990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 7	The Organization used three different methods to allocate costs reported in the table: four physician clinics are rural health clinics: NVRH - Corner Medical, NVRH - St Johnsbury Pediatrics, NVRH - Kingdom Internal Medicine, and NVRH - Women's Wellness. Costs for these clinics were taken directly from the Medicare cost report. Costs for other reported programs were direct costs for the program plus an allocation of indirect costs based on a ratio of direct to indirect costs taken from the Medicare cost report. A cost to charge ratio was used to determine the cost of bad debts and free care for all programs reported on the table.
Part I, Line 7g	The Organization included as subsidized health services costs attributable to four physician clinics: 1 NVRH - Corner Medical, a primary care physician clinic. Total costs related to this physician clinic were \$4,421,121. 2 NVRH - St Johnsbury Pediatrics, a pediatric physician clinic. Total costs related to this physician clinic were \$2,594,321. 3 NVRH - Women's Wellness Center, an obstetrician/gynecological physician clinic. Total costs related to this physician clinic were \$3,851,224. 4 NVRH - Kingdom Internal Medicine, a primary care physician clinic. Total costs related to this physician clinic were \$2,587,958.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part II, Community Building Activities	<p>Physical Improvements/HousingNVRH Community Garden NVRH has provided garden space on our campus for community use for 30 years. There are currently 23 garden spots. The garden spots are provided free of charge on a first come, first served basis. The community benefit value is based on the staff time to coordinate the assignment of spots and other correspondence with the gardeners. Workforce development NVRH is located in a rural area with limited access to public transportation. Poverty is also our primary health disparity. We have listened to our community and they tell us they need access to services that are close to home. NVRH takes the lead in recruiting both primary care and specialty physicians and mid level providers to fill the need for access to services close to home. The value listed in this section is related to the costs associated with recruiting primary care and specialty providers, as well as loan repayment for four specialists and two nurse practitioners. Also included are expenses related to an Associate Degree Nursing Program.</p>
Part III, Line 4	<p>Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to operations and a credit to a valuation allowance based on its assessment of payor mix, aged accounts receivable and historical adjustments. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to patient accounts receivable. In evaluating the collectibility of accounts receivable, the Hospital analyzes past results and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Hospital records a provision for bad debts in the period of service based on past experience, which indicates that many patients are unable or unwilling to pay amounts for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated or eligible) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged against the allowance for doubtful accounts.</p>

Form and Line Reference	Explanation
Part III, Line 8	All Medicare allowable costs were taken directly from the Medicare cost report
Part III, Line 9b	<p>NVRH provides care to all patients regardless of their ability to pay for services. Patients who indicate they have no insurance receive information about NVRH's Patient Assistance program, including the income level eligibility guidelines, with their first bill and with all subsequent bills. Patient Assistance is provided to those patients who, through a written documentation process, are identified as financially needy. Patients that have qualified for 100% Patient Assistance are not billed for subsequent services for one year. After one year, those patients go through the qualification process again. Financial assistance applications are made readily available to patients. There are signs posted throughout the hospital and clinics as well as links on our website.</p>

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 2	<p>Assessment of community needs is an ongoing process at Northeastern Vermont Regional Hospital. Northeastern Vermont Regional Hospital achieves openness, inclusiveness, and public participation in our strategic planning and decision making in a variety of ongoing and deliberate ways. NVRH governance structure includes the Northeastern Vermont Regional Corp (NVRC) Corporators. The over 250 Corporators, representing all the towns in our service area, are an invaluable source of wisdom and perspective for hospital leadership. They are key links in the essential communication system between members of our community and the Hospital. Because the Corporators represent the community, they act as our eyes and ears on the street. The quarterly Corporators meetings are an opportunity for two-way sharing of information. The Corporators share their needs and concerns, as well as the needs and concerns of their families, friends, and neighbors. In return, the Corporators are updated on hospital services, as well as state and national healthcare issues. The Hospital participates in formal community assessments that are conducted every few years by various community organizations including the Regional Prevention Partnership - Northeast Prevention Coalition, the Housing Coalition, and the Vermont Departments of Health. Hospital staff are active members and partners with these coalitions and organizations. Formal community assessments begin with identifying a problem or purpose. The purpose could be broad, such as "what are the top priorities in our community or it could be more specific based on the missions of the Organization. The local prevention coalitions conduct ongoing community engagement activities, including surveys, public forums, community dinners, and listening sessions. The next step is developing a community profile using primary source data. Primary source data is primarily obtained from the Vermont Department of Human Services Community Profiles. These profiles compile data from a variety of sources including the Behavioral Risk Factor Surveillance System (BRFSS), U.S. Census, the Vermont Health Care Cost and Utilization Project, and several other state and national data sources. Secondary data is gathered by identifying and getting input from key stakeholders including community leaders, relevant organizations, and community members. Input is gathered by using one on one interviews, surveys (including using online tools like Survey Monkey), and focus forums for all key stakeholder groups. Inventories of existing services, and gap and/or asset mapping are also typically part of the community assessment process. As primary and secondary data is gathered the analyzing phase kicks in. Sometimes the focus of an assessment may shift if data reveals a new or more urgent health priority. Reporting the results of the assessment is an important piece of the process. Every effort is made to get summaries and reports back to interested community members and organizations. More and more often, the Hospital and partner organizations are using Collective Impact principles when designing community interventions or deciding on which health services to add or enhance. Collective Impact starts with community engagement and buy in, but goes beyond to ensure that knowledge, power, credit, and results are shared fairly between "experts and community members."</p>
Part VI, Line 3	<p>A summary of NVRH's Patient Assistance Program and the income eligibility guidelines are included in the first and all subsequent bills sent to patients identified as self pay. The phone number of a financial counselor is also provided. The counselor is available to discuss eligibility guidelines and the qualification process. The counselor also discusses with patients the availability of Medicaid and other State assistance programs. Information about the NVRH Patient Assistance Program is also available on the NVRH website. Patients can also learn about NVRH's Patient Assistance program via a link to the State's Green Mountain Care Board. The Patient Assistance Program is available to hospital patients as well as patients of all NVRH-owned physician practices.</p>

Form and Line Reference	Explanation
Northeastern Vermont Regional Hospital	<p>Part V, Section B, Line 5 NVRH conducted a CHNA in 2018. This is the third assessment done using the ACA requirement and guidelines. The 2018 CHNA builds on the foundation of the previous assessments. New this year, the CHNA will use the framework of our regional accountable health community, the Caledonia and So Essex Accountable Health Community (CAHC). The CAHC uses the frameworks of the accountable health community model, Collective Impact, and Results Based Accountability. Likewise, the 2018 NVRH CHNA and companion Implementation Plan use these frameworks. Additionally, the 2018 CHNA is informed by the data compiled, and the community engagement work already done by the CAHC, and the overall mission of the CAHC to reduce poverty in the region. Although both the population and the percentage of those in poverty are declining for Caledonia and Essex Counties (Source: Vermont State Data Center), we also know that based on the most often used proxy for socio-economic status - income - our region is well below the average and median income compared to the rest of Vermont. Additionally, data shows that the population of Vermont, and our region, is aging faster than other states. Thus, once again low-income families, and older adults were identified as our most vulnerable, consequently, primary source data collection targeted groups of low-income parents and older adults. The entire CHNA and methodology is available at www.nvrh.org/communityhealthneedsassessment.</p>
Northeastern Vermont Regional Hospital	<p>Part V, Section B, Line 11. An update and current evaluation to the CHNA Implementation Plan is available at https://www.nvrh.org/communityhealthneedsassessment. In recognition of the importance of the social determinants of health in overall health and well-being, NVRH has taken the lead in creating the Caledonia and So Essex Accountable Health Community (CAHC). The CAHC uses the framework of Accountable Health Communities, the elements of Collective Impact, and the principles of Results Based Accountability. Key organizations joining NVRH to address the root cause of poor health are the regional mental health organization, housing organization, community action organizations, FQHC organizations, council on aging, and the Vermont Foodbank. Many other state agencies and community based non-profits make up the body of the CAHC. The CAHC has identified five outcomes for our community: well-nourished, well-housed, physically healthy, mentally healthy, and financially secure. Workgroups have formed from the CAHC to provide strategic direction and results-based focus in each outcome area.</p>
