Such distribution shall be made no later than March 31 of each year. The annual distribution amount shall be initially set at 0% until the endowment fund reaches a balance of \$5,000,000, at which time the annual distribution amount will be set at 4% of the moving average of the last three years total market value of the endowment fund on each December 31. Such notice shall be given in person, or by written or electronic communication as provided in the By-Laws for the giving of notices. Amounts earned on investment returns for the Quasi-endowment Fund are released from restriction and appropriated as earned Distributions from the Falealupo Endowment may be made from both investment principal and income. Federal and state tax authorities generally have the right to examine and audit the previous three years of tax returns filed (four years for California). Any interest or penalties assessed to the Corporation are recorded in operating expenses. No interest or penalties from federal or state tax authorities were recorded in the accompanying financial statements.

Part III, Row 4B, Statement of Program Service Accomplishments	Patricia Lamelas has worked with the nonprofit CEBSE, the Center for the Conservation and Eco-Development of Saman Bay and Surroundings, for more than 25 years. Her voice has been influential in the movement to conserve the rapidly changing region. She has advocated for protection of the bay, which is home to countless bird species and an important breeding and birthing ground for humpback whales. Awareness of the importance of mangrove forests is now growing worldwide, but Lamelas was ahead of the curve, having worked for the preservation of these vital ecosystems for more than two decades. At CEBSE, she has worked with local communities, where many people relied on cutting mangroves for charcoal, to find sustainable livelihoods. She has helped to secure legal protections for mangroves, established the first mangrove nursery in the province, and led programs to educate many Dominican youth about their local environment and climate change. CEBSE is a valuable partner in one of Seacology's first projects in the Dominican Republic, working to promote ecotourism and protect mangroves in the community of Las Garitas.
