Supplemental Information

Return Reference	Explanation
Part X, Line 2	The Financial Accounting Standards Board (FASB) provides guidance for how uncertain income tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing tax returns to determine whether the positions are more-likely-than-not of being sustained when challenged or when examined by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. For the year ended June 30, 2019, management has determined that there are no uncertain tax positions. With few exceptions, the organization is no longer subject to tax exemption by the tax authorities for the years prior to 2016.
