Part X, Line 2	See below for the footnote from the consolidated financial statements. Note there are no uncertain tax positions for the entity filing this Form 990. The Company follows the accounting guidance for uncertainty in income taxes using the provisions of FASB Codification Topic 740, Income Taxes. Using that guidance, tax positions initially need to be recognized in the consolidated financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities. Such tax positions initially and subsequently need to be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts. The Company believes that it has appropriate support for the income tax positions taken and to be taken on tax returns, and that its accruals for tax liabilities are adequate based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Company has not historically had significant amounts of interest or penalties related to income taxes and any such amount would be recorded as income tax expense.
