Part X, Line 2	<p>Covenant and its member organizations are considered not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code, except as noted below. St. Joseph Hospital Corporate Services, Inc., a wholly-owned subsidiary of Nashua, is a for-profit organization, which is subject to federal and state income taxes. Covenant Health Insurance, LTD (CHIL), a wholly-owned subsidiary, is subject to taxation in the Cayman Islands. No income taxes are levied in the Cayman Islands and CHIL has been granted an exemption for any taxes that might be introduced. Accordingly, no provision for income taxes has been made in the accompanying financial statements. Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position they have historically taken on various tax exposure items including unrelated business income or tax status. Under guidance issued by the Financial Accounting Standards Board, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the "more-likely-than-not" threshold, based upon the technical merits of the position. Estimated interest and penalties, if applicable, related to uncertain tax positions are included as a component of income tax expense. The System has evaluated the position taken on its filed tax returns. The System has concluded no uncertain income tax positions exist at December 31, 2018.</p>

St Joseph Hospital	Part V, Section B, Line 11 The prioritization of community health needs began by correlating data received from primary data sources (community survey, medical community survey and key informant focus interviews) This data was analyzed to ascertain the most prevalent community health needs noted from each constituent group Secondary data was then utilized to formulate a more comprehensive evaluation of the health need Once the identified health needs had sufficient secondary data, the information was evaluated to determine common themes among the three constituent groups Through this process five significant community health needs were identified These needs were then prioritized utilizing a point system relative to four components severity of health need (utilizing primary and secondary data sources), estimated feasibility and effectiveness of possible interventions, the level of importance the community, medical community and key informant focus interviews placed on the need (determined by listing within top three barriers to health or listing within top three most pressing health concerns), and synergy between two or more constituent groups relative to importance of health need The implementation plan that was developed identifies a number of actions that St Joseph Hospital will take to address these health needs In areas where the Hospital does not have the required expertise or resources to address these needs, the implementation plan identifies actions that will provide support to other community organizations that are better able to address these needs Recognizing that there will be limited funds available to address the full list of community health needs, and recognizing that other agencies and organizations in the area had expertise or missions in these areas, there are a number of health needs that were identified by some respondents that are not included in the implementation strategy These include cancer, dental problems, diabetes, domestic violence, infectious diseases, suicide, and teenage pregnancy

There were six areas of priority identified, such as substance and alcohol use disorder, mental health, obesity, cancers, aging problems and diabetes. St Joseph Healthcare then developed a robust implementation strategy to address four of these needs.
