990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part I, Line 3c Criteria used for determining eligibility for free or discounted care	In general, Middlesex Hospital ("the Hospital") uses FPG to determine eligibility. There are, however, special circumstances (such as a catastrophic event) which may affect a patient's ability to pay. In this case, the Hospital evaluates the application with consideration given to the patient's current situation. With special circumstances, in order to maximize the amount of financial assistance discount, the FPG threshold may be ignored and the Hospital may use the patient's assets and/or tax return itemized deductions to determine the amount of financial assistance.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part VI, Line 6 Affiliated health care system	N/A Middlesex Hospital is not part of an affiliated health care system

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part VI, Line 7 Additional Information - State filing community benefit report	Under the Connecticut General Statutes 19a-127k, hospitals that have a community benefit program in place, as specified by the statute, are required to report biennially to the State of CT. This biennial community benefit reporting is currently under the auspices of the State of Connecticut's Office of Health Strategy. As Middlesex Hospital meets the statute as having a community benefit program in place, it reports biennially to the State of CT's Office of Health Strategy.

Schedule H, Part I, Line 7g	<p>Middlesex Hospital includes its Family Medicine Group as a subsidized service. For FY18, 10,314 unique individuals were served with a total Hospital subsidy of \$500,399. Middlesex County has been designated by the Health Resources and Services Administration (HRSA) to be a Medically Underserved Area experiencing a shortage of select health services which include too few primary care providers. In addition, HRSA reports that Middlesex County is a Health Professional Shortage Area (HPSA) for primary medical care. Middlesex Hospital's Family Medicine Group fills a vital community health need by providing access to primary care services.</p>

Schedule H, Part II Community Building Activities	<p>The majority of Middlesex Hospital's community based community benefit work is captured under non-community building categories, which is narrow in scope. Middlesex Hospital's participation in Community Building activities, however, has a vital role in continuing to promote the health, well-being and safety for residents in its service area. The Hospital offers its resources and expertise to support and strengthen community assets in a variety of programs that fall under the scope of community building. Staff members are highly participative in community partnerships and coalitions, the success of which are greatly enhanced by Hospital collaboration - many community initiatives would not be as effective without the Hospital's administrative and clinical staff in-kind involvement, support and expertise. In FY18 the Hospital's Community Building Activities totaled \$128,312 and served 151 individuals. Examples include (but are not limited to):</p> <ol style="list-style-type: none">1) Disaster Readiness where the Hospital plays a pivotal role by working in collaboration with key community partners to ensure the safety of the community at large during a potential disaster. To prepare for disasters, the Hospital often participates in community disaster preparation and emergency management committees, regular collaborative community education and drills, and hosts yearly radiation drills for the staff of a local nuclear power plant. In addition, the Hospital purchases and stock-piles large quantities of extensive pandemic supplies to be used should a community-wide disaster occur. Included in this stock-pile are medications for infectious disease and chemical exposure curatives. The majority of the value of the supplies, space utilization and costs associated to monitor and replenish pandemic products (within expiration dates) are absorbed by the Hospital.2) Workforce Development: the Hospital's Shoreline Medical Center (SMC) has well-developed educational programs for local students interested in medical careers. Shortages of certain trained medical professionals such as nurses and radiologic technologists served as the impetus for starting these programs.<ol style="list-style-type: none">a) SMC Career Day is an experiential learning event where high school students interact with staff members from a variety of clinical fields and participate in interactive mock demonstrations/simulations.b) SMC student learning experiences. SMC provides ongoing student learning experiences for local high school students where students are involved in patient rounds and are exposed to how diagnoses are made.c) SMC World of Work is an educational experience for middle schools students where students learn about specific healthcare fields and the education required for each specialty. Students also receive demonstrations on health care modalities.

Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	The Bad Debt Expense amount in Part III, line 2 is based on charges and tied to the Hospital's audited financial statements. The Hospital accounts for discounts and payments on patient accounts in determining bad debt expense by reducing bad debt by recoveries on the Hospital's financials.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part III, Line 3 Bad Debt Expense Methodology	<p>The Hospital estimates that 10% of its Bad Debt expense is attributable to patients eligible under the organization's financial assistance policy. The Hospital has a well-established process with its third party agencies to capture as many patients eligible for financial assistance as possible and awards financial assistance to those patients in collections who are known to qualify. Once in collections, there are two methods which enable patients to receive financial assistance awards: 1) patients either complete a financial assistance application, meet eligibility criteria and are approved, or 2) the third party organizations that work on behalf of the Hospital to collect balances screen for financial assistance eligibility. In order to ensure that all patients in collections are aware of financial assistance availability, the Hospital requires third party organizations to follow the Hospital's policies regarding patient notification about the Hospital's financial assistance program. Within the policy there is a provision whereby collection agencies, using guidelines set forth by the Hospital, assist the Hospital in identifying patients who do not have a means to pay for services and therefore qualify for the Hospital's financial assistance program - while these patients have not gone through the formal application process, they meet the eligibility guidelines for financial assistance as defined by the Hospital. These patients are then transferred and included under the Hospital's financial assistance umbrella. While this process captures the majority of those who are eligible for financial assistance, the Hospital recognizes it will still have a population of patients who could potentially qualify for financial assistance and do not receive awards - those who are uncooperative, unresponsive or have moved away. Bad debt dollars are not included in any of the Hospital's programmatic community benefit values and, while noted, are not included in the Hospital's community benefit totals in any Hospital community benefit publication.</p>

Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	<p>The Hospital estimates a reserve for uncollectible accounts against its patient accounts receivables. When bad debts are identified, they are accounted for as a component of the Net Patient Revenue provision for bad debts net of recoveries. Page 15 of the Middlesex Health System's Consolidated FY18 Audited Financial Statement states: For receivables associated with self-pay patients which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill, the Hospital records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between discounted rates and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.</p>

Form and Line Reference	Explanation
Schedule H, Part III, Line 8 Community benefit & methodology for determining medicare costs	<p>The Medicare Cost Report is the costing methodology system used to determine the amount reported on Part III, Lines 5 and 6. The Hospital utilizes Worksheet 6 found in the Form 990 Instructions for Schedule H to calculate its subsidized services. The instructions state that "the financial loss is measured after removing losses, measured by cost, associated with bad debt, charity care, Medicaid and other means-tested government programs." Given that Worksheet 6 doesn't suggest removing losses associated with Medicare, a portion of Medicare is included in the Hospital's subsidized service calculations. So as not to double count Medicare values in Part III, Section B, Lines 5 and 6, the portion of Medicare Shortfall included in our subsidized services calculations has been subtracted from the Medicare revenue and costs derived from the Medicare Cost Report. The values indicated in Part III, lines 5 and 6 are therefore what remains after the Medicare revenue and costs included in the subsidized services calculations has been subtracted out. Given this, the resulting values (Part III, lines 5, 6 and 7) would need to be combined with the Medicare revenue/costs included in our subsidized services to get the full overview of Medicare revenue, costs and any remaining shortfall or surplus. We agree with the current subsidized services calculation methodology that allows the inclusion of Medicare dollars as the Medicare population comprises an important segment of those receiving subsidized services care. The Hospital treats all Medicare patients equally and does not discriminate against lower-margin yielding services. As a not-for-profit hospital, Middlesex Hospital is the safety-net in the community for all Medicare patients, regardless of level of Medicare coverage and regardless if a surplus or deficit results. This open access for Medicare patients promotes access to care, a fundamental tenet of the Hospital's community benefit program. There is a disproportionate percentage of older adults in Middlesex County when compared to state averages. The Hospital's most recent (2016) community health needs assessment (CHNA) found that, when comparing state and national growth projections for persons age 65+ to local growth, every town in Middlesex County, except Middletown, considerably exceeds Connecticut and U.S. projections for 2020 and 2025 (Administration on Aging, Administration for Community Living, The Connecticut Data Collaborative and Connecticut's Legislative Commission on Aging). For 2020, excluding Middletown (at 16.4%), expected growth for age 65 and older ranges from 18.8% to 34.1% in the towns of Middlesex County compared to 17.5% for Connecticut and 16.3% for the U.S. For 2025, excluding Middletown (at 18.8%), expected growth for age 65 and older ranges from 22.6% to 38.9% in the towns of Middlesex County compared to 19.6% for Connecticut and 18.2% for the U.S. In Addition, the 2008, 2013 and 2016 Middlesex County CHNAs found older adults to be a priority area (access to care, health service utilization, lack of services, etc.). As Middlesex County has a disproportionate level of community members age 65+ when compared to state averages, the shortfall that the Hospital experiences in providing critical healthcare services to the Medicare population should be considered a community benefit within the Hospital's subsidized services, which those age 65+ also rely heavily on for care. The Hospital fills a healthcare delivery gap for Medicare patients, one which would be detrimental to the community if the Hospital was not present.</p>

Form and Line Reference	Explanation
Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance	<p>Middlesex Hospital has a written debt collection policy. The policy states that patients who qualify for financial assistance will be responsible for paying any balance remaining after the financial assistance allowance has been applied (that is, if 100% financial assistance has not been awarded). The policy also outlines the process for paying outstanding balances should the patient be found to have the means to pay a partial amount after the Hospital's financial assistance determination criteria has been applied. For such balances, the Hospital will notify the patient of his/her liability. If payment is not made, the policy states that the Hospital will use appropriate methods to pursue collection, which may include collections agencies and attorneys. This practice is broadly utilized for all patients with outstanding balances. The Hospital makes every effort to ensure that all patients know payment plans are available for any balance, including those patients who have a balance left over after a financial assistance award has been applied. In order to capture the patients who are known to qualify for financial assistance, the Hospital has provisions in its collection policy. In the case where patients who would qualify for financial assistance do not complete a financial assistance application and are placed into collections, the third party organizations that work on behalf of the Hospital to collect balances screen for financial assistance eligibility. The third party organizations follow Hospital policy by alerting all patients in collections to the availability of the Hospital's financial assistance program. Within the Hospital's collection policy there is a provision whereby collection agencies, using guidelines set forth by the Hospital, assist the Hospital in identifying patients who do not have a means to pay for services and therefore qualify for the Hospital's financial assistance program - while these patients have not gone through the formal application process, they meet the eligibility guidelines for financial assistance as defined by the Hospital. These patients are then transferred and included under the Hospital's financial assistance umbrella. This process was put in place by the Hospital in order to capture as many patients who are eligible for financial assistance as possible.</p>

Schedule H, Part VI, Line 2 Needs assessment	<p>Since the inception of Middlesex Hospital's Community Benefit Policy in 2007, and prior to the mandate of the Affordable Care Act, conducting a community health needs assessment (CHNA) in order to prioritize specific community benefit initiatives has been a core element of the Hospital's Community Benefit program. In addition to completing a CHNA, the Hospital assesses the needs of the communities it services on an on-going basis through a variety of methods. Examples include understanding the local and state-wide needs derived from 1) participation in community healthcare coalitions and boards, which include strategic planning that is responsive to community need, 2) participation in the state's Hospital Association population health initiatives based on state-wide and local community health issues, 3) any real-time community based input, feed-back, recommendations and suggestions, and 4) continuous assessment and adjustments, when necessary, of the Hospital's community benefit programs through surveys and patient/participant feed-back. Having a strong presence in community coalitions and partnerships, in addition to being responsive to the needs expressed by our community residents, allows the Hospital to continually assess the healthcare needs of our community in between community health needs assessment cycles.</p>

Schedule H, Part VI, Line 3 Patient education of eligibility for assistance	<p>Great concern is taken to ensure that patients are apprised of the availability of federal/state/local government programs and the Hospital's financial assistance plan. Notice of the Hospital's financial assistance program is displayed conspicuously in English and Spanish at the entry of each facility and at all patient registration points. The notification includes an overview of the Hospital's financial aid program, the availability of free bed funds and other financial assistance, sliding scale, and financial counselor contact information. At the time of registration, Hospital Access staff reviews the Hospital's financial assistance program and asks the patient if he/she would like a financial assistance package. Built into the registration data base is a required financial assistance field which must be completed as part of the admissions process. Once the patient expresses the desire to receive a financial assistance package, paperwork with patient name and medical record is automatically printed at the registration station and handed to the patient. Other methods of communication to increase awareness regarding the financial assistance and free bed fund program include 1) a financial assistance brochure that aids patients in the process, answers key questions and provides easy access for help (available at multiple hospital departments and locations, including kiosks at every hospital entry point), 2) a separate and distinct Financial Assistance Services section on the Hospital's web-site (https://middlesexhealth.org/patients-and-visitors/financial-assistance-services) which includes application, instructions, and sliding scale, 3) inclusion of financial assistance information in the Hospital's inpatient admissions booklet, 4) notice of the program and financial counselor contact information on every billing statement, 5) notification at discharge, and 6) a letter outlining the program sent to every self-pay patient following discharge. The Hospital has a team of financial counselors who are available to assist the patient through the application process either by phone or visit. The role of the counselors is to help patients navigate the Hospital's financial assistance process and to aid in application for Medicaid/state programs. All counselors receive departmental training on the importance of assisting patients in need of state/governmental or Hospital financial assistance, the Hospital's financial assistance protocols, systems, new program enhancements, and how to provide support and follow-up for Medicaid/state enrollment. The Hospital's social workers also assist patients with completion of Hospital financial assistance applications as well as Medicaid/state applications. An important addition to Middlesex Hospital's financial assistance process has been the development of the Financial Assistance Workgroup several years ago. Workgroup tasks include increasing awareness regarding financial assistance availability, continuous monitoring of appropriateness, feasibility and accessibility of the Hospital's financial assistance practices, and a comprehensive communications strategy for increasing awareness for financial assistance. In FY18, Middlesex Hospital granted \$1,707,805 of financial assistance to 4,235 unique recipients and absorbed \$20,617,075 in unpaid costs of Medicaid (total of Medicaid including managed care and LIA), serving 19,564 individuals.</p>

Schedule H, Part VI, Line 4 Community Information	<p>Middlesex Hospital is the sole hospital provider in its service area, which includes the large geographic area of Middlesex County and surrounding towns. It encompasses 24 municipalities, including the 15 towns of Middlesex County (Middletown, Cromwell, Portland, East Hampton, East Haddam, Haddam, Middlefield, Durham, Killingworth, Chester, Deep River, Essex, Old Saybrook, Westbrook, Clinton) and 9 towns on Middlesex County's periphery (Rocky Hill, Glastonbury, Hebron, Marlborough, Colchester, Salem, Lyme/Old Lyme, Madison, Guilford). Middlesex County is 369 square miles, making it the smallest county by land area in Connecticut, and is the fifth in population size out of the eight Connecticut counties (TownCharts 2014). Municipality sizes vary throughout the county, from 10 square miles (Essex) to 54 square miles (East Haddam). Middletown has a geographic area of 41 square miles by land area. The periphery towns cover an additional 340 square miles. The Connecticut Office of Rural Health (CT-ORH) defines rural as all towns with a population census of 10,000 or less and a population density of 500 or less people per square mile. Schedule H, Part VI, Line 5 Promotion of community health	<p>As Middlesex Hospital is a community hospital, involving community members in key functions has always been a priority. The Hospital's Board is comprised mainly of community members who are neither employees, family members nor contractors of the organization, but are long-term residents whose primary interest is the health and well-being of the community at large. Middlesex Hospital extends medical staff privileges to all qualified physicians in the community based on the Hospital's current and projected patient care, teaching and research needs, and overall community need. Medical staff input and participation is highly valued by the Hospital as evidenced by inclusion in the Hospital's Medical Executive Committee, the Medical Staff Council and countless other working committees. The Hospital has a formal process for allocation of surplus funds, a multidisciplinary Capital Budgeting Committee meets and sets priorities for investments in patient care, education and research, and physical structure. The approach takes into consideration patient, community and staff needs. Each year the Hospital allocates a portion of surplus funding to a wide array of community benefit programs and service lines, including substantial health and wellness activities and initiatives, subsidized services, medical education, research and health assessment costs. Continuous dedication to the communities it serves remains the hallmark of Middlesex Hospital's vision, mission, and strategic planning. Ambitious community benefit goals, the incorporation of community benefit into annual organizational planning, and the provision of community benefit programs that target the community's most vulnerable and at-risk populations has allowed the Hospital to put a formal structure around its fundamental purpose. The Hospital's community benefit total for FY17 was \$69,221,996 (excluding Community Building) with 74,918 served (excluding Community Building). The following is an overview of the Hospital's community benefit program.</p> <p>Community Health Improvement Services. The Hospital underwrites a vast range of community health education and health improvement programs, none of which are developed for marketing purposes, all of which are supported as a means of fulfilling the Hospital's mission to serve its community. Almost 100% of the time these services are offered free of charge, in the rare instance where a nominal fee is assessed the cost of providing the service is not covered. Community health education is provided to the community at large. Some of the programs represent one-time events, however most are ongoing and over the years have become entrenched in the community as a source of support and continued education for a healthful future. Examples of Community Health Improvement Services include (but are not limited to): 1) Health education (community education presentations, health and wellness events/health fairs, support groups, large scale cancer awareness and educational events, and the availability of health literature), 2) Community-based clinical services (clinics and screenings, annual flu shots, blood pressure clinics), and 3) Healthcare support services offered to increase access and quality of care to individuals, especially those living in poverty and/or other vulnerable populations (Center for Chronic Care Management disease management outpatient programs for adult asthma, child asthma, diabetes education and disease management, medical nutrition therapy, smoking cessation, chronic heart failure, and childhood weight management). In FY18, the Hospital's Community Health Improvement Services served 51,196 individuals at a total cost of \$3,655,212 to the Hospital.</p> <p>Health Professions Education. Helping to prepare future healthcare professionals is a long-standing commitment of Middlesex Hospital and distinguishing characteristic that constitutes a significant community benefit. The Hospital's Family Medicine Residency Program graduates Family Practice physicians, many of whom continue to practice in the Middlesex County area after their training is complete. This is especially important given that Middlesex County has been designated by the Health Resources and Services Administration (HRSA) to be a Medically Underserved Area (MUA) experiencing a shortage of select health services which includes too few primary care providers. In addition, HRSA reports that Middlesex County is a Health Professional Shortage Area (HPSA) for primary medical care. The Hospital also welcomes medical and nursing student interns and provides on-site training during clinical rotations. Nursing students from local colleges and programs receive hands-on mentorship in the majority of clinical service lines year-round. Other healthcare professional education includes the Hospital's Radiology School (which operates at a loss for the Hospital) and clinical/non-clinical educational student training in multiple fields. In FY18, the Hospital's Health Professions</p>

In addition, the CHNA priority areas become the foundation for the Hospital's community benefit organizational goals. Middlesex Hospital will conduct its next community health needs assessment to be completed by September 30, 2019, which will be followed by prioritization of the findings and needs and the development of a community health needs assessment implementation strategy. Middlesex Hospital recognizes that it cannot focus on all the health needs identified in its 2016 CHNA. Given the significant resources and in-kind time needed to address health priority areas uncovered by a community health needs assessment, the Hospital engaged in a thorough process of data review and discussion to identify the areas of greatest need, impact potential and feasibility. For those areas of identified needs not addressed by the Hospital, its 2016 CHNA was widely disseminated to Middlesex County community agencies with the hope that the study would be used to initiate focus on CHNA findings that are outside the scope of the Hospital's selected priority areas. As many local community-based organizations are dedicated to meeting the needs of county residents, the Hospital realizes that these organizations may be better suited to take a leadership role in improving certain health outcomes. As with our previous community health needs assessment, the Hospital will continue to be a willing partner, when able, for initiatives not related to its selected CHNA priority areas.</p>
