Supplemental Information

Return Reference	Explanation
Pt X, Line 2	The Financial Accounting Standards Board (FASB) provides guidance for how uncertain income tax positions should be recognized, measured, disclosed and presented in the consolidated financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing tax returns to determine whether the positions are more likely-than-not of being sustained when challenged or when examined by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not thresholds would be recorded as a tax benefit or expense and liability in the current year. For the years ended June 30, 2019 and 2018, management has determined that there are no uncertain tax positions.
