Form 990, Part III, Line 4b:

Strengthening health systems to support Universal Health Coverage Providing quality health care to someone who needs it, when and where she needs it, requires a complex web of organizations, individuals, processes, and actions that, together, make up a health system Unfortunately, many national health systems don't work well enough for countries to achieve universal health coverage (UHC) effective, equitable, affordable access to high - quality essential health services by everyone who needs them MSH strengthens health systems to sustainably and equitably increase coverage of high - quality, responsive, people - centered health services while protecting patients, families, communities, and societies from financial hardship Applying an integrated systems-thinking approach to a wide variety of contexts -- including countries where governments struggle to deliver basic services while evolving from conflict and fragility to stability - MSH works side-by-side with country stakeholders across the public and private sectors to strengthen institutional governance, financing, leadership, and accountability, so that health systems can effectively transition from donor assistance toward national sustainability and independence

Form 990, Part III, Line 4c:

Improving womens, childrens, and adolescent health Healthy women, children, and adolescents are the foundation of universal health coverage Working at every level of the health system, MSH partners with countries and communities to develop and implement locally - led solutions to reach women-across the continuum from pre - pregnancy through postpartum - and children - from birth through childhood and adolescence - with affordable, high-quality primary care We strengthen skills, knowledge, policies, and practices that bring lasting change in the availability, quality, accountability, affordability, and life-saving impact of reproductive, maternal, newborn, child, and adolescent health services, in even the most vulnerable communities MSH strengthens governance as the backbone of a sustainable, responsive health system, and supports empowered women in taking on leadership and demanding accountability We foster sustainable institutional change - strengthened leadership, better-supported health workers, people - centered care models, and evidence-informed quality improvement - so that health systems can consistently deliver high-quality care that is used and that improves health outcomes We introduce and scale up new interventions and innovations, including in health system organization and financing to support accessible, affordable, sustainable services
