Return Reference	Explanation
Part II-B, Line 1	Statement Regarding Legislative Activity Health care policy is critical to all Americans, and the Organization believes that health care providers must participate in forming health care policy by interacting with national, state and local representatives and their staff members to help them better understand the complexities and ramifications of key health care policies including, without limitation, those related to uninsured and indigent patient needs as well as the legislative and regulatory needs to assure the delivery of cost-efficient, quality health care. The Organization has established relationships with persons and industry associations that often communicate the Organization's positions on major health care issues. These contacts may include direct contact, telephone conversations and/or letters. Also, the Organization may attempt to educate the local community on certain legislative initiatives that may impact The Organization's ability to provide quality health care services to the community through direct mailings, media advertising or broadcast statements. The amount of resources (time and money) involved in these activities is insubstantial. The Organization has not intervened in any political campaign.

Form and Line Reference	Explanation
Part III, Line 4	<p>As stated in the combined audited financial statements, "The System maintains allowances for uncollectible accounts for estimated losses resulting from a payor's inability to make payments on accounts. The System assesses the reasonableness of the allowance account based on the historical write-offs, cash collections, the aging of the accounts and other economic factors. Accounts are written off when collection efforts have been exhausted. Management continually monitors and adjusts its allowance associated with its receivables." Bad debt does not include amounts for patients who are known to qualify under the organization's charity care policy. The amount of bad debt attributable to patient's accounts is net of contractual allowance, payments received and recoveries of bad debt previously written off. The Organization has entered zero on Schedule H, Part III, Line 3, however, based on prior experience and certain demographics and other information obtained during admission, the organization believes a portion of the bad debt expenses (estimated to range from 1-5%) would be attributable to patients that would otherwise qualify for charity care. Despite all of the effort and ways the organization educates patients about qualifying for its charity care program as demonstrated in Part VI, question 3 below, many uninsured patients either refuse or fail to complete a charity care application or provide sufficient information at the time of admission, during their stay or after being discharged to qualify for assistance under the organization's charity care policy.</p>

# 990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 8	<p>The amount reported on Part III, Section B, line 7 was calculated in accordance with the Schedule H instructions utilizing the organization's allowable cost reported in the Medicare cost report based on a cost to charge ratio. However, the allowable costs in the Medicare cost report do not reflect the actual cost of providing care to patients since the Medicare cost report excludes many direct patient care costs that are essential to providing quality care to these patients. For example, certain coverage fees to physicians, cost of Medicare C and D, and other similar direct patient care expenses are specifically excluded as allowable cost in the cost reports. Using the same methodology to calculate the unreimbursed cost of providing charity care and Medicaid (using applicable Schedule H Worksheets) would result in a shortfall of \$16,678,516, which is \$13,256,400 higher than the shortfall reported on Part III, Section B, Line 7. The organization believes that all of the shortfall should be considered as a community benefit for the following reasons:</p> <p>First, the IRS Community Benefit Standard includes the provision of care to the elderly and Medicare patients. IRS Revenue Ruling 69-545 provides, in part, that hospitals serving patients with governmental health benefits, including for example Medicare, is an indication that the hospital operates for the promotion of health in the community. Second, the organization provides care to Medicare patients regardless of this shortfall, i.e., loss, and thereby relieves the state and federal government of the burden of paying the full cost for the care of Medicare beneficiaries. Medicare does not provide sufficient reimbursement to cover the entire cost of providing care to these patients causing the organization to use other surplus funds to cover the shortfall. It is expected that reimbursement under the Medicare program will continue to decline and therefore may further limit access to care due to the anticipated reduction of participating Medicare providers in the community. As a result, the care for these patients will likely increase at, and rest on the shoulders of, nonprofit hospitals or county hospital districts. Third, many of the Medicare participants have low fixed incomes and therefore would qualify for charity care or other means tested government programs absent being enrolled in the Medicare program. Fourth, Texas nonprofit hospitals must provide a minimum level of community benefit in order to obtain exemption from state and local taxes. According to the current Texas Health and Safety Code, the unreimbursed cost of Medicare is considered to be a community benefit in determining these state statutory requirements as it helps relieve a governmental burden of providing this care that would otherwise be provided through the county hospital system in Texas.</p>

Part VI, Line 3	<p>The organization is committed to promoting health in the community including providing or finding financial assistance programs to assist patients. Patients who may qualify for financial assistance through the organization's charity care program or other federal, state and local government programs are informed and educated about their eligibility in several ways including, but not limited to, the following:</p> <ul style="list-style-type: none"><li>1) posting signs and notices regarding the financial assistance policy in the emergency departments, admitting areas and business offices located throughout the organization;</li><li>2) annual posting regarding the organization's financial assistance program in the local newspapers;</li><li>3) information regarding financial assistance, including the organization's financial assistance policy, is posted on the organization's website;</li><li>4) notices about the organization's financial assistance policy is posted on each bill sent to patients including providing a phone number to access the customer service unit dedicated to answering patients billing questions, as well as provide information regarding financial assistance; and</li><li>5) the organization may provide free financial counselors to help inpatients determine how to meet their financial obligations for services provided.</li></ul> <p>Specifically financial counselors assist patients in applying for government assistance programs such as Medicaid or the organization's financial assistance program. Any patient may request to speak to a financial counselor when being treated at the organization. Uninsured patients who are admitted to the hospital will automatically receive help from a financial counselor. These services are provided in writing and through interpretation services in the primary language of the patient requesting assistance. The organization has the 501(r) policies available on its website in eight languages: English, Spanish, Russian, Korean, Vietnamese, Arabic, French and Chinese. The organization can also accommodate other languages including American Sign Language as needed.</p>

Form and Line Reference	Explanation
Part VI, Line 4	<p>The organization operates multiple hospital facilities that primarily serves the geographical area of Collin, Dallas and Tarrant counties. Additional information regarding the community can also be found below, and in the hospital's community health needs assessment and implementation strategy located on the organization's website at <a href="http://communityneeds.bswhealth.com/">http://communityneeds.bswhealth.com/</a>. According to population statistics, the overall community served was representative of Texas overall but had slightly higher median income. The community served was more racially diverse with a lower percentage of seniors than both the state and the U.S. benchmark. Overall socioeconomic barriers were similar or lower than the state benchmark, however Dallas County was above state and national benchmark for poverty level. The population of this community served is expected to grow 7.4% (310,512 people) by 2020. The 7.4% population growth is expected to be slightly higher than both the state growth rate (6.7%) and the national growth rate (3.5%). The zip codes expected to experience the most growth in five years: 75070 McKinney (Collin County) - 11,518 people and 75052 Grand Prairie (Dallas County) - 8,933 people. A majority (61%) of the community's population was concentrated in Dallas County. Within the county, the city of Dallas is expected to grow at a rate of 5.4% with a population increase of 66,887 people, the rest of Dallas County is growing faster at 6.6% (86,559 people). Both Collin and Denton counties will see growth approaching 10% over the next five years with a population increase of 77,000 and 79,000, respectively. The sixty-five plus cohort is expected to experience the most growth over the next five years. This is particularly true in Collin County (34% growth) and Denton County (37% growth). Overall in this community the age 65+ population will grow by 116,000 people. Growth in this age cohort will likely contribute to increased utilization of services as the population continues to age. The age group that will experience the least amount of growth in the community is the 18-44 age cohort with an expected increase of 36,975 people. Diversity in the community is projected to increase. Collin and Denton counties are expected to experience higher rates of growth in minority populations than in Dallas County. In 2015, the community, a majority of the population (60%) was white followed by black at 17%. Black and Asian/Pacific Islander populations will see significant growth over the next five years. Growth in these populations is projected to be greater than 20% in both Collin County (37,000 additional people between both races) and Denton County at (171,000 additional people between both races). Those of Hispanic ethnicity comprised 30% of the community's population, just below the overall state proportion of Hispanics but above the national proportion. The Hispanic population in this community is expected to increase 11%, or 142,000 people. Collin and Denton counties are expected to experience higher growth rate of Hispanic population. Dallas County is projected to experience 10% growth in this population. The median household income for the community served was \$60,384, greater than both the state and U.S. benchmarks. Sixty-one percent (61%) of the community were commercially insured, which equates to over 2.5 million lives. Commercial covered lives are expected to grow by over 212,000 lives (6%) over the next five years. Medicare and dual eligible lives (those receiving both Medicare and Medicaid benefits) will experience the highest growth rates at 27% (90,000 lives) and 22% (12,000 lives) respectively. The number of uninsured and Medicaid lives are expected to decline slightly in all counties. Collin and Denton counties will see a greater percentage increase in Medicare, growing 33% (20,000 lives) and 37% (18,000 lives) respectively.</p>

Form and Line Reference	Explanation
Part VI, Line 5	<p>With the oversight of an independent volunteer community board and Baylor Scott &amp; White Holdings, the organization's ultimate parent, the organization's hospital facilities and/or other health care facilities have promoted health and benefited the community by providing exemplary health care, medical education, research and other community services. The organization's governing body is comprised of a majority of volunteer community representatives that provide leadership and governance for the organization. The members of the governing body contribute their wisdom, insights, and expertise to ensure the organization is fulfilling its mission and charitable purpose while providing efficient administrative support services and direction for the organization. The members are well respected residents and /or own businesses in the organization's primary or secondary service area and understand the needs of the community. The medical staff of the organization is open to all physicians in the community who meet membership and clinical privilege requirements. As a nonprofit organization surplus funds are continuously invested back to the community and are utilized to maintain access to limited patient services or expand access points of care to patients throughout the community. These efforts are generally targeted to meet the community health needs identified in the community health needs assessment conducted by each of the hospital facilities. More information of these efforts can be found in the written implementation strategies that have been made widely available to the public and are located on the organization's website at the following address: <a href="http://communityneeds.bswhealth.com/">http://communityneeds.bswhealth.com/</a>. Below are summaries of a few of the hospital's key patient care services or community benefit programs designed to promote the health of the community. The organization provides financial assistance in the form of charity care to patients who are indigent and satisfy certain requirements. Additionally, the organization is committed to treating patients who are eligible for means tested government programs such as Medicaid and other government sponsored programs including Medicare, which is provided regardless of the reimbursement short fall, and thereby relieves the state and federal government of the burden of paying the full cost of care for these patients. Often, patients are unaware of the federal, state and local programs open to them for financial assistance, or they are unable to access them due to the cumbersome enrollment process required to receive these benefits. The organization offers assistance in enrollment to these government programs or extends financial assistance in the form of charity care through the organization's Financial Assistance Policy which can be located on the organization's website at <a href="https://www.bswhealth.com/financialassistance">https://www.bswhealth.com/financialassistance</a>. The organization operates an emergency department accepting all patients without the regard for the ability to pay. The emergency room is operated 24 hours a day, seven days a week. The organization is also committed to promoting the health and well-being of individuals and families beyond the health activities of the traditional hospital or clinics setting through its community outreach programs. Community outreach and preventative health care are important areas of focus that fuel the organization's efforts to screen and educate local residents to improve the overall health and wellness of the community its services. Prevention leads to early detection and the ability to catch disease when treatment will be most reliable and effective. These programs are targeted to positively alter the health of the community by providing education on such topics as adult nutrition, childhood obesity, and behavioral health issues and to build support groups for individuals suffering with chronic diseases such as diabetes, cardiovascular and pulmonary diseases, and cancer. Throughout the year the organization offers free preventive health services to the community such as health screenings, health fairs, immunizations and many other community education programs. Equipping people with quality health information encourages individuals to make appropriate life style changes to benefit their health. As part of a health system with renowned teaching facilities, the organization attracts first-rate medical specialists who help improve the level of medical care for the entire community. The organization is also committed to assisting with the preparation of future nurses at entry and advanced levels of the profession to establish a qualified workforce. During a nurses training, clinical skills and professional competencies are developed to provide the nurse with the ability to take on increasing responsibility for patient care. Quality teaching programs add many dimensions to the organization's ability to serve patients. The efforts are coordinated through strong affiliations with schools of nursing.</p>

Part VI, Line 6	<p>The organization is affiliated with Baylor Scott &amp; White Health (BSWH or the System), a faith based nationally acclaimed network of acute care hospitals and related health care entities providing quality patient care, medical education, medical research and other community services to the communities of North and Central Texas. BSWH is the largest not-for-profit health care system in the State of Texas and one of the largest in the United States as measured by total operating revenue of \$9.5 Billion and total assets of \$12.1 billion based on the fiscal year ended June 30, 2018. Today, BSWH includes 50 hospitals, over 1,100 patient care sites, more than 7,500 active physicians, approximately 48,000 employees and the Scott &amp; White Health Plan. The System includes a robust spectrum of owned, operated, ventured and affiliated philanthropic foundations, a research institute, physician clinics and networks, acute care hospitals, short-stay hospitals, specialty hospitals, ambulatory surgery centers, free standing emergency medical centers, free standing imaging centers, retail pharmacies, an accountable care organization, a health plan and other health care providers all which fall under the common control of BSW Holdings. Under the guidance of an independent community board, the System follows one single mission, vision and values focusing on quality patient centered care while meeting the demands of health care reform, the changing needs of patients and extraordinary recent advances in clinical care. With a commitment to and a track record of innovation, collaboration, integrity and compassion for the patient, BSWH stands to be one of the nation's exemplary health care organizations. Community benefits are provided through the provision of financial assistance, governmental sponsored programs (such as Medicaid and Medicare), medical research, medical education, community health improvement services, donations to other nonprofit health care providers, and many other community service activities. During the year, the affiliated nonprofit hospitals reported community benefits (as reported to the Texas Department of State Health Services, and in accordance with the State of Texas Statutory methodology) in excess of \$954,038,000. The System's nonprofit hospitals provided community benefits (as reported on the IRS Form 990, Schedule H) in excess of \$532,010,000 during the tax year. The Texas Annual Statement of Community Benefit Standard includes approximately \$380,665,000 of unreimbursed cost of Medicare that is not included in the IRS Form 990, Schedule H. As part of the System, certain affiliates make grants and/or contributions to other related nonprofit affiliates to help financially support and/or fund worthy community benefits activities. The System has also established a patient transfer system among the affiliated hospitals allowing patients needing a particular level of care to be transferred as needed to a related hospital that can provide that service in an efficient and effective manner. As part of the System, all hospitals and other affiliated health care providers are required to adhere to high standards for medical quality, patient safety and patient satisfaction. These standards are set forth by BSW Holdings, the organization's parent, which helps ensure consistency across the System.</p>

Based on current estimates by providers, it is anticipated that more than 50% of patients in the Baylor Clinic have five or more medications. Ensuring that these medications are 1) appropriate, 2) taken correctly, 3) managed and 4) accessible is important to improve clinical outcomes. The project will utilize a clinical pharmacist who will review patient medications for those patients who have multiple prescriptions on a regular basis to ensure that medications are appropriate and to ensure the patient understands how and why they are taking the medications. Additionally, eligible patients who qualify for medications and those patients who cannot afford prescriptions will receive help obtaining the medications they need through implementing a prescription assistance program. An attempt will be made to provide medications at little to no cost for patients who are 150% below the federal poverty level, have one or more chronic diseases and remain compliant with their appointments and care regimens. Through this benefit and clinical pharmacist oversight and management, adherence and compliance to medications will increase. The additional advantage to embedding this team within the PCMH is that patients will receive comprehensive care management to address all of their needs in one care venue. Primary Care Expansion - The Baylor Clinics will expand current capacity by opening patient panels to non-Baylor lower and middle income underserved patients and fully utilize the space and providers' capacity. Additional support staff will be hired to better coordinate patient care, ensure transition from the hospital to a Baylor Clinic and help to facilitate the care of the complex underserved patients. Essentially, through expanding the capacity of the current clinic, adding additional support staff and services, a patient can receive comprehensive and complete services in one primary care location. In addition to receiving primary care, this project also proposes that ancillary services such as labs, imaging (i.e., CT scans, MRI, mammograms, ultrasound, echocardiograms, and interventional radiology) and diagnostics (i.e., colonoscopy, stress tests, esophageal diagnostic, retinal screens) would also be provided upon physician request. This project aims to close the loop of care and increase patient compliance by co-locating/coordinating many of the essential services that the underserved population often has issues accessing and completing. Specialty Care Expansion- Patients (including Medicaid and Uninsured) who are seen at a Baylor Clinic and have an established primary care medical home (PCMH), can receive specialty care services such as outpatient procedures, specialty office visits, wound care, and facility-based procedures such as cardiac catheterizations, certain surgeries (i.e., gall bladder/hernia), excision of masses (breast, lymph</p>

Provide the information, explanation, or descriptions required for Part I, lines 1a, 1b, 3, 4a, 4b, 4c, 5a, 5b, 6a, 6b, 7, and 8, and for Part II. Also complete this part for any additional information.

Return Reference	Explanation
Part I, Line 1a	Discretionary spending account-The organization provides eligible employees who travel frequently in their personal vehicle an auto expense allowance in lieu of reimbursement for business mileage under the organization's business travel and expense reimbursement policy. All auto expense allowances are treated as taxable compensation. One person listed in the Form 990, Part VII, Section A, received this benefit during the tax year.
Part I, Line 3	Process for determining compensation. The organization, a controlled affiliate of BSW Holdings, recognizes that those chosen to lead the organization are vital to its ongoing success and growth. Thus, it must attract, retain and engage the highest quality officers and key employees to lead the organization and help the organization maintain its national reputation for achieving high targets for medical quality, patient safety, and patient satisfaction. A significant portion of the organization's officers and key employees' total compensation is based on significant performance achievements. This strategy places a greater emphasis on the importance of the organization achieving targeted improvements in the areas of people, quality, patient satisfaction and financial stewardship, annually. Total executive compensation is part of an integrated talent management strategy developed by the BSW Holdings Board of Trustees and its Compensation Committee to attract, motivate, and retain the best leadership resources for the organization. Executive compensation is determined pursuant to guidelines outlined in the intermediate sanction rules under IRC Section 4958 including taking steps to meet the rebuttable presumption standard of reasonableness under Treasury Regulation 53.4958-6, as summarized below. When making compensation decisions, the organization compares itself to similarly-sized, and structured businesses including other integrated health care service systems and other similarly-sized organizations, both locally and nationally. Each year the BSW Holdings Board of Trustees and the Compensation Committee, on behalf of the organization through reserved powers held by BSW Holdings, works directly with an independent compensation expert(s) to identify reasonable and competitive market rates as well as provide an annual review of the total compensation of the organization's top management officials and other officers and key employees to ensure total compensation is within a fair market range. The annual review included management reviewing all officers and key employees listed on the Form 990 during the current tax year. Any individual whose direct compensation exceeded the projected compensation from prior year, any new individual whose position has not been reviewed by the Compensation Committee during the prior 2 years, or any individual whose responsibilities or scope of operations expanded during the current year were reviewed by the Compensation Committee during the current tax year. The Compensation Committee is made up of members of the BSW Holdings Board of Trustees, who are independent, community volunteers. Guided by the information provided by the independent compensation expert(s), the Compensation Committee approves the annual process and methodology for setting fair market salary ranges, earned incentives, and/or benefit offerings for the organization's President, other officers and/or key employees to be comparable to similar organizations for similar services and/or positions. Furthermore, the Compensation Committee is charged with the responsibility of reviewing annually the major elements of the executive compensation program to assure designs remain consistent with the business needs, market practices, and compensation philosophy. As part of the decision making process, the Compensation Committee will often meet in executive session to discuss and review recommendations made by the independent compensation expert(s). No officer or key employee whose compensation is being reviewed is present during these discussions. All decisions are properly documented in the minutes of the meetings.
Part I, Line 4b	In order to recruit and retain key talent, BSW Holdings and certain tax exempt affiliates (BSWH) offers a supplemental non-qualified retirement plan to eligible employees. The plan provides an annual benefit (based on a percentage of compensation) to the employee that is paid to the employee on a future date upon vesting in the plan. The following individual(s) participated in and/or received payments (noted in parenthesis) from BSWH's supplemental non-qualified retirement plan during the tax year: Amy Yeager, Cindy Schamp, John McWhorter, Paul Madeley, M.D. (\$131,734) and William Boyd (\$207,367). Also, select certain officers, as designated by BSW Holdings' governing body, are eligible to participate in a Long Term Incentive Plan that is designed to recognize the key senior leaders value and contribution to BSWH as well as align their compensation to the long term strategy of BSWH. Performance targets are based upon a percentage of the participant's base salary and are developed by independent third party expert(s) using market competitive data within the guides of reasonableness. The plan is based on BSWH's three-year performance against its peers, determined based on peer rankings or percentile rankings in quality, patient satisfaction and financial performance. At the end of three years, awards are determined by BSW Holdings' governing body for participants. Payouts are partially made in cash and the remainder vests over an additional two year period. The following individuals participated in and/or received payments (noted in parenthesis) from this plan during the tax year: Cindy Schamp (\$160,187), John McWhorter (\$496,458) and William Boyd (\$855,628).
Part I, Line 7	The organization has adopted and implemented BSW Holdings', the organization's ultimate parent, Annual Incentive Program to provide a market competitive total cash compensation incentive program that is designed to attract and retain key leaders and establish greater individual accountability and alignment to business performance. Payout targets are based upon a percentage of base pay and are developed by independent third party expert(s) using comparable market competitive data within the bounds of reasonableness and that are reviewed and approved by BSW Holdings' governing body. Payout levels are based upon a combination of system, entity, and individual performance using various metrics related to quality, patient satisfaction, employee retention, and financial stewardship. BSW Holdings' governing body may approve modifications to annual incentive awards provided under the program consistent with market comparability data.
Form 990, Schedule J, Part III	Supplemental Information: Governing Body Compensation. The members of the governing body serve on a voluntary basis and receive no cash compensation from the organization for these duties as a member of the governing body. Some, but not all, members may have received modest benefits incident to their service on the board and/or multiple board committees or received compensation as an employee of a related organization. These benefits may include reimbursement for certain reasonable expenses paid on behalf of the member's spouse while accompanying the member on business travel on behalf of the related organization. All such benefits are treated as taxable compensation to the extent required by law and are reported in the Form 990 where applicable.
