Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the Corporation follows established guidelines for placing certain past-due patient balances within collection agencies, subject to the terms of certain restrictions on collection efforts as determined by Ascension Health. Accounts receivable are written off after collection efforts have been followed in accordance with the Corporation's policies. After applying the cost-to-charge ratio, the share of the bad debt expense in fiscal year 2018 was \$4,341,577 at charges, (\$3,169,351 at cost).

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part III, Line 3 Bad Debt Expense Methodology	<p>The provision for doubtful accounts is based upon management's assessment of expected net collections considering historical experience, economic conditions, trends in healthcare coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for doubtful accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for doubtful accounts to establish an appropriate allowance for doubtful accounts.</p>

Schedule H, Part VI, Line 2 Needs assessment	<p>The assessment process involved quantitative and qualitative components. St. Agnes engaged the participation of the general public as well as key internal and external stakeholders who represent the broad interest of the communities served by St. Agnes to review the quantitative analysis. The public provided input through a structured online survey and via focus groups across the assessment process during fiscal year 2016. The internal and external stakeholders were individuals with expertise in provision of health care services and public health and included community leaders, physicians, nursing, social work, pastoral care, emergency outpatient and management representatives and a broad range of community organizations. A quantitative assessment was conducted using a survey administered electronically and on paper to gain broad public input. A copy of the survey is included as Appendix 2 of the Community Health Needs Assessment which is available on the hospital's website. A qualitative assessment was conducted using focus groups facilitated by Observation Baltimore, a division of The Research Group/Family Research Center. Six focus groups were conducted for Saint Agnes Hospital to better understand the healthcare needs of the medically underserved, low-income, and minority populations in the most vulnerable communities identified in the FY13 assessment. The composition of the focus groups was recruited to match the demographic composition of the community's survey. Participants were also included by either a personal history or family history of chronic disease with a consideration of environmental risks (specifically smoking tobacco, drinking alcohol daily or occasionally, and use of non-prescription drugs). The Hispanic population was also targeted to ensure input from all ethnicities.</p>

Schedule H, Part VI, Line 4 Community Information	<p>With the FY18 Community Needs Assessment, our Community Benefit Service Area (CBSA) has re defined First, due to multiple internal and external changes over the last two decades, the zip codes that comprise the Saint Agnes Hospital service area have shifted East and the primary service area (Top 60% of lives served) has oriented to include a greater share of West Baltimore city communities. Second, anticipating Phase 2 waiver the CBSA was redefined to better align with Phase 2 Total Cost of Care patient attribution geography. And finally, the CBSA was aligned to those zip codes where Saint Agnes has the greatest ability to demonstrate meaningful impact on community health outcomes. The wide variety of needs that exist throughout the service area can be addressed most effectively with an acute focus on those crucial needs upon which Saint Agnes Hospital can have the greatest impact. It is this focus that will guide the allocation of resources, and development of health care programs, which will most significantly improve community health. Due to its location in the southwest segment of the Baltimore Metropolitan Area, Saint Agnes serves a diverse patient population. Saint Agnes' CBSA (Baltimore City and Baltimore County) has a population of approximately 400,514 (all population data was taken from Sg2 data for 2018). The service area for study in the Community Health Needs Assessment represents the zip codes that comprise 70% of Saint Agnes Hospital discharges. A map of the communities Saint Agnes serves can be seen in the Community Health Needs Assessment which is located on the hospital website. Within the CBSA, Saint Agnes has defined eight different communities. The communities are groupings of zip codes in the defined CBSA based on similar demographic characteristics and geographic boundaries. Details about each of the individual communities follows:</p> <ul style="list-style-type: none"> Arbutus (Zip Code 21227) Arbutus is an older suburban community, located south of Caton and Wilkens Avenues, and has a population of 34,139.
