides the Community with a more visible, easy-to-access hospital conveniently located off a major interstate highway. In Forsyth County, in order to meet the community's healthcare needs. Northside expanded Northside Hospital Forsyth's inpatient bed capacity from 247 inpatient beds to 284. In Fulton County, the System's largest and oldest hospital campus also is undergoing significant expansion and renovation Northside is investing approximately \$200 million in Northside Atlanta through the construction of a new eight-story medical/surgical tower, addition of four operating rooms and other campus-wide renovations as well as a new parking deck. Upon completion of the new eight-story tower,

Northside Atlanta's inpatient bed capacity will increase from 537 beds to 621 beds

Part VI, Line 6	Northside Hospital, Inc. includes three hospitals - Northside Hospital - Atlanta in Sandy Springs, Northside Hospital - Cherokee in Canton and Northside Hospital - Forsyth in Cumming. These hospitals and nearly 80 other offsite locations make up the Northside Hospital System which serves a primary area that includes 21 counties with a total population of more than 5 million. In addition to providing hospital-based medical services, the Northside Hospital System provides a number of community-based services, designed to improve the health of area residents. Working with various organizations, hospital employees and medical staff, the Northside Hospital System participates in health education and screenings as well as provides.

Group A-Facility 1 Hospitals - Atlanta, Cherokee, Forsyth Part V, Section B, line 3j	Northside Hospital, Inc ("Northside") completed a CHNA for each of its hospital facilities identified in Part V, Section A. In completing the CHNAs for its hospital facilities, Northside did not encounter any information gaps that limited its ability to assess each hospital facility's Community need. In addition to the information listed above, Northside describes in the CHNAs each Community's access to health care and provides an overview of each hospital facility's implementation strategy.			
Group A-Facility 1 Hospitals - Atlanta, Cherokee, Forsyth Part V, Section B, line 5	Northside identified community stakeholders who broadly represented the interests of each hospital facility's Community and specifically sought to identify stakeholders with special knowledge of, or expertise in, public health. Northside then developed the Stakeholder Assessment Discussion Guide (a copy of which is included as Appendix A in each hospital facility's CHNA) and conducted, either in person or by telephone, interviews with a qualified representative of each identified stakeholder. The following is a comprehensive list of organizations Northside contacted to help identify the needs of the hospital facilities' Community needs (1) March of Dimes, (2) Good Samaritan Health Center of Atlanta, (3) Good Samaritan Health Center of Cobb, (4) Visiting Nurse Health System, (5) Forsyth Health Department, (6) Georgia Highlands Medical Services, (7) Good Shepherd Clinic of Dawson County, (8) Bethesda Community Clinic, (9) Good Samaritan Health Center of Pickens, (10) United Way of Cherokee County,

Northside has a sizeable radiology network consisting of inpatient and outpatient centers located throughout its service area. In order to provide consistent, high-quality, efficient services across the network, Northside focusses on three priority area. I) patient safety, 2) clinical excellence and 3) operations. Over FY17, the Organization achieved numerous accomplishments in each focus area with a few notable ac complishments highlighted below. Collaborated with Phoenix Technology Corporation and Northside Hospital Quality Improvement to develop quarterly report cards for all hospital-ba sed areas and physician practices with radiation emitting equipment. The report cards are reviewed by the Radiation Safety Officer and outliers are discussed in Radiation Safety Committee. Northside Atlanta successfully completed. FDA inspection at each mammography location. ACR accreditation and on-site surveys at all radiology locations for CT, MRI, N uclear Medicine, PET/CT, Ultrasound and Mammography (as applicable). Northside entered into formal referral agreements with se veral community organizations including Federally Qualified Health Centers and safety net clinics located across. Georgia Demand for the program was so great that Northside subseque ently created the FASP Overflow Program and expanded the number of locations to four (4). In 2017, the FASP received over 950 referrals from its community partners. Women's Service's In FY2017, delivery volume remains strong across the Northside system with deliveries su rpassing 20,000. NHA is consistently ranked as the nation's leader in maternity services, delivering more babies than any other hospital. In CY2015, the most recent data available, Northside Hospital-Atlanta again was the national leader in maternity services with just over 16,100 births while the next closest provider had just over 14,800 births. In Georgia, NHA is the leader in maternity services including high-risk perinatal services. In 2016, the most recent data available, NHA cared for nearly 781 high-risk perinatal patients with the next closest provider caring for approximately 509 patients. NHA's expertise in caring for the most fragile neonates also is unsurpassed. In 2016, the most recent data available, NHA cared for more than 5,838 neonates (excluding normal newborns) with the next close est provider caring for more than 2,645 neonates (excluding normal newborns). Georgia rank s. "at or near the bottom" in maternal deaths in the US, which is a serious public health concern within the state. Currently, the number of deaths and causes of maternal deaths are not properly documented.
