Part X, Line 2	The Internal Revenue Service has previously determined that Maine Medical Center (MMC) and Maine Medical Center Realty Co (MMCRC) are organizations as described in Section 501(c)(3) of the Internal Revenue Code (RC) and are exempt from federal income taxes on related income pursuant to Section 501(a) of the IRC Saint Joseph's Rehabilitation and Residence (SJRR) was previously covered under a group exemption issued to United States Conference of Catholic Bishops SJRR will file its own tax exemption application during fiscal year 2019 Maine Medical Partners (MMP) had significant net operating loss carryovers at September 30, 2018 and 2017 A valuation allowance has been provided for the entire deferred tax benefit for the net operating losses, due to uncertainty of realization MMP did not have taxable income in 2018 or 2017 Accordingly, no provision for income taxes had been made in the accompanying consolidated financial statements The Medical Center recognizes the effect of income tax positions only if those positions are more likely than not of being sustained Recognized income tax positions are measured at the largest amount of benefit that is greater than fifty percent likely to be realized upon settlement Changes in measurement are reflected in the period in which the change in judgement occurs The Medical Center did not recognize the effect of any income tax positions in either 2018 or 2017 On December 22, 2017, the President signed into law H R 1, originally known as the Tax Cuts and Jobs Act The new law includes several provisions that result in substantial changes to the tax treatment of tax-exempt organizations and their donors The Institute has reviewed these provisions and the potential impact and concluded the enactment of H R 1 will not have a material effect on the operations of the organization

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 7	The costing methodology for the amounts reported in Part I, Line 7 of the Schedule H is based on a ratio of patient care cost to charges. This cost to charge ratio was derived from Worksheet 2, Ratio of Patient Care Cost-to-Charges provided in the instructions for Schedule H.
Part II, Community Building Activities	Community Support- MMC is deeply involved in disaster planning at the local and state levels. 990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 2	See Part III, Line 4 - Bad Debt Expense Footnote to the Financial Statements
Part III, Line 4	MMC does not have a specific footnote in the financial statements that describes "bad debt expense " However, reference is made within the footnotes to a bad debt policy in a couple of instances Within the footnote describing "Net Patient Service Revenue", the following explains the Provision for Bad Debts "For receivables associated with self-pay patients, the Medical Center records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible The difference between the standard rates and the amounts actually collected after all reasonable collection efforts have been exhausted is written off against the allowance for bad debts "The amount of expense associated with the provision of services, ultimately written off as bad debt at MMC, has been calculated at \$30,464,641 for the current fiscal year This amount was calculated using a cost to charge ratio Bad debt expense represents healthcare services MMC has provided without compensation As a tax-exempt organization, MMC provides necessary patient care regardless of the patient's ability to pay for the services MMC cannot determine the amount of bad debt expense that could be reasonably attributable to patients who likely would qualify for financial assistance under the Hospital's free care policy In addition, bad debt expense also includes amounts for services provided to individuals experiencing difficult personal or economic circumstances related to a portion of our community based patient population Their medical bills often place these individuals in untenable positions where they are not able to handle their personal debt and then their new medical debt However, because of their income level, they do not qualify for free care By providing necessary healthcare services to those individuals either who fail to apply for financial assistance or who are experiencing difficult personal or economic circumstances, MMC believes that bad debt expense should be included as a community benefit

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 8	Medicare allowable costs were calculated using a cost to charge ratio. MMC believes that the Medicare shortfall should be included as a community benefit because MMC has a clear mission commitment to serving elderly patients and adults with disabilities through the provision of specific subsidized programs developed to help improve the health status of these patients. If these critical subsidized programs were not provided by MMC, they would become the obligation of the Federal Government.
Part III, Line 9b	Patients who qualify for free care have their account balance adjusted accordingly once free care has been approved. As a tax-exempt hospital, MMC provides necessary patient care regardless of the patient's ability to pay for the services.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 4	The Community Health Needs Assessment describes the geographic area and demographic constituents it serves. See https://mainehealth.org/healthy-communities/community-health-needs-assessment for the completed CHNA.
Part VI, Line 5	MMC's day-to-day operations as a tax-exempt organization include many system-wide initiatives in Cumberland County and in the state of Maine and the Northern New England region. Clinical services range from outpatient clinics for a diverse population to full inpatient and surgical services to a regional trauma center and a neuroscience institute. Many of our services and specialties are not available elsewhere in the state or in our region. We have programs in undergraduate, graduate, post-graduate, and continuing education, engage in clinical research, and support organizations and efforts whose missions augment or complement ours. We strive to be a good "institutional citizen" of our region and state. With these programs, MMC hopes to fill existing local gaps while making a positive impact in the communities we serve. These programs include Subsidized Health Services, Community-Based Clinical Services, Community Education Services, Health Care Support Services, Community Building Activities, Medical Education and Research. MMC made a net asset transfer to its wholly owned subsidiary, Maine Medical Partners, in the amount of \$68,866,000 to cover the losses related to mission-critical physician practices to ensure access for the community to such specialties as trauma surgery, neurosurgery, urology, various pediatric specialties, and high-risk obstetrics.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part V, Section B, Line 16i	Internal Revenue Code Section 501(r)(4) requires that translations of the financial assistance policy, financial assistance application form and plain language summary be available on the hospital's website. For FY 2018, these three documents were not available on the hospital's website for the entirety of the twelve months ending September 30, 2018. During July, 2018, the plain language policy and the free care application were translated into the required languages and posted on the website. The free care and billing and collection policies (collectively the financial assistance policy) were translated into the required languages and posted to the website in March 2019. The organization has established an annual process to evaluate its demographic patient information to ensure that the required documents are translated into the necessary languages (the lesser of 1,000 or 5% of the community served by the hospital). Despite not meeting the requirements of 501(r)(4) for the entirety of the fiscal year, patients and families with limited English proficiency did have access to several interpreter services options to provide assistance with their health care encounters, including assistance with various forms and applications. These options include oral telephonic capabilities, remote video services as well as live interpreters through multiple contracts with outside agencies.

Part I, Line 2	For the Research Grants to Organizations, these represent subrecipient grants. A subrecipient agreement is signed by both MMC and the subrecipient stating the amount of the award, the award name, the name of the Federal Agency, requirements imposed by laws, regulations and the provisions of the grant agreement. The monthly subrecipient invoices are reviewed and approved by the Principal Investigator prior to payment to verify the Federal funds are used for authorized purposes and are included in the award budget. Other contributions are reviewed by Senior Management and are granted to organizations within our community that promote our shared values. For the Nursing Scholarships, as an application requirement, each scholarship applicant must provide confirmation of enrollment in a program of studies in Nursing. For the Medical Education Scholarships for students in the Maine Track of the MMC TUSM Medical School Program, MMC transfers the scholarship funds to the Tufts School of Medicine (Tufts) financial aid department for distribution to the students. Tufts handles any oversight to ensure that the funds are used as intended. MMC's role is limited to matching eligible students with scholarship selection criteria and determining who receives each scholarship award.
