Part XV:

Question 2c

Any submission deadlines

Regular Grants

Applications for regular grants must be submitted electronically, using the online application system, by midnight July 16. All regular grant applications are held until after the July 16 deadline, so there is no advantage to applying early.

Mini Grants

In addition to its regular grants program, Blue & You offers a simpler application for \$1,000 mini-grants to support health-improvement projects in Arkansas. Applications for mini-grants will be accepted in the months of January, February and March. You will be notified of mini-grant awards within 10 days of your application. Deadline to apply is midnight, March 15.

Question 2d

Any restrictions or limitations on awards such as by geographical areas, charitable fields, kinds of institutions, or other factors

The following circumstances or proposal type may disqualify applicants from receiving a grant from the Foundation:

- Any organization that has received Foundation "regular grant" funding for a specific program for a total of two years is not eligible to reapply for subsequent "regular grant" funding for the same program. The same rule of "no more than two years of funding for the same program" also applies to mini-grants. After two years of funding for the same program, an organization is still eligible to apply for funding of a different health program.
- For churches, the health improvement program must reach beyond its own congregation.
- For organizations not based in Arkansas, the project must specifically benefit residents of Arkansas.
- Grants will not be made to individuals, fundraising events or celebrations, political or lobbying organizations, fraternal, athletic or social organizations, organizations that do not directly serve Arkansas, religious organizations for religious purposes, capital or endowment of organizations, proposals that are principally for construction of facilities or purchase of large equipment, or for attendance at conferences.
- Proposals that are principally tobacco-related will not be considered because of the availability of funding from the Tobacco Settlement.
- Cannot be a private foundation under IRC § 509(a).
- Primary grantee cannot have a contractual relationship with Arkansas Blue Cross and Blue Shield, its subsidiaries or affiliates.

A "contractual relationship" is defined as an arrangement whereby an organization has a contract to provide a service or product to the corporate entities of Arkansas Blue Cross, its subsidiaries or affiliates (in the nature of a "vendor" relationship). Such a relationship would make the organization ineligible for a foundation grant.

Organizations whose sole relationship is that of purchasing health insurance for its employees from Arkansas Blue Cross, its subsidiaries or affiliates (in the nature of a "customer" relationship), and do not provide a service or product to these corporate entities, are not considered to have a "contractual relationship" within this definition and therefore are eligible for grants, if other eligibility criteria are met.

Also, an organization that has a contractual relationship to provide a service or product to individuals or groups that have health insurance through Arkansas Blue Cross, its subsidiaries or affiliates (in the nature of a "provider" relationship), are eligible to receive grants if other eligibility criteria are met. For example, participating providers (physicians or hospitals) are not considered ineligible simply because they provide a service to individuals insured through Arkansas Blue Cross, its subsidiaries or affiliates.

An exception to the "provider" guideline above involves those several hospitals which have a joint venture contractual relationship with Arkansas Blue Cross, its subsidiaries or affiliates. A grant application from a joint venture hospital would be ineligible. However, a qualifying Foundation of such a joint venture hospital could be eligible to apply for a grant, if other eligibility criteria are met.

In summary, "vendors" are ineligible but "customers" and "providers" as defined above are generally eligible for grants if other eligibility criteria are met.
