PART VI, LINE 4 - COMMUNITY INFORMATION Service area: NewYork-Presbyterian Hudson Valley Hospitals Westchester County service area includes the City of Peekskill and Towns of Cortlandt (Buchanan and Croton-on-Hudson), Ossining, Somers, and Yorktown. In Putnam County, the hospitals service area includes the Towns of Carmel, Patterson, Philipstown, Putnam Valley, and Southeast, and Villages of Brewster, Cold Spring, Mahopac and Nelsonville. In southern Dutchess County, the hospitals service area includes the municipalities of Beacon, East Fishkill, Fishkill, Hopewell Junction, Poughkeepsie and Wappingers Falls. Socioeconomic Factors: There is a large gap between the highest and lowest socioeconomic classes within our community, with family household income ranging from less than \$10,000 to more than \$200,000.00. According to data provided by the Westchester County Department of Health, 87.1% of the Westchester County population ages 18-64 has health insurance which is below the NYS 2018 objective of 100%. Additionally, our primary service area faces an average unemployment rate of 8.75%. PART VI, LINE 5 - Promotion of Community Health: Through its understanding of community needs, Hudson Valley Hospital Center DBA NewYork-Presbyterian Hudson Valley Hospital has expanded and implemented programs to serve both patients and residents of the community. Nutritional support continues to be the focus of many of our community outreach programs. In an effort to combat obesity and an increase in Type II Diabetes, the Hospital has a multi-faceted plan under the banner of Harvest for Health. This included the creation of an organic garden for healing, which provided an outdoor classroom for nutritional education with cancer patients and continues to be a venue for volunteerism, with community residents assisting with first plantings. The hospital continued its food service that focuses on preparing wholesome meals with fresh and local produce. The hospital also offered its Farmers Market twice monthly and year-round. The markets provide the opportunity for members of the community to have access to healthier foods and encourage a plant-based diet, proven to be beneficial to many diagnoses from cardiovascular issues to diabetes. In addition, the Hospitals teaching and demonstration kitchen continued to provide the community with cooking and nutrition classes to encourage the preparation of healthy foods at home. Plans were made to hold free classes for at-risk youngsters 11-13 in conjunction with the City of Peekskill School District to combat childhood obesity and teach nutritional principles, as well as classes for cancer patients and patients with heart disease and diabetes. To reduce the number of hospital readmissions in elderly populations, the Hospital continues to expand its NICHE program. The Hospitals designation as a NICHE hospital (Nurses Improving Care for Health System Elders) has allowed it to address many issues facing its growing elderly population fueled by five nearby nursing homes. A Silver Lining Healthy Aging Fair was conducted on site to educate seniors and their caregivers on the importance of hydration and mobility in helping the elderly to stay healthy. This was held in addition to a Senior and Caregivers Health Fair, held off site at a community center in Cortlandt, which provided health screenings and information to more than 150 seniors and their caregivers. The Hospital expanded service in its Cheryl R. Lindenbaum Comprehensive

Form and Line Reference	Explanation
Part v, Line 5	Since 2016, NewYork-Presbyterian Hudson Valley Hospital worked as a member of the Westchester County Health and Hospital Planning Team (WCHHPT) under the guidance of the Westchester County Department of Health to plan and execute a county-wide Community Health Needs Assessment survey, and to collaborate on the identification of priority areas and planned health interventions for 2016-2018. Members of the WCHHPT included the Department of Health and representatives from 12 hospitals and healthcare providers who met seven times throughout the year. As a result of this collaboration, survey results, and internal planning based on our hospitals strengths, resources and local community needs, NewYork-Presbyterian Hudson Valley Hospital developed its 2016-2018 Community Service Plan. In our efforts to meet the Agendas requirements, the Westchester County Health & Hospital Planning Team (WCHHPT), including NewYork-Presbyterian Hudson Valley Hospital, conducted a Community Health Needs Assessment Survey to sample residents and providers in the County and each hospitals or agencies service areas to determine which Prevention Agenda initiative(s) it plans to address during this three-year period. Surveys yielded 1,318 responses and 326 were from within the subset of NewYork-Presbyterian Hudson Valley Hospitals primary and secondary service areas. Significant socioeconomic gaps exist among the communities served by NewYork-Presbyterian Hudson Valley Hospital. Over a series of meetings in 2016, the Westchester County Health & Hospitals Planning Team crafted and disseminated throughout Westchester County community assessment and provider surveys. In addition to surveying the community at large, the team sought to identify a wide and varying range of providers of health care services to ensure that as many areas of health care as possible could be included in the surveys. Surveys were distributed to community members, community agencies and providers both electronically via a Survey Monkey on-line form, and in hard copy paper format. Completed paper surveys were manually entered into the data sets prior to analysis. NewYork-Presbyterian Hudson Valley Hospital completed a stand-alone Community needs assessment report. Form and Line Reference	Explanation
Part V, Line 11	The hospital is addressing the significant needs identified in its most recently conducted CHNA, namely Overweight and Obesity by its Community Service Plan Priority Prevent Chronic Disease programming. The hospital also provides community outreach to address the other health factors that were raised as health concerns, namely, nutrition/eating habits and care for the elderly. The original 2014 Intervention Healthy Heart Cooking Classes expanded to become the Healthy Heart Program. In 2014, participants expressed their interest in learning more about how physical activity could benefit their overall heart health. The program broadened from cooking classes to include a membership to The Wellness Center, the hospital's in-house fitness facility. Local physician practices and Hudson River Health Care, a not-for-profit, New York State licensed, federally qualified health center, helped to identify participants. The patient profile was minorities, ages 45-65, at risk of heart disease due to a previous heart attack, other cardiac issues or predisposition due to heredity, high blood pressure, diabetes or being overweight. In 2017, the program included enrollment in 10 Healthy Heart cooking classes spanning five months at NewYork-Presbyterian Hudson Valley Hospital. Chef Peter X. Kelly Teaching Kitchen and membership to the hospital's Wellness Center, an onsite exercise facility. The participants were from minority populations, with ten African-Americans and two Latinos. Cooking classes were held every month from March through July 2017 with 12 participants enrolled in the program. The cooking classes are led by the chef, whose focus is teaching participants how to better manage their health through diet and lifestyle changes. The program aims to provide long-term solutions to improving health. Long term, the program emphasizes an increase in consumption of fruits and vegetables, and increase in heart health food preparation techniques, and increase in exercise habits. Moreover, the program seeks to empower participants, increasing their confidence in preparing heart health foods, and promotes mindful food consumption. Most indicative of the success of this program is how participants report feeling after the program. In our starting survey, they felt a certain way. The goal of the Healthy Heart program is to have most participants undergoing change and remaining motivated, and this goal was realized. After the program, four out of five participants embraced significantly new attitudes and corresponding behaviors, while one out of five was just behind them, taking action and deepening a commitment to the next level. This marked difference in attitude and behavior demonstrates how empowering this program is, and transformative for participants. Two Year update: From 2016 to 2018, NewYork-Presbyterian Hudson Valley Hospital achieved the goal of Priority/Focus Area 1, addressing the health disparity of race, and increasing access to high quality chronic disease.

Part V, Line 11	se preventative care with its Healthy Heart Program Seventy-eight individuals from minor ty backgrounds were served with heart health education and resources from 2016 to 2018 In 2016, the program was held twice, for five months at a time In 2017, one five-month prog ram was held before transitioning in September to a five-week program Noteworthy in 2018 was the increase in referrals by NewYork-Presbyterian Medical Group Hudson Valley physicia ns of their own patients to the hospitals Healthy Heart Program In previous years, the ho spitals Community Outreach team collaborated mostly with the Peekskill-based Hudson River Health Care (HRHC), a New York State federally-qualified health center, for recommendation s While that collaboration continued, in 2018 the Outreach team increased its efforts to physicians associated with NewYork-Presbyterian Medical Group Hudson Valley, which resulte d in expanded membership in the program In 2018 specifically, this meant that in addition to community participation (HRHC referrals and other), the Healthy Heart class enrollment reflected 10 patients of our cardiologists and 14 patients of our internal medicine pract itioners Demonstrating the impact of the program, in terms of the results of all the Heal thy Heart programs - regardless of their length - were the attitudinal shifts toward nutri tion to support cardiovascular health and overall well-being The participants in the prog ram indicated that they now understand the importance of the following Importance of Frui ts & Vegetables, Consumption of Red Meat vs Poultry, Fish & Vegetables, The Reliance on S ugary Beverages, Salt Intake, Nutritional Literacy, Culinary Skills Education and Impact o n Community Perhaps most indicative of the success of this program is how participants re port feeling upon completion of the program In our starting survey, nearly 50% recognized that they needed to make healthy lifestyle decisions, thus their interest in the Healthy Heart Program The other half of participants disclosed at the start of the program that e ither they had not tried at all to change unhealthy habits or had tried a little, but were frustrated by a lack of results The goal of the Healthy Heart program is to have most pa rticipants undergo change and remain motivated, and this goal was realized After the prog ram, not one person remained negative, frustrated or only mildly committed Instead, 16% w ere actively seeking information and changing unhealthy habits and 83% had made changes, w ere seeing results and said they would remain committed to a plan to achieve optimal healt h In other words, four out of five participants embraced significantly new attitudes and corresponding behaviors, like eating better and exercising more, while one out of five was just behind them, taking action and deepening a commitment to the next level This marked difference in attitude and behavior demonstrates how empowering this program is, and tran sformative for participants B

Return Reference	Explanation
Part VII and Schedule J	A Certain Key Employee of the New York and Presbyterian Hospital that is identified in part VII as a former officer of the Hudson Valley Hospital DBA NYP/Hudson Valley Hospital is responsible for executing the mission and management of the New York and Presbyterian Hospital (NYP) and its affiliated entities. Compensation for 2018 of these upper level executives includes the payout of an annual incentive plan and a long-term incentive plan. This performance-oriented program conditions payments upon the achievement of multiple individual and group performance measures. Measures to monitor performance include operational and financial strength, patient quality and safety, patient satisfaction, advancement of patient care, and people development and partnership. Incentive awards may only be granted if the organization achieves a financial surplus. Even if all relevant performance measurements are achieved, the NYP Board of Trustees retains full discretion to make or not make any incentive awards, or to reduce the amount of any incentive award. This initiative is critical to assuring that NYP has the requisite leadership to create and manage a highly motivated and engaged workforce, to drive superior performance throughout the organization and to achieve top tier medical center status. As a separate matter, due to restrictions imposed by the Internal Revenue Code, upper level executives are limited in the amount of benefits received under a tax-qualified retirement plan. Like many employers, NYP supplements these executives' pension benefits through a supplemental ("nonqualified") retirement plan. The supplemental executive retirement plan (SERP) is subject to a multi-year vesting requirement (commencing after five years of participation in the SERP, in prorated amounts through age 65) which places an executive's supplemental retirement benefit at risk of forfeiture if the vesting requirements are not satisfied. Once vested, however, provisions of the Internal Revenue Code require that the vested executive include in current income the value of his or her vested supplemental retirement benefit. Notwithstanding the legal requirement to recognize the vested value of the supplemental retirement benefit as current income, the supplemental retirement benefit will not be distributed to the executive until the executive actually retires from NYP (although, as permitted by the Internal Revenue Code, the supplemental retirement plan will effect a distribution of an amount necessary to satisfy the executive's tax liability resulting from the income recognition upon vesting). As noted, this supplemental retirement benefit will not be distributed to the executive until the executive actually retires from NYP. There are constantly changing legal, tax, accounting, and public disclosure rules for a SERP (supplemental executive retirement plan) in not-for-profit organizations. The executive Compensation Committee continuously monitors these changes and incorporates any changes into the overall SERP plan design. As in past years, the executive Compensation Committee of NYP requires a third party complete a review of the organization's compensation program to ensure its effectiveness in terms of government regulations, market conditions and the need to continually elevate organizational performance. The report also serves to meet the regulatory obligations to ensure that all elements of the executive compensation programs are reasonable. The individuals listed in part VII that are compensated by New York Presbyterian Hospital devote an average of sixty hours per week to perform their responsibilities for the New York Presbyterian Hospital and other related organizations in the aggregate. Schedule J, Line 3 Compensation decisions for the President was determined by a related organization following that organization's compensation policy. Part I, Line 4A Severance Pay John Federspiel received 750,009 in severance Pay Kevin Murphy received 149,465 in severance pay. Part I, Line 4B Supplemental Nonqualified retirement plan as reported on W2 Gary Zuar 608,653 PART I, LINE 7 - NON-FIXED PAYMENTS See Schedule o Line 15 - for non-fixed payments
