Part IV Supplemental Information. Provide the information required in Part I, line 2; Part III, column (b); and any other additional information.

Return Reference	Explanation
Part I, Line 2	Individual Grants are given to uninsured and underserved individuals who need assistance with payments for screening and diagnostic testing for breast cancer and services to be performed after a diagnosis of breast cancer. To get approved for a grant through ABCF, the client must go through the prescreening process in which demographics is gathered along with income. Each individual must provide ABCF with their basic information (e.g., name, proof of residency, age, etc.). The application packet then goes out to the client in which ABCF requires the signed and dated application, completed doctor's referral, and a copy of an acceptable proof of residency. This confirms that by the client's knowledge the demographic information given to ABCF is true. Also, the individual must not be covered by their insurance. Most applicants for preventative care are under the age of 50 because their insurance won't cover their preventative care until they have reached a certain age. ABCF has no age requirement. The only requirements are proof of residency within US, doctor's referral, and income - below 300% of poverty level. The first two proofs are maintained in file and income verification is done orally over the phone with the applicant. Once an individual is approved, ABCF grants a voucher to the individual based on the service that is needed. ABCF could grant one or multiple vouchers to each individual depending on how many services the individual will apply. The vouchers are pre-numbered and have an issue date on it. An individual has 60 days to use each voucher or it expires. Historically about 70% of the vouchers are used/redeemed after they are granted. When a voucher expires, the encumbered grant balance is released back into the available fund pool for use by other applicants. If only a portion of the voucher is used for a type of service, then the remaining unused voucher balance is also released into the available fund pool for use by other applicants. To use a voucher, the individual will give their doctor the voucher instead of money at their appointment. The doctor then will place a code on an invoice as to what service was performed and remit it to ABCF. If the service was for what the voucher was granted for, ABCF will pay the approved grant amount. If the service was not for what the voucher was granted for, ABCF will not pay. Each individual is tracked in ABCF's Access database. It records all the basic information given by applicants when they applied, the date they applied, each grant they received, when they received the grant, whether or not they used the grant or let it expire, and if they used the grant, when, where, and how much at each doctor appointment. For FY2015/2016, the policy is to continue to fund the program. Program expenses were under budget due to the increase in national healthcare insurance which caused a decrease in program clients. The investments that were not spent in direct client grants were spent through community partnership grants. This process will continue into FY2016/2017 as all funds will be monitored monthly and any underfunding of direct client grants will be corrected through more funding for community partnerships.
