Part X FIN48 Footnote	The Company adopted accounting rules that prescribe when to recognize and how to measure the financial statement effects of income tax positions taken or expected to be taken on its income tax returns (See Note 2) These rules require management to evaluate the likelihood that, upon examination by relevant taxing jurisdictions, those income tax positions would be sustained Based on that evaluation, the Company only recognizes the maximum benefit of each income tax position that is more than 50% likely of being sustained To the extent that all or a portion of the benefits of an income tax position are not recognized, a liability would be recognized for the unrecognized benefits, along with any interest and penalties that would result from disallowance of the position Should any such penalties and interest be incurred, they would be recognized as operating expenses The Organizations evaluation at year-end revealed no uncertain tax positions that would have a material impact on the financial statements
