NEEDS ASSESSMENT	<p>PART VI, LINE 2 In FY18, MedStar Washington Hospital Center (MWHC) conducted a Community Health Needs Assessment (CHNA) in accordance with the guidelines established by the Patient Protection and Affordable Care Act and the Internal Revenue Service. A 28 member Advisory Task Force (ATF) led the MWHC CHNA process. The ATF included a diverse group of individuals, including hospital leaders, grassroots activists, community residents, faith-based leaders, hospital representatives, public health leaders and other stakeholder organizations, such as representatives from local health departments. The ATF reviewed national, state, and local health and disparity data, public health priorities and community health improvement plans as well as county-level ZIP code and neighborhood level data (when available). Based on their findings, ATF members designed a CHNA survey tool consisting of open and closed-ended questions about healthcare access, health equity, health condition concerns, social determinants and community strengths and assets. Community members responded to the survey by attending a community input session or completing it online or via hardcopy. Based on the ATF's recommendation, the hospital identified District of Columbia Wards 7 and 8 as its Community Benefit Service Area (CBSA), which includes residents living in ZIP codes 20011, 20019 and 20020. The hospital selected this geographic area based on hospital utilization and secondary public health data as well as its close proximity to the hospital, coupled with an opportunity to build upon longstanding programs and services. The ATF used population-level data, community health needs survey findings and feedback from community input sessions to create recommendations for the hospital's health priorities, potential implementation strategies, and to identify key partners. Based on the ATF's recommendation, the hospital health priorities for the CBSA include health and wellness (chronic disease prevention and management, behavioral health), access to care and services (mental health, linkage to resources and services, transportation) and social determinants of health (food access, employment, housing). The hospital's FY18 CHNA and three-year Implementation Strategies were endorsed by MWHC Board of Directors and approved by the MedStar Health Board of Directors. The document became available on the hospital's website on June 30, 2018. As a proud member of MedStar Health, representatives from MWHC routinely participate in the MedStar Health community benefit workgroup. The workgroup is comprised of community health professionals who represent all ten MedStar hospitals. The team analyzes local and regional community health data, establishes system-wide community health programming performance and evaluation measures and shares best practices.</p>
