Return Reference	Explanation
Schedule D, Part X, Line 2 FIN 48 (ASC 740) footnote	HSHS and the Foundation are Illinois not-for-profit organizations as described in Section 501(c) (3) of the Internal Revenue Code (the Code) and are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Kiara, Inc. is an Illinois for-profit corporation that recognizes income taxes under the asset-and-liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The net operating loss carryforwards result in a deferred tax asset of \$70,000 and \$60,575 at June 30, 2019 and 2018, respectively. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers projected future taxable income and tax planning strategies in making this assessment. Based upon the level of historical taxable losses and projections for future taxable losses over the periods for which the deferred tax assets are deductible, management believes it is more likely than not that Kiara, Inc. will not realize the majority of the benefits of these deductible differences. Full valuation allowances have been applied against the deferred tax assets attributable to the net operating loss carryforwards not realized as of June 30, 2019 and 2018 in the accompanying consolidated financial statements due to the uncertainty of realization. HSHS recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. As of June 30, 2019 and 2018, HSHS does not have any liabilities for unrecognized tax benefits.

Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	Self-pay patients are screened for verification of no insurance coverage. Once verification of no coverage has been completed, the guarantors will be screened for charity or uninsured discounts based on income levels. Those guarantors who do not qualify for charity through the screening process will be asked to provide proof of income in the form of a recent pay stub and/or recent tax return to determine the level of uninsured discounting. If no proof of income is provided or a guarantor's income is greater than 201% of the federal poverty level, the appropriate discount according to the established criteria up to 600% of the federal poverty level will be applied. The amount of money not collected from those self-pay patients who are not eligible for charity care is reported as bad debt. Allowances for Doubtful Accounts have been recorded based on an historical matrix, using collectability percentages by payor and aging category in accordance with HSHS Executive Policy #F-23, Valuation of Net Accounts Receivable. Percentages are based on historical experience at the hospital and adjusted for known limitations. The Hospital reports bad debt in accordance with Generally Accepted Accounting Principles (GAAP).

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part III, Line 3 Bad Debt Expense Methodology	HSHS St Mary's Hospital strongly believes that its charity care, and the related community benefit obtained from such care, is understated because of those patients who potentially qualify for charity care but do not wish to apply for it. In addition, some care is not classified as charity because of missing documentation on patient resources. Thus, the hospital's bad debt includes a portion that could be classified as charity care if application for such care was sought and/or completed. While the hospital feels their bad debt expense includes amounts attributable to patients who would qualify for financial assistance under the hospital's financial assistance policy, the hospital is unable to estimate this amount.
Schedule H, Part III, Line 4 Bad debt expense - financial statement footnote	The text of the footnote to the organization's financial statements that describes bad debt expense can be found on pages 19 of the HSHS Consolidated Audit Report. Please also reference Footnote 2Q on page 14 for an explanation of how the financials account for bad debt.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part III, Line 8 Community benefit & methodology for determining medicare costs	HSHS St Mary's Hospital continually strives to provide excellent patient care in the most cost effective fashion. Nonetheless, the Medicare program, in many cases, does not provide payment that covers the full cost of the care provided. Since it is the mission of the hospital to respond to community need, hospital management continually advocates for improved Medicare payment so that the cost of quality care to those patients who are not able to afford it is not compromised and is fairly subsidized by all payers. While this shortfall in Medicare payments is not classified as community benefit by the IRS, we nonetheless believe it is an important contribution made by the hospital to the health and well-being of the community. If the Medicare program did not exist, many Medicare patients would be eligible for charity care or other means-tested government programs. Further, by absorbing this payment shortfall and providing care below cost to these individuals, St Mary's Hospital is relieving the burdens of the government. Accordingly, this shortfall restricts St Mary's ability to make funds available to provide for charity care and other community benefits. The hospital Medicare shortfall at cost for fiscal year 2019 was \$2,417,130.
Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance	Every effort is made prior to, during and after provision of medical services to determine whether a patient is eligible for charity/community care and to assist the patient in completing the application and provide adequate documentation. If the patient qualified for charity/community care for the full balance of their account, the entire amount is written off to charity/community care and hence no debt collection is pursued. If the patient qualified for charity/community care for a portion of their account balance, that portion is written off to charity/community care, with the patient being responsible for the remainder of the balance. Additionally, reasonable effort will be made to obtain third-party or government payer reimbursement on behalf of the patient. If those efforts are not fruitful, an offer will be extended to the patient to make installment payments on their balance. Only at such point that the patient defaults on installment payments or refuses to cooperate with the hospital's efforts to be reimbursed will the account be sent to collections. The hospital will make reasonable efforts to determine whether a patient is eligible under the financial assistance policy before it engages in an ECA. To the extent a patient is determined to be eligible for financial assistance under the FAP, the hospital will take all reasonably available measures to reverse any ECA taken against the patient to obtain payment for the care.

Form and Line Reference	Explanation
Schedule H, Part VI, Line 3 Patient education of eligibility for assistance	The Registration Department provides brochures to patients upon registration regarding the Financial Assistance Program available to them at St Mary's Hospital. The brochures are also supplied in waiting and ancillary areas for easy access by the patient. The brochures include contact information for several community agencies that help patients determine their eligibility for assistance under federal, state or local government programs. The brochures also provide information on how to read and understand St Mary's Hospital's billing information. St Mary's website provides an explanation of Medicare forms at https://www.stmarysdecatur.com/Patient-Guest/Patient-Financial-Services/Financial-Assistance. The organization has a representative onsite to assist patients who may be eligible for Medicaid assistance through the Illinois Department of Public Assistance. They work with patients to determine if they may be eligible, and if so, assist in compiling the necessary application for submission. Patients are also provided a Fair Billing Act notification at the point of registration regarding separate physician billing they can expect to receive, plus information about the patient's financial responsibility if their insurance plan is out of network. One-on-one conversations to educate patients about financial assistance often stem from patients receiving a statement or a pre-collection letter. At that point, the customer service representative or cashier, or other qualified staff, will inform/educate the caller about financial assistance options. The first pre-collection letter reminds the patient their account is in delinquent status. It also informs them they may be eligible for financial assistance through the organization's charity care program. The letter provides direct contact information to begin the application process for charity care and lists the Internet address where the policy can be obtained. A system called Search America is now being utilized after failed attempts made by the hospital and our law firm to work out payment arrangements. That system accesses credit and other information and allows us to see the probability of a patient being able to pay their bill. After assessing that information, the hospital makes a determination whether to grant charity care or continue collection efforts.
Schedule H, Part VI, Line 4 Community information	HSHS St Mary's Hospital is a not-for-profit hospital located in Macon County, Illinois. This is its primary service area (PSA). Parts of the adjacent four counties (DeWitt, Moultrie, Christian and Shelby) constitute its secondary service area (SSA). The total primary and secondary service area of the hospital has a population of 229,581 people, 108,404 people from Macon County and 86,595 people from the surrounding counties. Aside from the city of Decatur, the economy of St Mary's secondary service area is primarily rural and is supported by small businesses, industries, mining and agriculture. Decatur, on the other hand, is an urban area supported by large businesses, such as Archer Daniels Midland and Caterpillar. Based on 2014 population estimates derived from the 2010 census, Macon County's population of 108,404 people is comprised of 78.1% Caucasians, 17.5% African-Americans, 0.3% American Indians/Alaska Natives, 1.2% Asians, 0.03% Native Hawaiians/Other Pacific Islanders and 2.9% people stating two or more races. Eighty-nine percent of Macon County's residents have a high school diploma, 22.8% have a Bachelor's Degree. The current unemployment rate of Macon County is 5.6%, according to the US Bureau of Labor Statistics, and the median household income is \$47,477. St Mary's secondary service area is comprised of 86,595 people, of whom 83.08% are Caucasian, 12.82% are African-American, 0.21% are American Indian/Alaska Native, 0.95% are Asian, 0.03% are Native Hawaiian/Other Pacific Islander, 0.69% state another race, and 2.22% state two or more races. Educational levels of this population reflect that 35.7% graduated high school, 12.85% graduated with a Bachelor's Degree. The average unemployment rate of the combined counties is 6.6% and the median household income is \$47,313. Within the report area 17.3% or 18,753 individuals are living in households with income below the Federal Poverty Level (FPL). This is higher than the statewide poverty levels 13%. This indicator is relevant because poverty creates barriers to access including health services, nutritional food and other necessities that contribute to poor health status. HSHS St Mary's Hospital's service area is comprised of approximately 580.69 square miles with a population of approximately 142,986 and a population density of 190.80 per square mile. The service area consists of 3-cities, 16-townships, 9-villages and 2-unincorporated communities. The hospital does not exclude Medically Underserved Areas (MUAs), low income or minority populations from its service area.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part VI, Line 5 Promotion of community health	As a healing ministry of the Catholic Church and an affiliate of Hospital Sisters Health System (HSHS), St Mary's Hospital is committed to delivering high quality, compassionate, and cost-effective health care services to all. Founded in 1878 the hospital brings a healing presence and improves the health of our community, especially those persons who are sick, poor, and disadvantaged. Because of the hospital's mission and heritage, the hospital is dedicated to promoting the health of Decatur and surrounding areas. The hospital is governed by a Board of Directors, most of whom reside in the hospital's primary service area and are neither employees nor independent contractors of the hospital (nor family members thereof). The Board ensures that St. Mary's Hospital is responding to community need. In FY2019, for example, the board was updated throughout the fiscal year in regards to the community benefit programming and program implementation. Consistent with its exempt purpose, St. Mary's has an open medical staff with privileges available to all qualified physicians in the area. The hospital also operates an emergency department that is open 24 hours to all persons regardless of their ability to pay. As a not-for-profit hospital, St. Mary's reinvests surplus funds to support the mission of the organization and promote the health of the community rather than distributing surplus funds as profits to shareholders or individuals. Funds not committed to ongoing operations are generally used to upgrade facilities, secure new technologies, improve patient care, and support initiatives designed to promote health and ensure access for all. St. Mary's hospital, in accordance with its mission, distinguishes itself by its care for those with mental disabilities and chemical dependencies. During FY2019, and continuing in FY2020, St. Mary's is investing more than \$4 million to renovate the hospital's Behavioral Health unit. This unit is composed of three levels of care: geriatric psychiatry, adolescent wing, and an adult unit. The rooms will be completely remodeled to provide the very latest safe guards. In FY2019, more than \$50,000 was invested to create two "Safe Rooms" in the Emergency Department. Anti-ligature fixtures, doors, and lighting were installed. When behavioral health patients are admitted to emergency department, because there are no available beds, they are treated with the utmost care and respect. All security officers are trained in appropriate patient management and crises intervention. St. Mary's also devotes significant resources to access for patients who cannot afford care, along with other Community Benefits. In FY2019, St. Mary's provided more than \$9.8 million in Community Benefit, including financial assistance at cost, unpaid costs of Medicaid and other public programs, and a range of diverse programs designed to enhance access and improve community health. Additionally, in FY2019, St. Mary's provided \$2.5 million (at cost) in uncompensated care to patients who did not qualify for charity care or public assistance and more than \$4.6 million (at cost) in excess of Medicare payment for health care services. St. Mary's provides a range of Community Benefit initiatives and programs that further our mission and long-standing commitment to our community. In many cases, these Community Benefits would not exist without the leadership role played by St. Mary's and they often relieve a burden that would otherwise be carried by government.
Schedule H, Part VI, Line 6 Affiliated health care system	Headquartered in Springfield, Illinois, Hospital Sisters Health System (HSHS) is a highly integrated, multi-institutional health care system comprised of 15 hospitals and more than 200 physician practice sites in Illinois and Wisconsin. HSHS is sponsored by Hospital Sisters Ministries (HSM), which is a public juridic person of the Roman Catholic Church. HSHS continues the health care ministries begun by its founders, the Hospital Sisters of St. Francis, more than 140 years ago, in rural and mid-sized communities throughout Illinois and Wisconsin. HSHS provides compassionate, holistic, high quality, and cost-effective health care through its acute care hospitals, physician practices, home health programs, palliative and hospice programs, and community outreach services. In addition, HSHS affiliated hospitals include critical access facilities that offer essential health services that otherwise would not be available in many communities. Our mission calls us to reveal and embody Christ's healing love for all people, and we extend our high quality Franciscan health care ministry beyond the walls of our hospitals by providing community health improvement services with special emphasis on the poor and vulnerable. In addition to providing community health improvement services to the broader community, HSHS cares for everyone who comes to its facilities, regardless of their ability to pay. In tandem with a variety of cross sector community partners, HSHS's Community Benefit initiatives are strategically planned and professionally implemented to improve access to health care services, enhance the health of the community, advance medical or general health care knowledge, and relieve or reduce the burden of government to improve health. In FY2019, HSHS collectively provided \$211.7 million in Community Benefit (9.2% of total hospital expenses). This amount included \$27.7 million provided for Financial Assistance (aka Charity Care) and \$142.3 million for unreimbursed care provided as part of the Medicaid program. In addition, HSHS hospitals committed significant resources to treat Medicare patients. The cost of providing services to primarily elderly beneficiaries of the Medicare program - in excess of governmental and managed care contract payments - was \$279.9 million. HSHS hospitals also recorded \$41.1 million in uncollectible accounts. While HSHS does not count the latter two amounts as Community Benefit, they nonetheless reflect our commitment to serving all persons in need of care. In addition to the dollars invested in our Community Benefit programs, HSHS continues to reinvest any surplus revenue from operations and investments into new medical technology, facility infrastructure and health care services in our communities. By doing so, we ensure our ability to meet the ongoing demand for high quality, efficient and easily accessible health care.

Strategy 2 The hospital will collaborate with existing partners to provide Trauma Informed Care educational sessions for key stakeholders across sectors. FY2019 Outcomes Two regional trainings were hosted in Decatur and Springfield. Additionally, in FY2019, SMD began discussions with Big Brothers Big Sisters to train their 'Bigs', school-based mentors, and staff in Trauma Informed Care. The first training was provided which reached 10% of their volunteers and staff. Additional trainings are being planned in calendar year 2020. 100% of training attendees reported an increased awareness of Adverse Childhood Experiences (ACEs). Process and protocol for identification and soft hand-offs of qualifying patients are being explored. The goal is to launch the process in tandem with the opening of the recovery facility in calendar year 2020. As an outcome of the prioritization process, the following community health needs were identified but will not be addressed directly by the hospital for the reasons indicated. * Chronic Conditions - St. Mary's and Catholic Charities partnered to create a hospital transition program. The program uses a community health worker (CHW) to identify patients who frequent the emergency department due to unmanaged chronic conditions. The CHW then acts as a resource to help the patient better understand and manage their chronic condition. * Employment - The local food pantry, Good Samaritan Inn, has a job skills training program for the unemployed and underemployed in impoverished areas of Decatur. * Food Access/Insecurity - St. Mary's Hospital continues to develop Mary's Garden, a community
