ADDITIONAL INFORMATION	atient Per 501(r) (5), Hudson Valley Hospital Center DBA New York-Presbyterian/Hudson Valley Hospital has established written financial assistance and emergency care policies. The policies include a limit on amount charged for those who qualify. All reasonable efforts are made to determine whether an individual is eligible for assistance prior to sending an account to collection. This policy was updated in June 2018. PART VI, LINE 2 - NEEDS ASSESSMENT In keeping with the mission of the Commissioner of Health of New York, Hudson Valley Hospital Center DBA NYP/Hudson Valley Hospital, working in conjunction with our community partners, has continued assessing our present initiatives, strategic plans and prevention agenda priorities. Assessing our Community's health needs has been paramount for the Hospital. The needs of the community continue to be assessed through partnerships with patients, physicians, elected officials, organizations, area businesses and local Departments of Health. The 2016 Community Health Needs Assessment demonstrated need for services addressing Obesity, Nutrition Education, Eating Habits, and Care for the Elderly. The Hospital continuously requests input from the community through its variety of communication devices including newsletters, e-blasts and health fairs and online surveys. PART VI, LINE 3 - PATIENT EDUCATION OF ELIGIBILITY FOR ASSISTANCE Written materials, including the application, full Policy, and plain language summary (Summary), shall be available to patients in the Hospital's primary languages, upon request and without charge, from Admitting and Emergency Departments at the Hospital during the intake and registration process, at discharge and/or by mail. Additionally, those materials shall be available on the Hospital's website (www.nyp.org/hudsonvalley). Also, notification to patients regarding this Policy shall be made through conspicuous posting of language-appropriate information in Emergency Rooms and Admitting Departments of the Hospital, and inclusion of information on bills and statements sent to patients explaining that financial aid may be available to qualified patients and how to obtain further information. PART VI, LINE 4 - COMMUNITY INFORMATION New York-Presbyterian Hudson Valley Hospitals service area represents a population of 146,750 and includes, but is not limited to, the municipalities of Buchanan, Cortlandt, Croton-on-Hudson, Ossining, Peekskill, Somers, and Yorktown. Socioeconomic Factors There is a large gap between the highest and lowest socioeconomic classes within our community, with family household income ranging from less than \$10,000 to more than \$200,000.00. According to data provided by the Westchester County Department of Health, 87.1% of the Westchester County population ages 18-64 has health insurance which is below the NYS 2018 objective of 100%. Additionally, our primary service area faces an average unemployment rate of 8.75%. PART VI, LINE 5 - Promotion of Community Health Through its understanding of community needs, Hudson Valley Hospital Center DBA New York-Presbyterian Hudson Valley Hospital has expanded and implemented new programs, better serving patients and the community. Nutritional support continues to be the focus of many of our community outreach programs. In an effort to combat obesity and an increase in Type II Diabetes, the Hospital has a multi-faceted plan under the banner of Harvest for Health. This included the creation of an organic garden for healing, which provided an outdoor classroom for nutritional education with cancer patients. The hospital continued its food service that focuses on preparing wholesome meals with fresh and local produce. The hospital also offered its Farmers Market twice monthly and year-round. The markets provide the opportunity for members of the community to have access to healthier foods and encourage a plant-based diet, proven to be beneficial to many diagnoses from cardiovascular issues to diabetes.

Form and Line Reference	Explanation
Part v, Line 5	In 2016, NewYork-Presbyterian Hudson Valley Hospital worked as a member of the Westchester County Health and Hospital Planning Team (WCHHPT) under the guidance of the Westchester County Department of Health to plan and execute a county-wide Community Health Needs Assessment survey, and to collaborate on the identification of priority areas and planned health interventions for 2016-2018. Members of the WCHHPT included the Department of Health and representatives from 12 hospitals and healthcare providers who met seven times throughout the year. As a result of this collaboration, survey results, and internal planning based on our hospitals strengths, resources and local community needs, NewYork-Presbyterian Hudson Valley Hospital developed its 2016-2018 Community Service Plan. In our efforts to meet the Agendas requirements, the Westchester County Health & Hospital Planning Team (WCHHPT), including NewYork-Presbyterian Hudson Valley Hospital, conducted a Community Health Needs Assessment Survey to sample residents and providers in the County and each hospitals or agencies service areas to determine which Prevention Agenda initiative(s) it plans to address during this three year period. Surveys yielded 1,318 responses and 326 were from within the subset of NewYork-Presbyterian Hudson Valley Hospitals primary and secondary service areas. Significant socioeconomic gaps exist among the communities served by NewYork-Presbyterian Hudson Valley Hospital. Over a series of meetings in 2016, the Westchester County Health & Hospitals Planning Team crafted and disseminated throughout Westchester County community assessment and provider surveys. In addition to surveying the community at large, the team sought to identify a wide and varying range of providers of health care services to ensure that as many areas of health care as possible could be included in the surveys. Surveys were distributed to community members, community agencies and providers both electronically via a Survey Monkey on-line form, and in hard copy paper format. Completed paper surveys were manually entered into the data sets prior to analysis. NewYork-Presbyterian Hudson Valley Hospital completed a stand-alone Community needs assessment report. Form and Line Reference	Explanation
Part V, Line 11	The hospital is addressing the significant needs identified in its most recently conducted CHNA, namely Overweight and Obesity by its Community Service Plan Priority Prevent Chronic Disease programming. The hospital also provides community outreach to address the other health factors that were raised as health concerns, namely, nutrition/eating habits and care for the elderly. The original 2014 Intervention Healthy Heart Cooking Classes expanded to become the Healthy Heart Program. In 2014, participants expressed their interest in learning more about how physical activity could benefit their overall heart health. The program broadened from cooking classes to include a membership to The Wellness Center, the hospital's in-house fitness facility. Local physician practices and Hudson River Health Care, a not-for-profit, New York State licensed, federally qualified health center, helped to identify participants. The patient profile was minorities, ages 45-65, at risk of heart disease due to a previous heart attack, other cardiac issues or predisposition due to heredity, high blood pressure, diabetes or being overweight. In 2017, the program included enrollment in 10 Healthy Heart cooking classes spanning five months at NewYork-Presbyterian Hudson Valley Hospital. Chef Peter X. Kelly Teaching Kitchen and membership to the hospital's Wellness Center, an onsite exercise facility. The participants were from minority populations, with ten African-Americans and two Latinos. Cooking classes were held every month from March through July 2017 with 12 participants enrolled in the program. The cooking classes are led by the chef, whose focus is teaching participants how to better manage their health through diet and lifestyle changes. The program aims to provide long-term solutions to improving health. Long term, the program emphasizes an increase in consumption of fruits and vegetables, and increase in heart health food preparation techniques, and increase in exercise habits. Moreover, the program seeks to empower participants, increasing their confidence in preparing heart health foods, and promotes mindful food consumption. Most indicative of the success of this program is how participants report feeling after the program. In our starting survey, they felt a certain way. The goal of the Healthy Heart program is to have most participants undergoing change and remaining motivated, and this goal was realized. After the program, four out of five participants embraced significantly new attitudes and corresponding behaviors, while one out of five was just behind them, taking action and deepening a commitment to the next level. This marked difference in attitude and behavior demonstrates how empowering this program is, and transformative for participants. Biometrics: Biometric measurements of blood pressure, weight, and body mass index were recorded for the first class and last class at completion of the 10 week series. 83% of participants (10 people) had a reduction in

Exercise component Tracking participants exercise sessions during the 5-month Healthy Heart program at the Wellness Center showed that the aggregate amount of the entire group is a total of 71 hours exercised and 32,783 calories burned. In addition to the Healthy Heart Program, community members have access to Hudson Valley Hospital Center DBA NYP/Hudson Valley's bi-monthly Farmers Market offered from May through November, making healthier food choices more readily available. Healthy Heart participants were encouraged to use the knowledge learned in the cooking classes about the nutritional value of fresh fruits and vegetables, ask questions directly of the farmers and purchase fresh produce. Priority/Focus Area #2 Prevent Chronic Disease, Reduce obesity in children and adults. Addressed by expanding the role of health care and health service providers in obesity prevention, specifically to increase breastfeeding rates at discharge to 90%. This is accomplished by training all Obstetrical Services staff on the benefits of breastfeeding and by providing breastfeeding education and support to mothers within one hour of birth, teaching mothers how to maintain lactation, and encouraging breastfeeding on demand. The 2016 update to Priority/Focus Area #2, Prevent chronic disease by reducing obesity in children and adults, underscores the importance of breastfeeding in reducing obesity, and increasing breastfeeding at discharge. The link between breastfeeding and reducing obesity is underscored by various sources including The Centers for Disease Control website (www.cdc.gov) states that breastfeeding protects against childhood obesity and the success rate among mothers who want to breastfeed can be improved through active support from their families, friends, communities, clinicians, health care leaders, employers, and policymakers. The New York State Prevention Agenda Dashboard for Westchester County reflects that the percentage of infants exclusively breastfed in a hospital has significantly worsened from 48.7% in 2013 to 44.9% in 2016. As the statewide prevention agenda goal for 2018 is 48.1%, it was deemed by Westchester County Department of Health that focusing on the intervention of increasing breastfeeding at discharge is aligned with and supports the overall Prevention Agenda goals for 2018. The Obstetrical Services Department at Hudson Valley Hospital Center DBA NYP/Hudson Valley has been certified Baby-Friendly by Baby-Friendly USA and the World Health Organization since 2013, for its superior care and commitment to making sure that mothers who choose to breastfeed have the best chance at success (The hospital is seeking recertification in 2018). The policies implemented by the hospital's Obstetrical Services Department directly correspond to the World Health Organization's Ten Steps to Successful Breastfeeding. In addition, Hudson Valley Hospital Center

Part V, Line 11	ter DBA NYP/Hudson Valley, works with Hudson River Health Care, a New York State Federally -Qualified Health Center, that delivers comprehensive primary, preventive, and behavioral health services, to successfully maintain a dedicated lactation and breastfeeding room for its staff. In 2017, Hudson Valley Hospital Center DBA NYP/Hudson Valley achieved breastfeeding rates at discharge of 89%, compared to a monthly average of 78% in 2016. The hospital is striving to achieve monthly rates of 90% by the end of 2018, and will maintain its focus on the importance of breastfeeding to prevent chronic disease and reduce obesity in children and adults, with other initiatives as well. In 2017, Hudson Valley Hospital Center DBA NYP/Hudson Valley served the community by providing bi-monthly breastfeeding education and support groups to 330 new mothers. A grand-parenting support workshop was offered quarterly with 75 participants to date. To further serve the community, the hospital has provided education to 35 students enrolled at Dominican Westchester Community and Concordia Colleges as part of their clinical education. Hudson Valley Hospital Center DBA NYP/Hudson Valley continues to work with Hudson River Health Care (HRHC), offering classes and support. During the first week of August, New York-Presbyterian Hudson Valley Hospital celebrated 2017 World Breastfeeding Week by sponsoring in part a local event with HRHC for The Global Big Latch On (held annually with the goal of breaking the previous years record of the number of babies being breastfed at the same moment worldwide). At the Peekskill event, 40 women gathered to breastfeed and offer peer support, the event and media presence also contributed to community awareness. The hospital's Chef Peter X Kelly Teaching Kitchen offered one Do It Yourself Baby Food class in April 2017, attended by 10 people. In addition, another class, Foods to Support Healthy Lactation, was held in November 2017, attended by 17 people, some of whom also brought their babies. The goal of each class was to share insights and techniques with mothers and partners, to assist them in preparing healthier food items for their children. The 2017 community outreach and education to address the other health factors that were raised in the CHNA, namely nutrition/eating habits and care for the elderly, include the following initiatives. At the hospital's Chef Peter X Kelly Teaching Kitchen, the Physician in the Kitchen lectures and cooking demonstrations features a New York-Presbyterian Medical Group Hudson Valley physician and the Teaching Kitchen chef and coordinator. This unique program highlights a health topic for the physician to lecture about, and then our chef aligns a cooking class to reflect the topic. For example a lecture on eating for heart health and reducing cholesterol is complemented by a cooking demonstration on the Mediterranean diet. Many of our cooking classes at the Chef Peter X Kelly Teaching Kitchen are offered at no

Return Reference	Explanation
Part VII and Schedule J	Certain officers and key employees of the New York and Presbyterian Hospital that are identified in part VII as officers or trustees of the Hudson Valley Hospital DBA NYP/Hudson Valley Hospital are responsible for executing the mission and management of the New York and Presbyterian Hospital (NYP) and its affiliated entities. Compensation for 2017 of these upper level executives includes the payout of an annual incentive plan and a long-term incentive plan. This performance-oriented program conditions payments upon the achievement of multiple individual and group performance measures. Measures to monitor performance include operational and financial strength, patient quality and safety, patient satisfaction, advancement of patient care, and people development and partnership. Incentive awards may only be granted if the organization achieves a financial surplus. Even if all relevant performance measurements are achieved, the NYP Board of Trustees retains full discretion to make or not make any incentive awards, or to reduce the amount of any incentive award. This initiative is critical to assuring that NYP has the requisite leadership to create and manage a highly motivated and engaged workforce, to drive superior performance throughout the organization and to achieve top tier medical center status. As a separate matter, due to restrictions imposed by the Internal Revenue Code, upper level executives are limited in the amount of benefits received under a tax-qualified retirement plan. Like many employers, NYP supplements these executives' pension benefits through a supplemental ("nonqualified") retirement plan. The supplemental executive retirement plan (SERP) is subject to a multi-year vesting requirement (commencing after five years of participation in the SERP, in prorated amounts through age 65) which places an executive's supplemental retirement benefit at risk of forfeiture if the vesting requirements are not satisfied. Once vested, however, provisions of the Internal Revenue Code require that the vested executive include in current income the value of his or her vested supplemental retirement benefit. Notwithstanding the legal requirement to recognize the vested value of the supplemental retirement benefit as current income, the supplemental retirement benefit will not be distributed to the executive until the executive actually retires from NYP (although, as permitted by the Internal Revenue Code, the supplemental retirement plan will effect a distribution of an amount necessary to satisfy the executive's tax liability resulting from the income recognition upon vesting). As noted, this supplemental retirement benefit will not be distributed to the executive until the executive actually retires from NYP. There are constantly changing legal, tax, accounting, and public disclosure rules for a SERP (supplemental executive retirement plan) in not-for-profit organizations. The executive Compensation Committee continuously monitors these changes and incorporates any changes into the overall SERP plan design. As in past years, the executive Compensation Committee of NYP requires a third party complete a review of the organization's compensation program to ensure its effectiveness in terms of government regulations, market conditions and the need to continually elevate organizational performance. The report also serves to meet the regulatory obligations to ensure that all elements of the executive compensation programs are reasonable. The individuals listed in part VII that are compensated by New York Presbyterian Hospital devote an average of sixty hours per week to perform their responsibilities for the New York Presbyterian Hospital and other related organizations in the aggregate. Schedule J, Line 3 Compensation decisions for the President was determined by a related organization following that organization's compensation policy.
