Form 990 (2017)

Form 990, Part III, Line 4a:

OhioHealth’s primary purpose is to provide diversified healthcare services to the community and is a provider of services under contractual arrangements with the Medicare and Medicaid programs as well as other third-party reimbursement arrangements. Together, OhioHealth MedCentral Mansfield Hospital, OhioHealth Marion General Hospital, OhioHealth O’Bleness Memorial Hospital, OhioHealth Grady Memorial Hospital, OhioHealth Hardin Memorial Hospital, OhioHealth MedCentral Shelby Hospital, OhioHealth Home Care, and OhioHealth Home Health Services in Athens are united in our mission to provide quality, compassionate healthcare and to be responsible stewards for our community’s health. Even as the face of healthcare continues to change, the commitment of OhioHealth endures – ensuring quality care for everyone, regardless of their faith, race, age, or ability to pay. We never lose sight of our mission to “improve the health of those we serve” and our core values – compassion, excellence, stewardship, integrity, and diversity and inclusion. They continue to guide us in our work today. OhioHealth touches thousands of people, saves lives, improves health and makes futures a little brighter. Through our shared mission, vision and values, we touch more lives in Central Ohio and the surrounding communities than any other health system. As a system of faith-based, not-for-profit healthcare providers – together, we are OhioHealth.

Form 990, Part III, Line 4b:

In fiscal year 2018 (July 1, 2017 through June 30, 2018), OhioHealth with its member hospitals and home care organizations, provided charity care and community benefit programs to a greater degree than ever. In total, OhioHealth provided \$393.7 million in charity care and community benefit programs and services, reaching hundreds of thousands of people in the communities we serve. Of this total, \$143.9 million was provided by OhioHealth MedCentral Mansfield Hospital, Marion General Hospital, O'Bleness Memorial Hospital, Grady Memorial Hospital, Hardin Memorial Hospital, OhioHealth MedCentral Shelby Hospital and other related Group entities. Member hospitals provide medically necessary services without charge or at amounts less than its established rates to patients who meet certain criteria under its charity care policies. In assessing a patient's ability to pay, the member hospitals not only utilize generally recognized poverty income levels of the communities they serve, but also include certain cases where incurred charges are significant when compared to the patient's financial resources. Charity care is determined based on established policies, using patient income and assets to determine payment ability. OhioHealth provides community services intended to benefit the underserved and enhance the health status of the communities it serves. These services include 24 hour a day emergency rooms, community health screenings, forums for various support groups, health education classes, speakers and publications, hospice and medical research. OhioHealth has been able to achieve a greater impact in the community by partnering financial and human resources with other organizations. These expenditures include commitments to infant mortality reduction projects, pastoral care services, various civic sponsorships, and other community partnership programs. OhioHealth Corporation's total benefit to the community includes the cost of charity care (net of assistance received from the Hospital Care Assurance Program), unpaid cost of Medicaid, the cost of medical education programs as well as the cost of certain programs discussed above.

Form 990, Part III, Line 4c:

The OhioHealth Research & Innovation Institute (OHRI) is committed to providing the resources needed to advance patient care through clinical research and innovation. As one of the top 10 percent of research programs at non-profit, community-based healthcare systems, our program is a leader in researching new drugs, medical devices and procedures. Our access to leading edge clinical trials allows us to deliver improved outcomes and potentially save lives by giving our patients access to the therapies of the future today. OhioHealth's emphasis on research reflects our commitment to the community, our clinicians and, most of all, our patients. Our clinicians generate and pursue research and innovation ideas from their real-world experience caring for patients. We view clinical research as an extension of clinical care because it allows our physicians, nurses and other clinicians to provide leading-edge treatments to patients. Our areas of focus are industry research that expands patient access to groundbreaking clinical trials. These trials pave the way for better treatments. OHRI welcomes industry-sponsored research in partnership with drug and device companies looking to test their investigational products at a large facility associated with excellent clinicians. Academic research focuses on educating and training our physicians and clinicians with programs that develop their skills, knowledge and leadership in advancing healthcare. OhioHealth also provides an ideal setting for federal and foundation funded research that addresses the needs of the public. Innovation and commercialization supports OhioHealth physicians, clinicians and medical staff with their innovative ideas. Through its OhioHealth \$5 million Innovation Development Fund, OHRI provides financial support and resources in all stages of product development and commercialization with the ultimate goal of improving patient care. Sponsored programs are initiatives that are funded by grant monies. Our finance experts have extensive experience in managing and reporting grant monies needed to fund important initiatives. Health equity programs bring healthcare programs and services to underserved communities and people such as Latina women, Amish and Mennonite communities, teenage mothers and the Appalachian region. The OhioHealth Research and Innovation Institute is vital to OhioHealth's recognition as a national leader in developing and advancing medical breakthroughs as well as meeting the needs of our community. Our Successes are 12 Years of Improving Care Transcatheter Aortic Valve Replacement For eight years, OhioHealth has been on the forefront of revolutionizing care for patients with aortic valve disease by leading successful clinical trials. In fact, our work has been integral in the FDA-approval of transcatheter aortic valve devices now being used to treat patients with aortic valve disease who had no other treatment options. MD Anderson Cancer Network As part of OhioHealth's collaboration with the MD Anderson Cancer Network, we are now participating in cancer clinical trials through the University of Texas MD Anderson Cancer Center. Research across the region As our hospital system has continued to expand across the state, so have our research programs. We now offer clinical research at many of our outlying hospitals including OhioHealth Mansfield Hospital. First in human clinical trials For many years, most first in human clinical research trials have been conducted outside of the United States. However, a new concerted effort by the FDA to bring these leading edge trials back to the US has landed OhioHealth two first in human clinical trials in the past years - one of only three health systems in the country to achieve this due to our proven track record of leading safe and successful clinical trials. Meeting the needs of the underserved Through our health equity programs, we have provided access to care to many underserved communities including Appalachian, the Amish and Mennonite, Latina women and teen mothers. Susan G. Komen Grant Funding For twelve years, we have received funding from the Susan G. Komen Foundation to support Proyecto Cancer del Seno in Latinas, the Latina Breast Cancer Project, which connects Latina women with breast cancer screening services and community education programs. Taking ideas from concept to market Our Innovation and Commercialization team has assisted our clinicians with more than 350 commercialization projects leading to 12 new product companies launched by OhioHealth staff and 9 commercialized products in use at OhioHealth sites.

Form and Line Reference	Explanation
Schedule H, Part I, Line 3c Financial Assistance and Certain Other Community Benefits at Cost	OhioHealth uses the state and federal program administered by the Department of Medicaid Hospital Care Assurance Program (HCAP) as defined in the Ohio Administrative Code. HCAP is an Ohio program that states that any patient whose family size and income level is below the federal poverty guidelines, receives free care for hospital services. If the patient proves that their income falls below the federal poverty guidelines, OhioHealth must discount their responsibility of the claim 100%. OhioHealth's internal charity policy addresses patients whose family size and income is above the federal poverty guidelines. OhioHealth has decided to provide discounts on patient balances for patients whose family size and income is up to 400% of the federal poverty guidelines discounted care.

Form and Line Reference	Explanation
Schedule H, Part III, Line 3 Bad Debt Expense Methodology	OhioHealth has a very robust financial assistance program, therefore, no estimate is made for bad debt attributed to financial assistance eligible patients. ALTHOUGH OUR FINANCIAL ASSISTANCE POLICIES AND PROCEDURES MAKE EVERY EFFORT TO IDENTIFY THOSE PATIENTS WHO ARE ELIGIBLE FOR FINANCIAL ASSISTANCE BEFORE THE BILLING PROCESS BEGINS, OFTEN IT IS NOT POSSIBLE TO MAKE AN APPROPRIATE DETERMINATION UNTIL AFTER THE BILLING AND COLLECTION CYCLE HAS COMMENCED.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	Accounts receivable for patients, insurance companies, and governmental agencies are based on gross charges. An allowance for contractual adjustments is based on expected payment rates from payors based on current reimbursement methodologies. This amount also includes amounts received as interim payments against unpaid claims by certain payors. An allowance for uncollectible accounts is established on an aggregate basis by using historical write-off rate factors applied to unpaid accounts based on aging. Loss rate factors are based on historical loss experience and adjusted for economic conditions and other trends affecting the Corporation's ability to collect outstanding amounts. Uncollectible amounts are written off against the allowance for doubtful accounts in the period they are determined to be uncollectible. For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Corporation records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (including uninsured discount) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts in the period they are determined to be uncollectible.

Schedule H, Part III, Line 8 Community benefit & methodology for determining medicare costs	OhioHealth's schedule H has been prepared IN ACCORDANCE WITH THE CATHOLIC HEALTH ASSOCIATION GUIDELINES PER "A GUIDE FOR PLANNING AND REPORTING COMMUNITY BENEFITS", AND as such, OHIOHEALTH DOES NOT REPORT MEDICARE SHORTFALL AS COMMUNITY BENEFIT However, per a 2013 study done for the American Hospital Association by Ernst & Young, the tax-exempt hospital community collectively BELIEVES THERE ARE SEVERAL REASONS WHY MEDICARE SHORTFALL could BE TREATED AS COMMUNITY BENEFIT FIRST, NON-NEGOTIABLE MEDICARE RATES ARE SOMETIMES OUT-OF-LINE WITH THE TRUE COSTS OF TREATING MEDICARE PATIENTS SECOND, BY CONTINUING TO TREAT PATIENTS ELIGIBLE FOR MEDICARE, HOSPITALS ALLEVIATE THE FEDERAL GOVERNMENT'S BURDEN FOR DIRECTLY PROVIDING MEDICAL SERVICES THIRD, IRS REVENUE RULING 69-545 STATES THAT IF A HOSPITAL SERVES PATIENTS WITH GOVERNMENT HEALTH BENEFITS, INCLUDING MEDICARE, THEN THIS IS AN INDICATION THAT THE HOSPITAL OPERATES TO PROMOTE THE HEALTH OF THE COMMUNITY OHIOHEALTH USES AN INTERNAL COSTING METHODOLOGY SYSTEM CALLED EPSI WHICH USES SEVERAL FACTORS TO DETERMINE MEDICARE ALLOWABLE COSTS OF CARE RELATING TO MEDICARE PAYMENTS

Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance	The organization has a written debt collection policy. The policy provides the following guidelines as it relates to patients who qualify for charity care: the patient may apply for financial assistance via Medicaid, Victims of Crime, HCAP/Charity, or with an OhioHealth contracted company to help the applicant complete the process when needed. Once the charity determination is made, collection efforts are suspended. If a patient qualified for a discount, collection efforts on the remaining balance are consistent with all other self-pay collections, which receive a discount at the time of billing.

Return Reference	Explanation
Schedule J, Part I, Line 3 Arrangement used to establish the top management official's compensation	The Parent Corporation (a related organization) used the following methods to establish the compensation of the CEO for each of the filing organizations included in the OhioHealth Group 990 return - Compensation committee - Independent compensation consultant - Form 990 of other organizations - Compensation survey or study - Approval by the board or compensation committee
Schedule J, Part I, Line 4a Severance or change-of-control payment	UNDER A VOLUNTARY TERMINATION AGREEMENT ENTERED INTO BY THE EMPLOYEE AND THE ORGANIZATION OR UPON A QUALIFYING TERMINATION DEFINED AS AN INVOLUNTARY SEPARATION FROM SERVICE OTHER THAN FOR CAUSE, THE EMPLOYEE IS ENTITLED TO SEVERANCE PAY BASED UPON YEARS OF SERVICE. THE TERMS AND CONDITIONS TO RECEIVE SEVERANCE PAYMENTS REQUIRE THE EMPLOYEE TO SIGN A RELEASE OF CLAIMS FORM THAT COVERS ALL SITUATIONS SURROUNDING THE EMPLOYEE'S EMPLOYMENT AND SEPARATION FROM OHIOHEALTH. SEVERANCE PAYMENTS WERE MADE DURING THE YEAR TO THE FOLLOWING LISTED PERSONS IN PART VII: RICHARD SNOW - \$368,164
Schedule J, Part I, Line 4b Supplemental nonqualified retirement plan	There were no individuals listed in Form 990, Part VII that received distributions from a supplemental non-qualified retirement plan. Eligible executives listed in the Form 990, Part VII participate in a supplemental non-qualified plan. These arrangements are an industry standard and are unfunded. Due to the substantial risk of forfeiture provision, there is no guarantee that these officers will ever receive these benefits. Amounts for these arrangements are included in the deferred compensation amount.
Schedule J, Part I, Line 7 Non-fixed payments	Incentive bonuses are calculated using an objective formula that includes clinical quality, patient, physician and employee satisfaction, and financial items. Minor modifications to increase or decrease incentive payments, within the maximum amount established for each position, may be made based on individual performance and accountabilities. In addition, one-time bonuses may be awarded to recognize exemplary performance. All payments are examined for reasonableness and are reviewed and approved by either the Executive Compensation Committee (for disqualified persons) or through management and the company's human resources function (for non-disqualified persons).

Within OhioHealth there are multiple levels of review, as well as a presentation to the OhioHealth Board Finance and Audit Committee, prior to copies being provided to the OhioHealth Corporation Board before filing. Additionally, Deloitte Tax reviews and signs the tax return prior to filing with the IRS. Each entity within Group is a wholly owned or controlled subsidiary of OhioHealth and requires the approval of OhioHealth for major financial transactions. Form 990, Part VI, Line 12c Conflict of interest policy	The conflict of interest policy has been reviewed by independent tax counsel to assure its compliance with the requirements of the Internal Revenue Service. The policy requires all officers, directors and key employees to complete an annual questionnaire pertaining to conflicts of interest. The questionnaire is administered by the General Counsel of OhioHealth, the parent company of the organization. The responses are recorded and reported to the Board in the format approved by the Chair of the Board (a community member). In the interim between questionnaires, conflicts are to be reported to the General Counsel, who will advise the conflicted officer, director or key employee on the steps required to manage or clear the conflict. Failure to report a conflict, or failure to follow the steps advised to clear the conflict, constitutes grounds for disciplinary action. Members of the governing board with a transactional conflict are required to recuse themselves from any discussion and/or vote pertaining to the conflicted transaction, and this is reflected in the minutes of the organization. Legal counsel attends Board meetings and Board committee meetings with the instruction to assure the conflict of interest policy is followed.
