990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part I, Line 3c FACTORS OTHER THAN FPG	Patients with demonstrated financial needs with income greater than 400% of the FPL may be eligible for consideration under a "Means Test" for some discount of their charges for services from the Organization based on a substantive assessment of their ability to pay. Maximum owed by any patient per episode of care or account is 10% of gross household income.
Schedule H, Part V, Section B Hospital Websites	During the course of the tax year and/or prior to the filing of the return for the taxable year, the filing organization, which is part of a larger health system, transitioned from a separately hosted website (or websites), to being a part of the health system's centrally hosted hospital website. This transition was intended to facilitate public access to information, including enabling the health system to better manage and monitor compliance requirements that IRC Section 501(r) information be made widely available to the public. During and as a result of the migration of hospital facility information to the new central website, it is possible that there may have been brief instances of web access interruption. If so, the filing organization believes that any such interruptions would have been minor and inadvertent, and due to reasonable cause, and that any such instances would have been immediately addressed when identified. The filing organization and health system have established procedures in place as part of its centralized monitoring and management processes that are reasonably designed to address, monitor and promote compliance with the requirements of IRC Section 501(r). In an effort to be fully transparent, the filing organization has chosen to pro-actively disclose on this Form 990 this possibility of very minor and inadvertent web access interruptions that could have occurred in the normal course of migrating locally maintained hospital facility information to an improved centrally managed website. In so disclosing, the organization is not reporting that interruptions in the nature of a Section 501(r) violation in fact occurred. Rather, the organization is pro-actively disclosing that the migration process was undertaken and that, in completing that process, it is possible that brief interruptions in web access may have occurred as the hospital facility data was relocated to the central website.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part I, Line 7 Costing Methodology used to calculate financial assistance	The cost of providing charity care, means tested government programs, and community benefit programs is estimated using internal cost data, and is calculated in compliance with Catholic Health Association ("CHA") guidelines. The organization uses a cost accounting system that addresses all patient segments (for example, inpatient, outpatient, emergency room, private insurance, Medicaid, Medicare, uninsured, or self pay). The best available data was used to calculate the amounts reported in the table. For the information in the table, a cost-to-charge ratio was calculated and applied.
Schedule H, Part II Community Building Activities	Research shows that social determinants and quality of life play a major role in the health status of individuals and communities. Community building activities, which focus on the root causes of health problems, ultimately influence and improve health status. Examples of community building activities include physical improvement and housing, economic development, community support, environmental improvements, leadership development and leadership training for community members, coalition building, advocacy for community health improvements and safety, and workforce development.

Accounts receivable are written off after collection efforts have been followed in accordance with the Corporation's policies. After applying the cost-to-charge ratio, the share of the bad debt expense in fiscal year 2019 was \$5,699,862 at charges, (\$1,424,966 at cost).

Schedule H, Part V, Section B, Line 11 Facility , 2	Facility , 2 - ST.VINCENT ANDERSON REGIONAL HOSPITAL, INC.. Results from Implementation Strategy FY17 - FY19 for the CHNA Tax Year 2015 (2016) The St. Vincent Anderson Hospital FY 2017- 2019 Implementation Strategy specifically addressed the significant needs identified in the Tax Year 2015 (2016) CHNA with the following three system wide health improvement priorities. The first prioritized need was Access to Health Services. The goal was to increase the number of persons with medical insurance. The health advocate assessed for eligibility and educated individuals about coverage options, submitted the application to FSSA, worked through any issues or delays, verified eligibility to complete an enrollment pathway. For FY19, the goal was 331 people. The health advocate enrolled 368 people for a 111% goal completion. The hospital's health advocate increased the number of completed pathways (i.e., FSSA verification) from baseline reported in FY17 by 5% (n=300) each year for FY17 - FY19. The achievement of the goal contributed to the percentage of people who have health insurance in Madison County. The health advocate helped a total 977 people obtain medical insurance, which was 103% goal completion. The second prioritized need was Nutrition and Weight Status - Weekend Feeding Program. The goal was to reduce food insecurity and in doing so reduce hunger. The lead submitted the Weekend Feeding Program (WFP) Preparation Checklist, met with all stakeholders to determine program logistics, developed a weekend feeding program protocol, made final preparations for the program's "go live" date, distributed and collected surveys, entered survey data into software in FY18 & FY19. Highlights consisted of collaborations are essential to addressing food insecurity; therefore, the partnership between the school and hospital is valuable, because food security status is rarely assessed, the hospital is grateful for the school's approval to distribute surveys to students' parents/guardians enrolled in the weekend feeding program and by playing a role in this initiative, both the school and hospital demonstrate respect and compassion for those in our community. The third prioritized need was Tobacco Use. The goal was to increase tobacco screening in health care settings. The lead submitted a Health Care Provider Training Checklist, planned at least two possible dates for Rx for Change trainings to the community, attended a Train-the-Trainer session, developed a strategy to promote trainings to the community, promoted and held 2 Rx for Change trainings at no charge to the community in FY18 and FY19. Baseline and follow-up surveys were conducted. As a result of the training, participants answered that they were more likely to ask, advise and refer patients about their tobacco use. A total of \$12,102 which included 164 hours was reported as community benefit for FY17 - FY19.
