Form and Line Reference	Explanation
Part III, Line 4	Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to operations and a credit to a valuation allowance based on its assessment of individual accounts and historical adjustments. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to patient accounts receivable. In evaluating the collectability of accounts receivable, the Hospital analyzes past results and identifies trends for each major payor source of revenue for the purpose of estimating the appropriate amounts for the allowance for doubtful accounts and the provision for bad debts. Data in each major payor source are regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. Specifically, for receivables relating to services provided to patients having third-party coverage, an allowance for doubtful accounts and a corresponding provision for bad debts are established at varying levels based on the age of the receivables and payor source. For receivables relating to self-pay patients, a provision for doubtful accounts and corresponding allowance for doubtful accounts is made in the period services are rendered based on experience indicating the inability or unwillingness of patients to pay amounts for which they are financially responsible. Actual write-offs are charged against the allowance for doubtful accounts. The Hospital used a cost-to-charge ratio as its costing methodology for amounts reported in Part III, Section A.

Form and Line Reference	Explanation
Huggins Hospital	Part V, Section B, Line 5 In 2016, over sixty individuals from over forty community and health care organizations collaborated to conduct a comprehensive CHNA process focused on identifying and defining significant health needs, issues, and concerns of Carroll County. The process centered on gathering and analyzing data as well as receiving input from persons who represented the broad interests of the community and who had special knowledge and expertise in public health. The participants helped provide direction for the Hospital to create a plan to improve the health of the community. Information gathering, using secondary public health sources, occurred in April and May of 2016. Over 300 community surveys were conducted from April 27 through May 13, 2016. A Community Health Summit was held on May 26, 2016 with 45 community stakeholders attending. The audience consisted of healthcare providers, the Carroll County Coalition for Public Health, businesses, law enforcement, EMS, government representatives, human services, not-for-profit organizations (hospitals, home health, mental health, substance abuse, elderly services) and other community members. During Huggins Hospital's Community Health Summit, attendees identified and prioritized the most significant health needs in the community to be addressed in the next three-year period. The group used specific criteria to prioritize the health needs. The groups brainstormed goals and actions to form the foundation of Carroll County's health initiatives. Using a nominal group technique, each attendee posted their ideas of the top three health needs at the front of the room. The group, as a whole, then voted to establish priority. From these priorities, the groups strategized to develop focus areas. From these strategies and focus areas, Huggins Hospital developed the Community Health Needs Assessment's Implementation Plan.
Huggins Hospital	Part V, Section B, Line 11 Huggins Hospital's Community Health Needs Assessment and Implementation plan was completed in 2016. The Implementation Plan included strategies to address Chronic Disease, Healthy Aging as well as Mental and Behavioral Health. Since 2016, the organization has increased specialty and primary care access to help provide more preventative and ongoing care for community members with chronic disease. Along with growth in primary and specialty services, the organization's rehabilitation team grew to provide more services for chronic care treatment and prevention. The organization has also developed a Care Coordination program to help close any gaps in care for those with complicated co-morbidities. The organization increased community education through coalitions and community events and supported healthy activities within the community. For Healthy Aging, the organization provided education to seniors about how to age at home safely. Before the next Community Health Needs Assessment that needs to be finalized in 2019, the organization plans to develop a Senior Wellness Group, identify seniors in need of extra resources and continue education about aging, falls and Advance Care Planning. For Mental and Behavioral Health, the organization has addressed all items in the 2016 Implementation plan including participation in the Medicaid 1115 Waiver to transform the NH behavioral health delivery system, advocating for patients during community forums, developing a process for a continuum of care within primary care offices and supporting other organizations with a focus in substance use, mental health and behavioral health.
