990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 3c	(A) St. Luke's does provide charity care services to patients who meet one or both of the following guidelines based on income and expenses: 1. Income: Patients whose family income is equal to or less than 400% of the then current Federal Poverty Guideline are eligible for possible fee elimination or reduction on a sliding scale. 2. Expenses: Patients may be eligible for charity care if his or her allowable medical expenses have so depleted the family's income and resources that he or she is unable to pay for eligible services. The following two qualifications must apply: a. Expenses- The patient's allowable medical expenses must be greater than 30% of the family income. Allowable medical expenses are the total of the family medical bills that, if paid, would qualify as deductible medical expenses for Federal income tax purposes without regard to whether the expenses exceed the IRS-required threshold for taking the deduction. Paid and unpaid bills may be included. b. Resources- The patient's excess medical expenses must be greater than available assets. Excess medical expenses are the amount by which allowable medical expenses exceed 30% of the family income. Available assets do not include the primary residence, the first motor vehicle, and a resource exclusion of the first \$4,000 of other assets for an individual, or \$6,000 for a family of two, and \$1,500 for each additional family member. (B) Service Exclusions: 1. Services that are not medically necessary (e.g., cosmetic surgery) are not eligible for charity care. 2. Eligibility for charity care for a patient whose need for services arose from injuries sustained in a motor vehicle accident where the patient, driver, and/or owner of the motor vehicle had a motor vehicle liability policy, and only if a claim for payment has been properly submitted to the motor vehicle liability insurer, where applicable. (C) Eligibility Approval Process: 1. St. Luke's screens patients for other sources of coverage and eligibility in government programs. St. Luke's documents the results of each screening. If St. Luke's determines that a patient is potentially eligible for Medicaid or another government program, then St. Luke's shall encourage the patient to apply for such a program and shall assist the patient in applying for benefits under such a program. 2. The patient must complete a Financial Assistance Application and provide required supporting documentation in order to be eligible. 3. St. Luke's verifies reported family and compares to the latest Poverty Guidelines published by the U.S. Department of Health and Human Services. 4. St. Luke's verifies reported assets. 5. St. Luke's provides a written notice of determination of eligibility to the patient or the responsible party within 10 business days of receiving a completed application and the required supporting documentation. 6. St. Luke's reserves the right to run a credit report on all patients applying for charity care services. (D) Eligibility Period: The determination that an individual is approved for charity care will be effective for six months from the date the application is submitted, unless during that time the patient's family income or insurance status changes to such an extent that the patient becomes ineligible.
Part II, Community Building Activities	St. Luke's is an active participant in the community, and provides support to address public health issues, and works with coalitions to address local health needs. St. Luke's takes on initiatives as need arises to help the long-term development of the community particularly to shape and improve public health and access to medical services.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 2	The Cost to Charge ratio method was used to calculate bad debt expense at cost
Part III, Line 3	St Luke's has a very robust financial assistance program, therefore, no estimate is made for bad debt attributable to patients eligible under the financial assistance policy

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 4	Per the audited financial statements in footnote four, St Luke's grants credit without collateral to its patients, most of whom are local residents and many of whom are insured under third-party agreements. The allowance for estimated uncollectible amounts is determined by analyzing both historical information (write-offs by payor classification), as well as current economic conditions.
Part III, Line 8	Our community benefit reports the under-reimbursed services provided to patients by Medicare. St Luke's Magic Valley Regional Medical Center, Ltd. provides medical care to all patients eligible for Medicare regardless of the shortfall and thereby relieves the Federal Government of the burden for paying the full cost of Medicare. The source of the information is the Medicare Cost Report for fiscal year 2018. The amount is calculated by comparing the total Medicare apportioned costs (allowable costs) to reimbursements received during FY'18. It should be noted that the unreimbursed costs reported within this schedule are significantly less than the amount reported in the annual Community Benefit Report to Twin Falls County ("County"). In the report to the County, unreimbursed costs include program costs allocated to the Medicare Advantage program, along with costs that offset the provider-based physician clinic operations, i.e. professional component billing for physician time and effort. The Medicare Cost Report does not include these components. In addition, the report to the County includes all allocated costs to the Medicare Programs, whereas the Medicare Cost Report reports allowable costs only.

Group A-Facility 1 -- St Luke's Magic Valley Regional Medical Part V, Section B, line 5	A series of in-depth interviews with people representing the broad interests of our community were conducted in order to assist us in defining, prioritizing, and understanding our most important community health needs. Many representatives participating in our process are individuals who have devoted decades to helping others lead healthier, more independent lives. The representatives we interviewed have significant knowledge of our community. To ensure they came from distinct and varied backgrounds, we included multiple representatives from each of these categories: Category I: Persons with special knowledge of public health. This includes persons from state, local, and/or regional governmental public health departments with knowledge, information, or expertise relevant to the health needs of our community. Category II: Individuals or organizations serving or representing the interests of the medically underserved, low-income, and minority populations in our community. Medically underserved populations include populations experiencing health disparities or at-risk populations not receiving adequate medical care as a result of being uninsured or underinsured or due to geographic, language, financial, or other barriers. Category III: Additional people located in or serving our community including, but not limited to, health care advocates, nonprofit and community-based organizations, health care providers, community health centers, local school districts, and private businesses. Each potential need was scored by the community representative on a scale of 1 to 10. Higher scores represent potential needs the community representatives believed were important to address with additional resources. Lower scores usually meant our leaders thought our community was healthy in that area already or we had relatively good programs addressing the potential need. These scores were incorporated directly into our health need prioritization process. In addition, we invited the leaders to suggest programs, legislation, or other measures they believed to be effective in addressing the needs. Form 990, Part VI, Section B, line 15	Executive compensation is set by St. Luke's Board of Directors and is reviewed annually. Compensation levels are based on an independent analysis of comparable pay packages offered at similar institutions across the country, with the goal of targeting overall compensation of the executive group at the 50th percentile of those surveyed. These surveys are usually done every two years, with the most recent compensation survey completed during calendar year 2017. St. Luke's Health System is committed to providing the highest quality medical care to all people regardless of their ability to pay. To keep that commitment, St. Luke's puts a great deal of time and effort into recruiting and retaining the top physicians in a variety of medical fields. Our relationships with physicians range from having privileges at the hospital to full employment. For those physicians who choose to be employed, St. Luke's must offer competitive pay and benefits. Physician compensation is based on a range of criteria and can be influenced by a number of variables including -Community need for medical specialty -Experience -Productivity -Geography -National surveys adjusted for local conditions -Willingness to serve regardless of patients' ability to pay -Duration of relationship and contractual terms -Performance on quality metrics. To ensure physician compensation and benefits remain within industry standards and legal requirements for not-for-profit institutions, St. Luke's has a Physician Arrangements policy that specifies circumstances requiring a third-party valuation and also periodically uses third-party consulting firms to review St. Luke's physician compensation arrangements. Given the growing national shortage of physicians, recruiting and retaining physicians is more critical than ever to guarantee that people seeking care at St. Luke's will continue to have access to the physicians and specialists they need regardless of their insurance status or insurance provider.
