Schedule H, Part I, Line 7	A cost-to-charge ratio was used to calculate the cost of community benefit expenses detailed in the table for Part I, line 7(a) 7(k) The cost-to-charge ratio was derived from Worksheet 2, Ratio of Patient Care Cost-to-Charges
Schedule H, Part I, Line 7, Column F	The amount used to compute column (f) is from the amount reported on Form 990, Part IX, line 25, column (a)

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part I, Line 7G	Subsidized health services of \$1,645,766 are reported on line 7g Of this amount, \$1,640,672 represents the community benefit attributable to physician services
Schedule H, Part II	Franciscan Care Services, Inc currently has involvement in the Elkhorn Logan Valley Public Health Department Board which looks at how the community addresses health and safety issues, the access individuals have to health care services, and the staff necessary to provide healthcare services We spend a considerable amount of time and effort in educating healthcare professionals We have many residents and clinical college students on-site throughout the year We also have a job shadowing program for high school students in the area We help educate these individuals in the hope that they will come back to the community to provide healthcare services We provide funds for activities at area schools that provide a safe environment and education for our youth We help sponsor the local blood drive through the American Red Cross We donate funds to different organizations to improve the communitys health and safety

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part III, Line 2	The amount reported on line two is taken directly from the general ledger. The amount that is written off to bad debt is the patient's account balance when it is determined that the patient will not pay. Therefore, if the patient is self-pay and has not paid any of the balance, then 100% of charges are written off. If the patient has commercial insurance and cannot pay the 20% coinsurance that is due after insurance has paid and the contracted discounts have been applied, then only the 20% coinsurance that is owed by the patient is written off to bad debt.
Schedule H, Part III, Line 3	The amount reported on line three is estimated based on past financial analysis performed by the Patient Accounting Manager and the Patient Financial Counselor. Historically, a review of the accounts written off to bad debt was done, taking into consideration the individual's financial situation. During the review, accounts that could have been written off as charity care if sufficient information was received were identified. As a result of the analysis, it was determined that \$194,965 would possibly have qualified as charity care. There is a fine line between bad debt and charity care. There are those individuals who just will not pay, but there are a larger number of individuals who cannot pay, but do not want to fill out the paperwork for charity care or do not want to even ask for charity care. We have estimated that \$194,965 of our bad debt expense should have been classified as charity care if the appropriate paperwork was received. These are the dollars that should be classified as community benefit.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part III, Line 4	The accounts receivable footnote which discusses bad debt expense is on page 6 of the Notes to Financial Statements
Schedule H, Part III, Line 8	Total revenue received from Medicare and the Medicare allowable costs reported on Part III, lines 5 & 6 was taken directly from the 2018 Medicare Cost Report. In addition to the revenue received from Medicare and the Medicare allowable costs reported on the Medicare Cost Report, we also receive Medicare Part B payments (fee schedule) for certain lab, radiology, and physician services. These amounts are not included on the Medicare Cost Report. The revenue received for Medicare Part B services was \$288,746 while the associated costs were \$805,395 for a shortfall of (\$516,649). The costs for the services reimbursed on a fee schedule methodology were calculated using the cost to charge ratio from the Medicare cost report for that department. The shortfall reported on Part III, line 7 of (\$306,201) and the Medicare Part B shortfall of (\$516,649) for a total shortfall of (\$822,850) should be treated as a community benefit because these are costs over and above the amount that Medicare pays us. These services are integral to the community and would not be available to the community if they were not provided by our facility.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part III, Line 9B	In our billing and collection policy there is a section on financial assistance. It states "Franciscan Care Services has a financial assistance program to assist patients that are financially burdened and unable to pay for their medical expenses. A financial assistance application must be completed and turned into the Patient Financial Counselor. A copy of the most current tax return must accompany the financial assistance application. A determination of approval or denial is made from this application and is based upon hospital established guidelines."
Needs Assessment	The health care needs of the communities we serve are assessed in many different ways. We work closely with the Elkhorn Logan Valley Public Health Department who surveys the area population to ascertain health disparities, collaborate on health screenings, and determine areas of need. As our physicians and other health care workers see patients they discuss their current status and what else we can do for them. Also, our board members and employees who are in the public advise us as to what health care needs are in the community that we do not currently address. Many of our employees are involved in state and national organizations that keep us up-to-date on the current trends in health care that are brought back to our community. Through strategic planning with the physicians, the board of directors, and hospital leaders, we look at what the needs of the community are and how we can address them. All of these groups work together with Administration to continue to address the health care needs of the community.

SCHEDULE H, PART V, SECTION B, LINE 14	According to our financial assistance policy, patients who are deemed to be eligible for financial assistance will not be charged for care more than Amounts Generally Billed (AGB) by the hospital to individuals who have health insurance covering such care. Discounts granted to eligible patients under this policy will be taken from gross charges. The hospital utilizes the look-back method to establish its AGB and AGB Percentage. The AGB is the hospital's gross charges multiplied by the AGB Percentage. The hospital's AGB Percentage during 2018 was 75%. The AGB Percentage is calculated by dividing the total of all claims allowed by health insurers during the prior 12-month period by the total gross charges for those claims. Claims are considered to be "allowed" based upon when the care was provided, but when the insurer determines the allowable amount of the claim. The amount "allowed" includes the amount the insurer will pay plus the amount for which the individual is personally responsible (including co-pays and deductibles). Allowed claims are included in the AGB Percentage calculation regardless of whether they have been paid or collected. "Health insurers" for purposes of this definition are Medicare fee-for-service and all private health insurers.
