990 Schedule O, Supplemental Information

Return Reference	Explanation
Form 990, Part III, Line 4d Other Program Services Description	OTHER PROGRAM SERVICES 4 Clean Transportation The Center for Climate Protection worked on legislation to phase out fossil fuel powered vehicles in California. As part of this effort, we produced a report, "Survey of Global Activity to Phase Out Internal Combustion Engine Vehicles." We found that many countries such as China, Britain, France, and India have already set a date to phase out gas and diesel-powered vehicles. We hope that this report will help build momentum in the United States to pass similar measures. The Center is working locally with Sonoma Clean Power, a Community Choice agency that the Center for Climate Protection helped start, and the Regional Climate Protection Authority on an online electric vehicle knowledge base to answer questions from potential EV buyers and new car owners. The center has also helped promote a Sonoma Clean Power EV incentive program which has helped get 1200 new EVs on the road. As a result, Santa Rosa, the largest city in Sonoma County, increased its fleet of EVs by a greater percentage than any other city in the state. OTHER PROGRAM SERVICES 5 Solar Sonoma County Serves the community through our 'Solar Coach' program which provides solar customers with referrals to three pre-qualified solar vendors. We have also been supporting the shift to 'Solar-Plus' technologies -- electric storage systems, fuel switching, electric vehicles, electric heat pump systems, -- through customer education and solar vendor trainings. OTHER PROGRAM SERVICES 6 Business for Clean Energy We partner with more than 70 business sponsors to leverage the business community's leadership and foster creative climate solutions. We spread their stories about their green innovations in the media, and convene members quarterly to share successes, best practices, and inspiration. OTHER PROGRAM SERVICES 7 Building the Movement The Center's program that educates the public and key stakeholders about the climate crisis and key solutions that will reduce greenhouse gas emissions. We do this through multiple media through printed media, our website, Face Book and Twitter, our newsletter, through studies and reports, and also through public meetings and events. Our annual report also outlines the solutions that we are implementing through our programs and is available on our website. Here are examples of reports that we have produced in 2017-18: State of Solar Energy in Sonoma County, Paths to Accelerate Adoption, Survey of Global Activity to Phase Out Internal Combustion Engine Vehicles, and Sonoma County Greenhouse Gas Report for 2016. OTHER PROGRAM SERVICES 8 Climate Action Fellowship A pilot program to engage people to take action on climate change over an extended period of time and to build a self-replicating movement that will support speed and scale solutions. The Center ran to trail groups of 16 participants through a 6 week training module. The feedback and learning from this pilot are being incorporated into ongoing research.

Form 990, Part III, Line 4c - Continuation of Program Accomplishments	Climate Solution Development (Continued from Page 3) With support from the Adobe Foundation, the Center has been working with two of our Silicon Valley partners to compile resources for distributed energy projects, programs, and best practices Through presentations and webinars, we will provide resources for accelerating local project development The goal of this project is to encourage stronger, more differentiated Community Choice agencies, and to assist these five agencies in offering more benefits for the people and businesses in their communities while driving down carbon emissions The Center has written and is propagating a paper on theory of change about what the climate movement is missing We are also testing this theory - to create a powerful, exponentially growing fellowship of committed climate activists, and focus these activists on powerful public policy solutions to produce significant greenhouse gas emission reductions commensurate with the speed and scale of the crisis
