Form and Line Reference	Explanation
Schedule H, Part III, Line 8	In accordance with 42 CFR 413 24, Columbus Community Hospital uses the step-down method as its costing methodology. Departments within a provider are usually divided into two types. 1) Those that produce patient care revenue (e.g., routing services, radiology), and 2) Those that do not directly generate patient care revenue, but are utilized as a service by other departments (e.g., laundry and linen, dietary). The two types of departments are commonly referred to as revenue-producing cost centers and nonrevenue-producing cost centers. Although nonrevenue-producing cost center do not directly produce patient care revenue, they contribute indirectly to patient care revenue generated by serving as a service to the revenue-producing centers and also to other nonrevenue-producing centers. Therefore, for the purpose of proper matching of revenue and expenses, the cost of the revenue-producing centers should include both its direct expenses and its proportionate share of the costs of each nonrevenue-producing center (indirect costs) based on the amount of services received. The process of allocating the cost of a particular nonrevenue-producing center to other nonrevenue-producing centers and revenue-producing centers is performed by utilizing a set of statistics (e.g. pounds of laundry for allocating laundry and linen costs, square feet for allocating depreciation building costs). Every nonrevenue-producing cost center has the potential of being allocated to every other nonrevenue-producing cost center in addition to the revenue-producing cost centers. This precludes a simple allocation of the direct expense of the nonrevenue-producing cost center being allocated. The step-down method recognizes that services furnished by certain nonrevenue-producing departments are utilized by certain other nonrevenue-producing centers as well as by the revenue-producing centers. All costs of nonrevenue-producing centers are allocated to all centers that they serve, regardless of whether or not these centers produce revenue. The cos

The plan also includes strategic issues, goals and related strategies for future organizational effectiveness. Six organizational pillars were identified. Quality, Culture, People, Service, Facilities and Finance. 1) Quality efforts have been focused on Evidence-Based Processes (EBP) and educating staff on the importance of using and integrating these processes in daily operations. CCH has implemented an electronic medical record to afford ease of information access and communication across the continuum of care. The clinical leadership groups for nursing and respiratory therapy have initiated a review of how to integrate EBP into the clinical areas and will be starting classes to educate staff within and outside nursing 2.) Culture. In an effort to achieve a high performance organization, CCH is in the process of implementing a 4-part culture improvement initiative that includes. TeamSTEPPS, Just Culture, Student and Lean/Six Sigma Process Improvement. The Hospital continues to work with the Studer Group to hardwire appropriate tools, focusing on improving patient outcomes and create a culture/environment, making CCH an employer of choice, and where physicians want to bring their patients for care. 3) People. CCH has continued to be aggressive in its recruitment efforts to attract and retain the workforce needed to support strategic growth initiatives across all service lines. CCH is initiating a new on-boarding process for new employees. In addition, nursing has updated their orientation program and has trained preceptors and nurse mentors/coaches. 4) Services. Several participants who had previously been taking prescription medication under their physician's guidance, have had their dosage reduced or been able to be completly taken off the medication. In addition to CHIP, CCH offer is several ongoing programs that educate the community about nutrition and healthy eating. This includes monthly cooking classes and a program called Ask the Dietician. The Healthy Cooking Classes are held the third Tuesday of each month. For \$15, community members can learn a collection of easy and healthy recipes. Dieticians also give participants advice on how to cut down on unhealthy ingredients like fat and sodium. CCH dieticians also offer free Ask the Dietitian sessions which give community members the opportunity to get one-on-one time with a dietician every week. Each session includes an educational discussion, fol llowed by a question and answer segment. CCH dietitians can answer questions about diabete s, weight loss, heart health, healthy cooking and much more. CCH held its 14th annual Tune -Up for Life on September 9, 2017. The event featured free halth screenings for blood pressure, body composition, bone mineral density, as well as tests on flexibility, strenth, he aring and vision. At the event, attendees could also get discounted health screenings, and seasonal flu shots and the pneumonia vaccine. Also in September 2017, CCH participated in Kids Safety Day, where area families could learn safety trips from local experts. The even tincluded demonstrations and displays that allowed child

The wage range is compared to information provided by third party consultants. Decisions are documented Schedule J. Part I. Line 6a With the assistance of Towers-Watson, executive compensation consultants, the Board authorized paying an incentive to the executives for meeting specific Board-

Established Directives The Board authorized paying up to 25% of base compensation for Michael Hansen and up to 20% for the following VPs - Linda Walline -Amy Blaser - Chad Van Cleave The incentive is based on goals established by the Board which are now reviewed annually. One of the goals is the Hospital's operating margin. The Board determines the associated metrics for each individual goal. Each of the goals is then assigned a weight based on the level of Importance, as determined by the Board. The results are entered and the metric is tabulated. That number is multiplied by the corresponding weight. Once

weighted, the figures are added in total to establish a score between 1 and 5. No incentive is paid if the Hospital's operating margin falls below 7.0%, regardless of Ithe outcomes of the other measures. Any physician bonuses are based on productivity. The incentives were paid in this fiscal year for work done in the previous
