EIN: 36-3808993

Name: Fallon Medical Complex Inc

Form 990 (2018)

Form 990, Part III, Line 4a:

FMC is a sole community provider of healthcare services in rural Fallon County, Montana. It is predominantly a primary care provider for its service area, consisting of a number of entities structured under a charitable non-profit corporation. It strives to excel at offering family practice and preventative health outpatient services, routine hospital, lab and fully digital diagnostic services, 24-hour emergency care, intermediate swing bed long-term care, home-based skilled and personal care, and physical and occupational therapy. Fallon Medical Complex (FMC) provides quality health care regardless of race, creed, sex, national origin, handicap, age, or ability to pay. Although reimbursement for services rendered is critical to the operation of FMC, it is recognized that not all individuals possess the ability to purchase these essential services. It is the FMC's mission to serve the surrounding area by providing health care services to all community members. FMC provides medical services to individuals who are determined unable to purchase such services through FMC's Financial Assistance policy and guidelines. In addition to free and/or subsidized care, services are also provided at below cost rates to persons covered by government programs. Recognizing its mission to the community, services are provided to both Medicare and Medicaid patients. The unreimbursed value of providing care to these patients, based on established rates is \$51,000 for the year ended June 30, 2019. FMC's Critical Access Hospital provides 24 hour x 7 days a week Emergency Room services, observation, Acute Care, Swing Bed services and onsite ancillary lab and diagnostic imaging services. During fiscal year ended June 30, 2019, FMC provided over 266 days of hospital services, 5,181 days of swing bed care, 1,091 ER visits, and over 8,600 outpatient visits.

Form 990, Part III, Line 4b:

FMC Community Clinic (Rural Health Clinic) operates under the same mission as FMC by providing family health care to over 8,200 patient visits per year. The four providers (one physician and three mid-levels) also provide ER coverage 24 hours, 7 days a week.

Form 990, Part III, Line 4c:

One of FMC's operating philosophies states that education programs are necessary to enhance the competence of personnel in the healthcare system as well as to assist in the attainment of both personal and organizational goals. To this end, not only does the organization routinely budget \$35,000 or more in continuing education for its employees, it also provides job shadowing to area students (typically 3-5 students per year) who may be interested in a healthcare career, in addition to offering routine Certified Nursing Assistant training programs (to about 5-10 prospective aides per year). FMC also hosts numerous college students seeking careers as doctors (1-2 per year), physician assistants (1-2 per year), and various other disciplines, such as nursing, radiology & laboratory technology and physical therapy. FMC further believes that it is its responsibility to take a leadership role in informing the public about healthcare subjects of relevance or interest through community education. This objective is supported through a number of channels, which includes routine "Lunch and Learn" sessions provided by medical professionals (about 6 times per year), weekly public service announcements on the local radio station, and an annual health fair which is attended by people from all over the service area.

Section A. All Supporting Organizations

	Yes	No
1 Are all of the organization's supported organizations listed by name in the organization's governing documents? <i>If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.</i>	1	
2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? <i>If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 509(a)(1) or (2).</i>	2	
3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? <i>If "Yes," answer (b) and (c) below.</i>	3a	
b Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? <i>If "Yes," describe in Part VI when and how the organization made the determination.</i>	3b	
c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? <i>If "Yes," explain in Part VI what controls the organization put in place to ensure such use.</i>	3c	
4a Was any supported organization not organized in the United States ("foreign supported organization")? <i>If "Yes" and if you checked 12a or 12b in Part I, answer (b) and (c) below.</i>	4a	
b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? <i>If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.</i>	4b	
c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? <i>If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.</i>	4c	
5a Did the organization add, substitute, or remove any supported organizations during the tax year? <i>If "Yes," answer (b) and (c) below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed, (ii) the reasons for each such action, (iii) the authority under the organization's organizing document authorizing such action, and (iv) how the action was accomplished (such as by amendment to the organizing document).</i>	5a	
b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?	5b	
c Substitutions only. Was the substitution the result of an event beyond the organization's control?	5c	
6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? <i>If "Yes," provide detail in Part VI.</i>	6	
7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>	7	
8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described in line 7? <i>If "Yes," complete Part I of Schedule L (Form 990 or 990-EZ).</i>	8

Supplemental Information

Return Reference	Explanation
Part X, Line 2	The Complex is organized as a Montana nonprofit corporation and has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The Complex is also exempt from state income taxes. The Complex is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Complex is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purpose. The Complex has determined it is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS. The Complex believes it has appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the financial statements. The Complex would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

Form and Line Reference	Explanation
Part I, Line 7	Charity care expense was converted to cost based on an overall cost-to-charge ratio addressing all patient segments. Community health improvement services and community benefit operations and cash and in-kind contributions to community groups are based on costs recorded in the general ledger and estimated costs. Medicaid, Subsidized health services, and costs of other means-tested government programs are determined based on costing methods used to prepare the cost report.

Part II, Community Building Activities	FMC participates in a number of community building activities to improve our community. Our Foundation Coordinator has been a member of the local housing board, searching for ways to address our community's chronic housing shortage by facilitating the construction of new housing and the renovation of existing housing. In addition, FMC manages a senior independent living complex for Fallon County. Although the county does reimburse direct expenses for maintenance, one of our employees acts as a "property manager," coordinating tenant turnover, fielding questions or concerns, calling for property services, etc. From an economic development standpoint, our Foundation Director has also been a board member of our local Southeastern Montana Revitalization Team which is dedicated to revitalizing the economic climate in the area. They are focused on building community infrastructure, as well as attracting new businesses and finding ways to provide housing for incoming workers and their families. In addition, in an effort to help keep local commerce alive, our Foundation Coordinator actively participates in Baker Chamber of Commerce meetings and events, including hosting their monthly meeting on a rotating basis. One of the Chamber's primary events, the Fall Festival, is coordinated by FMC staff, who also participate in the Chili Cook-off event every year. To further support the community, a number of FMC employees frequently participate in disaster preparedness meetings and events through the Fallon County Local Emergency Preparedness Committee (LEPC). This group meets regularly to discuss disaster preparedness activities, to review the response of similar groups to disasters across the nation, to determine ways to enhance the effectiveness of disaster response in our area and to conduct table top exercises that simulate potential local disasters. We have also dedicated staff time and resources to acquiring knowledge in the Hospital Emergency Incident Command System (HEICS), a nationally recognized and practice program in incident management. In an effort to assist with leadership development, two staff members routinely provide assistance with youth leadership programs. For instance, one of our Physical Therapists has acted as a 4H leader for a number of years, participating in youth developmental programs that provide hands-on learning activities to youth. In addition, our CEO provides coaching and judging for our local Business Professionals of America (BPA) chapter, which teaches basic and advanced business skills to high school students. Our CEO has also acted as a judge for local Speech and Drama events, which helps high school students gain valuable skills in public speaking and performing. FMC participates in coalition building by contributing to collaborative efforts that address health and safety issues, including LEPC and HEICS mentioned earlier, with other healthcare entities and emergency service providers. To further provide continuity across our service area, our Chief of the Medical Staff is the County Health Officer for Carter, Fallon, and Wibaux Counties, routinely attending their meeting and providing medical control and guidance on relevant issues. One of our larger efforts to assist with community health improvement is to take an active role in offering, serving and significantly subsidizing noon meals to seniors. FMC collaborates with our local Council on Aging to serve 2,893 meals each year to seniors in our facility dining room as well as an additional 3,241 meals through Meals on Wheels. This program promotes health and well-being of our seniors by providing nutritious meals to those who might otherwise not receive them, especially those who are home bound. FMC's workforce development support is largely focused on healthcare careers. We annually work with the local school system to offer "Medical Explorers," which allows students to ask medical professionals questions about their job and learn about the myriad of healthcare careers. Some years we are able to secure a patient simulator to give students a real life experience. Additionally, we allow students of all levels to request an opportunity to job shadow a healthcare professional. In the past, students have observed lab techs, radiology techs, nurses, doctors and mid-levels in their daily activities of providing care for patients. Our CEO and Foundation Director serve on two Montana healthcare-related scholarship committees. Their participation on these committees promotes healthcare-related careers by helping to fund college educations.

Part III, Line 2	Bad debt expense is reported as charges at gross charges recorded by the organization. Bad debts are expensed when accounts are determined uncollectible (charges less any payments or insurer discounts) and any payments toward bad debt are booked as bad debt recovery.

Form and Line Reference	Explanation
Part III, Line 3	The estimated amount of bad debt expense attributable to patients eligible under the organization's charity care policy is 5.78% (based upon US Census Bureau Quickfacts for percent of citizens below the poverty level in Fallon County). Fallon Medical Complex is estimating the amount of bad debt to be charity care based on the percentage of demographics below charity care income/asset levels. This identifies a reasonable percentage of individuals who potentially qualify for charity care but may not have applied and therefore were written off to bad debt.

Part III, Line 9b	Once a patient has been determined by FMC to be eligible for financial assistance, that patient shall not receive any future bills based upon undiscounted gross charges on approved account balances. Requests for financial assistance shall be processed promptly. FMC shall notify the patient in writing within 30 days of receipt of a completed application. Collection activity will be suspended while a financial assistance application is under review. Normal collection efforts will resume if the application is not returned in a timely fashion or after the write-off is complete and the patient owes a balance.

Part VI, Line 2	We have traditionally received input about unmet community health care needs from a number of sources a) citizens, board members, patients, and residents expressing an idea or a concern, b) suggestions from consultants who were hired to provide a study of our operations, c) the county or state health department providing observations or data regarding the health status of our specific population, d) staff members gleaning information from an education program or from reviewing professional journals and periodicals regarding the latest equipment or trends in patient and resident care, e) suggestions from the public posted on our website, etc We have completed a formal Community Health Services Development assessment through Montana State University, the result of which is available on our website, www.fallonmedical.org Subsequent to the CHNA, we developed a 3 year implementation plan to address the most important health needs in our community This plan is also published on our website Information from all of these sources is analyzed on a case by case basis by the department manager who would be responsible for implementing the program The manager determines the program's merit relative to our stated mission as well as what resources would be necessary to implement the program The manager submits the analysis to our internal Operational Review Committee, which looks at its impact facility-wide and its feasibility If it progresses past this committee, it is then evaluated by our management team, who analyzes the finer details Ultimately, it is discussed at the Board of Trustees level to seek their input and approval, if necessary

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part VI, Line 4	Fallon Medical Complex (FMC) is a sole community health care provider for a rural population in excess of 7,200 people spread over seven counties. In addition to serving Fallon County, located in southeastern Montana, FMC also provides health care for three bordering Montana counties (Carter, Wibaux, and part of Custer) and three adjacent North Dakota counties (Slope, Golden Valley, and part of Bowman). Considered "frontier" by the Montana Department of Public Health and Human Services, this region boasts less than two residents per square mile. FMC operates a critical access hospital, a rural health clinic, and a home care and personal services agency. Although Carter County operates a Critical Access Hospital and a Rural Health Clinic in Ekalaka, MT (35 miles to the south), facilities offering the next highest level of care are over 80 miles from Baker, necessitating a drive of nearly two hours in inclement weather. Two primary care physicians and two mid levels (physician assistants and/or family nurse practitioners) practice full time in Baker and see patients two days a week in our satellite clinic in Wibaux, MT. In addition, FMC's physicians supervise physician assistants in Ekalaka, MT and in Wibaux, MT. All in all, the DHHS Bureau of Primary Health Care has designated FMC's service area as a Health Professional Shortage Area (HPSA) due to a) a high population-to-physician ratio (greater than 3,500:1), b) the extreme remoteness of this facility, c) sparseness of our service area, and d) excessive distances to alternative providers. The majority of patients in FMC's service area are Caucasian (96%), older than age 45 (52%) and have graduated from high school (96.2%). The per capita income is about \$31,902 per year (compared to \$27,309 for all of Montana) and the unemployment rate is 1.3% (compared to 3.8%). About 8.5% of the population is below the Federal Poverty Level and roughly 6.5% of the population does not have health insurance. Of those with health insurance, 22% are covered by Medicare, and 6% are covered by Medicaid. Of those people on Medicaid, 21% receive mental health services. In all, according to a Robert Wood Johnson Foundation study, Fallon County is ranked 3 out of 47 for "health factors," based on health behaviors, clinical care, social and economic factors, and physical environment. Like most rural Montana areas, FMC's service area economy is largely based on agriculture. Wheat and barley are major farm crops and cattle and sheep dominate the local livestock production. The other major contributor towards the local economy is oil and gas exploration and extraction. Many residents are employed by large energy exploration and drilling companies or smaller energy-related service companies. The area recently entered the alternative energy arena when wind farms began cropping up across the wind-swept prairie.

Form and Line Reference	Explanation
Part VI, Line 5	All members of the Board of Trustees reside in our primary service area and are neither employees, contractors, nor family members of FMC. They are not compensated for their participation on the board and must be interested in, and willing to work towards, the best interests of health care in our service area. The board strives to find trustee candidates from all corners of FMC's service area, as well as diversity in gender and occupations. The Board is comprised of individuals who work as educators, ranchers, small business owners, retirees, and oil company managers. One of the board's responsibilities is to maintain and oversee FMC's Medical Staff. As such, they are responsible for granting privileges to qualified physicians and mid-levels (providers) based on education and skills confirmed through a structured credentialing process. The board extends medical staff privileges to all qualified providers that have an interest in providing services to our patients and who complete our formal application process. This process includes conducting due diligence through background checks, verification of education and credentials, and personal and professional reference checks. Providers may offer their services directly in our community or remotely via telemedicine systems. Given the isolated rural location of FMC as well as its limited service area population, the facility typically does not generate surplus funds from operations. A delicate balance exists between forecasting an anticipated revenue stream and attempting to match up operational expenses. Given that no revenue is guaranteed, adjustments must be made throughout each fiscal year to ensure the facility's ongoing solvency. Accordingly, FMC has not realized a net profit from operations for over 20 years. Most "surplus" funds are derived from gifts, grants, and fundraising efforts, all of which are generally focused on acquiring capital for the acquisition of patient care equipment. Some of these purchases are meant to upgrade equipment that has reached the end of its useful life cycle, in which case we strive to leverage design or technology improvements to provide greater comfort and effectiveness for the benefit of our patients. And in some cases, we use the funding to start a new service which was identified through our various needs assessments. FMC is predominantly a sole community "primary care" provider for its service area. It is a system, or complex, of health care services created out of necessity due to its remoteness. FMC lacks the resources and service area population to offer specialized medical services and/or conduct formal medical education and medical research. For the most part, we have striven to incrementally improve and enhance our core service offerings in an effort to increase the overall health status of our patients and residents. Accordingly, we strive to excel at primary care, offering family practice and preventative health outpatient services, routine hospital and fully digital diagnostic services, 24-hour emergency care (available to all regardless of ability to pay), long-term care, home-based skilled and personal care, and physical and occupational therapy. FMC is a sole community "primary care" provider, operating a 24-hour emergency room available to all patients regardless of an ability to pay. Its ER includes a telemedicine connection to the Avera eCare Network which offers on-demand board-certified physicians on call 24-hours a day. In an effort to provide comprehensive medical care to the community, various providers from neighboring communities routinely offer services to patients at FMC. For instance, chiropractic, dental, and hearing aid clinics are held regularly in Baker. In addition, FMC's primary medical care is augmented by visiting physicians such as Obstetricians and Pediatricians. In addition, our Telemedicine system is routinely used by participants in a Chemical Dependency (CD) support, education, and life skill class, allowing participants to interact with other participants and counselors in neighboring communities without having to drive for more than an hour each way multiple times each month. It is also used to conduct Healthy Lifestyles classes in conjunction with Holy Rosary Healthcare in Miles City, MT and to connect our patients with specialists located at Billings Clinic. Although we are not a formal teaching facility, we do host multiple students annually who are seeking careers in healthcare-related disciplines. This includes high school students who would like to job shadow, to medical students who are completing a primary care rural rotation. We have a number of cooperative agreements with colleges and universities across the nation that allow students a variety of clinical experiences, from observation of care by a trained professional to providing limited patient services under direct supervision. In the past few years, we have hosted students pursuing careers as nurses, lab techs, radiology.

Fallon Medical Complex, Inc	y in our facility For a number of years, we rented space to an out-of-town optometrist who offered his services once a week When he retired, he was unable to convince the buyer of his practice to come to our town We have been continuously searching for a replacement with no success That type of service cannot be sustained 5-days a week in this community, so a new optometrist will need to provide outreach from a neighboring town b) Offering additional programs in alcohol & substance abuse A large number of CHNA participants identified this as a significant issue While we can heighten people's awareness of alcohol and substance abuse through education, we do not have the population base to support a formal program Even towns five times bigger than ours cannot seem to sustain such a program, so our providers routinely refer patients to programs in larger cities Nevertheless, we offer alcohol and drug counseling over telemedicine with the Eastern MT Mental Health Center in Miles City, MT and Billings Clinic c) Reducing the burden of traveling long distances to receive specialty services Unfortunately, we do not have the population base to support specialty services We have collaborated with neighboring facilities to offer routine 1-day clinics in our facility, but inevitably the providers find it too burdensome to sustain We are, however, offering specialty consultations over telemedicine which has been very successful, greatly reducing the travel burden d) Addressing the shortage of mental health resources and providers It is widely recognized by healthcare providers statewide that there is a significant need to provide better mental health services After studying this is sue in collaboration with our peers in the Montana Health Network, we have identified two sizeable barriers 1) there are no mental health professionals available to service our communities, and 2) there is no insurance reimbursement available to pay for the services This is an ongoing topic that is discussed frequently in larger circles, but too substantial for us to solve on our own Beyond all of that, an updated CHNA was completed at the end of FY2019 and a new implementation was being finalized at that time Even though the new implementation plan, slated to start in FY2020, was not yet completed or adopted, we did work on three items contained in our 2019 CHNA 1) Chronic Care Services - we participated in a Chronic Care Management (CCM) HRSA grant during FY2019 with regional rural partners, 2) Specialty Services - we hired a full time Occupational Therapist (OT) during FY2019 to work diligently on developing that service, 3) Primary Care Services - we explored alternatives for the expansion of our primary care workforce during FY2019
