Form 990 (2018)

Form 990, Part III, Line 4a:

Located in Arlington, Texas since 1958, Texas Health Arlington Memorial Hospital (THAM) is a 312-bed acute care hospital. The hospital's services include cardiac care, women's services (including a Level III neonatal intensive care unit), neurosurgery, orthopedics (including hand surgeries), adult and adolescent inpatient and outpatient behavioral health services, ENT, oncology, urology, an advanced imaging center, and emergency services with a Level IV Trauma Center. THAM is certified as Advanced Primary Stroke, Chest Pain, and Heart Failure Centers by The Joint Commission, an accredited Comprehensive Community Cancer Program by the American College of Surgeons' Commission on Cancer, and accredited Breast Center by the National Accreditation Program for Breast Centers, and has a Gold Plus designation from the American Heart Association for its heart and stroke programs. More than 1,600 employees work at this hospital, and more than 670 physicians are practicing on its medical staff, assisted by over 100 advanced practice providers. During 2018, THAM had 65,707 patient days, 13,182 discharges, 1,886 births, 109,169 outpatient encounters, and 67,107 emergency room visits during the year. THAM provides quality medical healthcare services regardless of the patient's race, creed, sex, national origin, handicap, age or ability to pay. THAM provides care to persons covered by governmental programs, including Medicare and Medicaid, for reimbursement that does not always cover the cost of providing the care.

Form and Line Reference	Explanation
Texas Health Arlington Memorial	Part I, Line 3c - Patient Eligibility Patients with family income at or below 200% of applicable Federal Poverty Guidelines (FPG) may be eligible for free care if the patient lacks sufficient funds and assets to pay the out-of-pocket portion of their hospital bill. Patients with a family income above 200% of applicable FPG who have unpaid medical bills exceeding a specified percentage of the patient's annual gross income, as determined on a sliding scale based on FPG, may be deemed medically indigent and eligible for charity care. The patient may be eligible for a charity adjustment up to 100% of the unpaid balance of their hospital bill in excess of a specified patient responsible amount if the patient has insufficient funds/assets to pay his hospital bill without incurring an undue financial hardship. The patient responsible amount is based on a percentage of the patient's annual income in relation to FPG. A determination as to whether or not a patient has insufficient funds and/or assets to pay for purposes of determining both financial and medical indigence is made at the time a patient's financial assistance application is reviewed. Assets considered when determining eligibility include cash, stocks, bonds and other financial assets that can be readily converted to cash. An additional process to screen for charity patients using publicly available financial information is also in place for patients not submitting a financial assistance application. Part I, Line 7 Cost-to-Charge Ratio A cost-to-charge ratio is used to compute the amounts reported on Lines 7a-7c. The cost-to-charge ratio is derived from Worksheet 2 Ratio of Patient Care Cost-to-Charges, as found in the Schedule H Instructions. The amounts reported on Lines 7e-7i were computed using direct costs, as determined by a cash outlay. Part II - Community Building The organization participates in community building activities that aim to address the socio-economic factors that influence the overall health of individuals in the communities served. As identified in the community health needs assessment, there are areas of need that are not in alignment with the operations of a hospital system. Our volunteerism, collaborations and partnerships with various aid organizations and various area coalitions help in addressing the socio-economic factors that are the backbone for many underlying health concerns. Part III, Lines 2, 3 & 4 - Bad Debts Bad debt expense is not included for purposes of reporting community benefits. Each patient qualifying for charity care is treated as a charity patient and no charges related to that patient are included in bad debt expense. The hospital is part of a consolidated system of hospitals which operate under the name Texas Health Resources (THR). THR's annual audit is conducted on a system-wide basis with a single consolidated audit report issued for THR and its affiliates. The audited financial statements of THR, which includes the activity of the organization, contain a footnote regarding Accounts Receivable and Allowance for Doubtful Accounts that reads as follows: Effective January 1, 2018, THR adopted the new revenue recognition standard, Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606), issued by the FASB in 2014, using the modified retrospective method. With the adoption of the new revenue recognition standard, net patient service revenue is reported at the amount that reflects the consideration to which THR expects to be entitled in exchange for providing patient care. Healthcare services promised in the contract with a patient represent a bundle of goods and (or) services that is distinct and accounted for as a single performance obligation. The transaction price for the bundled goods and (or) services provided is estimated by reducing the total standard charges by variable price concessions, including contractual adjustments based on the terms provided by (in the case of Medicare and Medicaid) or negotiated with (in the case of managed care and commercial insurance companies) third-party payors, THR discount policies, and other implicit price concessions based on historical collections experience for uninsured and under-insured patients who do not qualify for financial assistance. A portfolio approach by major payor categories and types of service was used to estimate the historical collections experience. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to net patient service revenue in the period of the change. Portfolio collection estimates are updated at least quarterly based on actual collections experience. THR believes that revenue recognized by utilizing the portfolio approach approximates the revenue that would have been recognized if an individual contract approach was used. Subsequent changes that are determined to be the result of an adverse change in the patients ability to pay are recorded as bad debt expense.

Form and Line Reference	Explanation
Texas Health Arlington Memorial	pense Under THR's financial assistance policy, the Tax-Exempt Hospitals, Texas Health Rock wall, and Texas Health Physicians Group provide care to patients without charge or at amounts less than their established rates if the patient meets certain established criteria. The consolidated joint venture hospitals and healthcare entities have similar financial assistance policies, or have adopted the THR financial assistance policy. As the System does not pursue collection of amounts determined to qualify as financial assistance, those amounts are not reported as net patient service revenue or patient accounts receivable. Revenue related to providing care to patients is recognized as the performance obligation is satisfied over the period of time the patient is receiving treatment, as the patient is simultaneously receiving and consuming the benefits provided by THR. The performance obligation is generally satisfied over an average period of less than five days for inpatient services and one day for outpatient services. Generally, patients and third-party payors are billed within days after the services are performed and (or) the patient is discharged. The transaction price related to unsatisfied or partially unsatisfied performance obligations at the end of the reporting period primarily relate to inpatient acute care services for patients who remain admitted at that time (in-house patients). These contract assets were \$37,668,000 on January 1, 2018 at the adoption of the new revenue recognition standard. As of December 31, 2018, contract assets of \$38,520,000 were recorded in patient accounts receivable on the consolidated balance sheet. Patient accounts receivable is reported at the amount that reflects the consideration to which THR expects to be entitled in exchange for providing patient care. The primary collection risks relate to uninsured patient accounts, including patient accounts for which the primary insurance company has paid the amounts covered by the applicable agreement, but patient responsibility amounts remain outstanding. Implicit price concessions relate primarily to amounts due directly from patients based upon management's assessment of historical write-offs and expected net collections considering business and economic conditions, trends in health care coverage, and other collection indicators. Patient accounts are monitored and, if necessary, past due accounts are placed with collection agencies in accordance with guidelines established by management. Accounts are written off when all reasonable internal and external collection efforts have been performed. Estimated implicit price concessions of \$379,437,000 were recorded as reductions to patient accounts receivable at December 31, 2018 on the consolidated balance sheets. Prior to January 1, 2018 and the adoption of the new revenue recognition standard, net patient service revenue was recognized as services were provided and reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments were accrued on an estimated basis in the period the related services were rendered and adjusted in future periods as final settlements were determined. Patient accounts receivable was reported net of estimated allowances for doubtful accounts and contractual adjustments on the consolidated balance sheets. The allowance and resulting provision for bad debts were based upon a combination of the aging of receivables and management's assessment of historical and expected net collections considering business and economic conditions, trends in health care coverage, and other collection indicators for each of its major payor sources of revenue. Management assessed the adequacy of the allowance for doubtful accounts based upon historical write-off experience and payment trends by payor category. For receivables

Return Reference	Explanation
Monitor Grants	Texas Health Arlington Memorial Hospital (THAM) is a member of the Texas Health Resources (THR) healthcare system. The majority of the grants distributed by the System are to related tax exempt organizations. The hospital does not specifically monitor the use of grants paid to related organizations since THR administration monitors the use of these grants on a system basis for all members of the THR healthcare system. Grants to non-related tax exempt organizations are generally given to entities that in the hospital's community and/or service area or to certain organizations which will specifically impact the hospital's community. These grants are typically monitored by hospital personnel who are working closely with the non-related nonprofit organization.

990, Part VI, Section A, Line 2 - Business Relationship	Texas Health Resources (THR) and its related organizations included in the THR healthcare system encourage employees to become involved in philanthropic endeavors in their communities. As a result, THR healthcare system employees who are serving as officers, board members, or key employees may, from time to time, also serve on the boards of various community organizations such as church boards, United Way, etc. There may be a business relationship as a result of multiple THR employees serving on the same community boards. THR employees serve as the corporate officers of each subsidiary organization. As THR system employees, all officers have a business relationship within the organizations of the THR healthcare system. THR also appoints system officers to the boards of various controlled joint ventures. As THR system employees, various officers of the organization may have a business relationship through serving on THR controlled joint venture boards.

990, Part VI, Section B, Line 11B - Form 990 Filing	The Texas Health Resources (THR) tax department staff prepares the Forms 990 for THR and all of its wholly controlled affiliates. In order to accurately prepare the returns, the tax staff works closely with various other departments to gather and review the information needed to complete the return. The departments involved in this process include, but are not limited to accounting, finance, treasury, human resources, payroll, legal, governance, and corporate compliance. The returns are then reviewed twice within the tax department before being given to the Financial Reporting department to review and to ensure that the financial information is accurate and up to date. All THR System Forms 990 are provided to members of the Audit and Compliance Committee of the THR Board, giving them an opportunity to review, comment and ask questions regarding the Forms 990. The tax department Vice President provides an overview presentation to the committee highlighting various areas of the Form 990. A resolution to approve all of the returns is voted upon at this meeting. Once the Audit and Compliance Committee has approved the returns, each return is then reviewed and signed by the Chief Accounting Officer/Assistant Secretary. The members of the governing Boards are provided a copy of the Form 990 for their respective entity after the Audit and Compliance Committee approval process and before the Form 990 is filed.

990, Part VI, Section B, Lines 12C -Conflict of Interest	Texas Health Resources (THR) has adopted a Conflict of Interest Policy that applies to THR and all of its wholly owned or wholly controlled affiliates. During the first quarter of each fiscal year, a Duality and Conflict of Interest Statement Form is distributed by the THR Chief Compliance Officer to all board members, officers, contracted medical directors, employees with a title of manager or above, employed physicians, and certain committee members and other employees based upon function. All disclosed conflicts are reviewed by the THR Chief Compliance Officer. A report, listing each reported Duality of Interest or Conflict of Interest is given to both the Chair of the Governing body and the President of the Corporation with which the reporting person is affiliated. The THR Board of Trustees receives a report when the Annual Disclosure process is complete. Progressive corrective action is taken for any identified noncompliance which may include removal from a board or committee or physician/employee counseling if the person fails to provide the disclosure. In addition, THR monitors physician payments through a public database implemented by CMS. Management plans are executed as needed based upon disclosures. THR also educates the Boards and workforce annually through either a web based or live compliance training.

Part VII **Supplemental Information**

Provide additional information for responses to questions on Schedule R (see instructions)

Return Reference	Explanation
Schedule R, Part V, Line 2 - Related Transactions	Texas Health Resources (THR) is the parent organization of a large healthcare system made up of both wholly owned entities as well as related, controlled joint ventures as listed on Schedule R. THR's role is to plan, manage and coordinate the activities of the affiliated healthcare system in order to maximize opportunities to deliver cost effective quality medical care to residents of north central Texas. THR provides direction and oversight to its wholly owned affiliates through centralized services. They also provide oversight for the controlled joint ventures. As an integral part of providing centralized services to the affiliates, THR maintains intercompany receivable/payable accounts, most of which do not fall within the scope of IRC Section 512(b)(13). The range of centralized services provided by THR include information services, managed care contracting, Human resources, revenue cycle, billing and collections, patient access/admissions, legal, tax, compliance, supply chain, quality, business development, insurance, treasury, marketing, general accounting, real estate services, coding, transcription and strategic planning. In addition, THR does daily cash sweeps of all controlled tax exempt entity cash accounts. As a result, THR has numerous daily transactions with controlled tax exempt entities, none of which fall within the scope of IRC Section 512(b)(13). A management fee is charged for the centralized services and reported on Form 990, Part VII, Section B as a professional services fee. Transactions with related tax exempt organizations falling within the meaning of centralized services as described above, are not listed on Schedule R, Part V, Line 2.
