**Part I, Line 4 – Independent Voting Members**

**Part VI, Line 1b – Independent Voting Members**

The recommendation regarding independent members of the governing board of a charity is described and discussed in detail in the report entitled "Principles for Good Governance and Ethical Practice, A Guide for Charities and Foundations", Reference Edition, that was published in October 2007 by the Panel on the Nonprofit Sector. This panel was convened by Independent Sector and its recommendations have been cited with approval by the Internal Revenue Service. Such report concludes that the principle with respect to independent directors does not apply to various types of organizations, including supporting organizations such as the Foundation, as to which the requirements of IRC Section 509(a)(3) require common Board members. In this regard, Footnote 27 on page 23 expressly states as follows: "This principle [a substantial majority of the Board should be independent] does not apply to private foundations; medical research institutions...; supporting organizations or subsidiaries that are required by law...to include representatives of the supported organizations or sponsoring charities on their board..." [footnote listing continues with several other specific types of Section 501(c)(3) organizations].

**Part III, Line 1 - Briefly describe the organization's mission:**

To advance medical and scientific research through the transfer of technology from the laboratory to public use by obtaining patents and licenses and administering patents arising out of discoveries made pursuant to research conducted or sponsored by Clayton Foundation for Research and its supporting organizations.

**Part III, Line 4b:**

Research Development Foundation ("RDF") is established to transfer medical and scientific technology from the lab to the public use by obtaining patents and licenses and administering patents arising out of discoveries made pursuant to medical research conducted or sponsored by Clayton Foundation for Research, a medical research organization described in Section 170(b)(1)(A)(iii) ("Clayton"), and by supporting organizations to Clayton. RDF's current patent portfolio contains approximately 200 patent applications and issued patents on discoveries that have been made in the course of the various research projects that have been conducted by Clayton or funded by another supporting entity of Clayton over the years. RDF has entered into numerous licenses of such discoveries to pharmaceutical and startup companies and nine of such discoveries have already led to products that have been brought to market by the licensee and are benefiting mankind. RDF has collected millions of dollars in patent royalties from its licensing activities over the years.
