Name: GSMA MOBILE FOR DEVELOPMENT FOUNDATION INC

Form 990 (2018)

Form 990, Part III, Line 4a:

Ecosystem Accelerator Our mission is to build synergies between start-ups and mobile operators, with the aim to scale innovative and sustainable mobile services in emerging markets. Despite an increasing number of mobile products and services in emerging markets, reaching scale is still a challenge for most. The GSMA Ecosystem Accelerator works to bridge the gap between operators and innovators, enabling strong partnerships that support the growth of commercially sustainable mobile products and services. By opening the dialogue between innovators and operators, the programme helps operators contribute their assets and expertise to the most promising ideas. This will in turn support innovators to secure the funding and direction they require in order to bring their products and services to scale. In fostering these partnerships, we can bring the most impactful mobile solutions to the people and places that need them most, generating the greatest socio-economic impact.

Form 990, Part III, Line 4b:

M4D Utilities The Mobile for Development Utilities Programme promotes the use of mobile networks, infrastructure and payment systems to open new pathways for affordable and reliable utility services to reach the underserved. These innovations for service delivery boost industry and economic growth, for example by enabling entrepreneurial phone charging services in remote areas, or reducing water service providers losses from water leakage or uncollected bills.

Form 990, Part III, Line 4c:

Mobile Money Our mission is to support our members and industry stakeholders to increase the utility and sustainability of mobile money services and increase financial inclusion. Two billion people remain unbanked, without access to safe, secure and affordable financial services. The GSMA Mobile Money Programme is working with mobile operators and industry stakeholders to create a robust mobile money ecosystem, which will increase the relevancy and utility of these services, and ensure their sustainability. To truly transform the financial lives of underserved people, mobile money must become a central monetization mechanism, universally available across a greater range of digital transactions. By making mobile money more central to the financial lives of these users, greater financial inclusion, economic empowerment and economic growth can be achieved.
