990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 3:	McPherson Hospital, Inc. is unable to determine the amount of bad debt expense attributable to patients eligible under its charity care policy for the year covered by this return. Suggested methods for estimation were either not in place or proved to be unreliable. For example, the number of financial assistance applications distributed but not returned was not tracked. Using demographic data to estimate an amount did not provide reasonable results. Rather than provide an estimate that cannot be substantiated, McPherson Hospital Inc. has chosen to report zero dollars as bad debt expense attributable to charity care patients.
Part III, Line 2:	The Hospital's bad debt at cost was determined by applying an overall ratio of cost to charges.

Part V, Section B, Line 5: The assessment was achieved through the co-leadership of the director of the McPherson County Health Department along with input from other county hospitals, Lindsborg Community Hospital and Mercy Hospital in Moundridge. The McPherson County CHNA process included gathering opinions from the public and area sources through the use of a survey and quantitative data from secondary sources. A survey instrument comprised of 36 questions was developed by the leadership of the participating hospitals and the public health department. The electronic survey was made available throughout the county through various means including media, social media, hospital websites, and was publicized through said sources as well as newspaper and radio. A focus group was formed to provide input regarding the results of the survey. Included in the focus group were individuals representing health care, law enforcement, family advocacy, indigent populations, mental health, public health, civic leadership, education, religion, and senior services, fitness, and Chamber of Commerce, among others. McPherson Hospital, Inc.	Part V, Section B, Line 11: The annual update below pertains to the CHNA and implementation strategy completed for the 2015 tax year (fiscal year ended 06/30/2016), which is the third annual update for the three-year cycle. Activities with the Kansas State University Extension Office: The hospital had hoped to partner with the local Kansas State University Extension Office in a couple of initiatives in 2019. However, the lead sponsor organization, the Kansas State University Extension office, did not include McPherson Hospital in their plans to help promote and administer the Walk Kansas. Further, the extension office did not hold the planned Dining with Diabetes events due to low participation. The hospital continues to reach out and offer financial and personnel resources as available to assist with these types of events with this local organization. Lunch and Learn Events: The hospital sponsored two education events free to the public in 2019 to address topics ranging from general health and wellness to specific disease prevention. The events, named "DocTalks," provide lectures and dialogue between health providers and the general public. The lecture topics this year included weight loss and dietary tips for building immunity to disease as well as women's health issues including the importance of regular screenings for cancer and other diseases. Total resource allocation for these two events totaled approximately \$800 and reached over 100 participants. Those in attendance received information to help them make good decisions regarding maintaining a healthy diet, the importance of foods in building immunity and women's disease prevention. Speaker's Bureau: The hospital staff presents lectures in the community on a variety of health topics, but due to the audiences who invited the lectures, the topics identified in the CHNA were not necessarily related specifically to the needs assessment. The DocTalks mentioned previously are able to be targeted to the needs assessment results. The hospital will continue to make staff available as feasible for public information sharing as needed and appropriate. Radio show: The hospital contracts with the local radio station to air a monthly talk show hosted by the chief operating officer who is also director of the pharmacy and the former hospital general surgeon. The format is not a call-in show, but rather, the content is determined by the hosts who discuss subjects such as nutrition and weight control, heart health, diabetes, and general health concerns. Guests are sometimes utilized to bring special emphasis and expertise to the topic. The information-only half-hour show receives positive feedback from listenership. The actual number of listeners is unknown since the radio station does not track such statistics. The hospital spends nearly \$2,000 annually to air this educational program which impacts the community by offering provider-based perspectives on important health topics. Theraband Classes: These free

Resources allocated are staff time and ma terials totaling approximately \$1,396 annually. These classes provide attendees an opportu nity to stretch, receive professional consultation on fitness and wellness, and maintain g eneral fitness to extend their lives.Promote healthy meals: Due to limited financial and p ersonnel resources in the fiscal year, this initiative will be reconsidered for the future . Disease Awareness: For years, the hospital has communicated national health awareness da tes through the hospital-produced newsletter which is available to patients, families, gue sts and staff. The hospital is also a platinum sponsor (\$1,000 annually) for the local Rel ay for Life event each year for the American Cancer Society, and a financial supporter (\$2 50 annually) of a local independent group whose focus is on providing assistance to women and children who are fighting cancer and creating cancer awareness and education. The hosp ital also participates in events associated with these groups to distribute information an d address questions. These initiatives provide resources and leadership to raise awareness and encourage healthy lifestyles.Expert speaker on relevant topic: Because of continuing fiscal year financial and operational challenges, this initiative will be considered in th e future. Local college student initiative: Due to prior-mentioned limited resources, the hospital was not able to develop this strategy. Further, the colleges have their own strat egies for integrating students into the community which may or may not include education o f health offerings or education. The hospital is discussing a partnership to be launched i n 2020 with one of the local colleges to assist with a new degree program in which student s will be observing hospital staff in a variety of occupations. This will increase their a wareness of the importance of rural health care and the positive impacts of health profess ions.We have seen success in the percent of those with cancer in the Medicare population i n McPherson County. The Centers of Medicare and Medicaid services reports that as of May 2 019, the percent of adults in the Medicare population with cancer has remained stable and istrending downward. Comparatively, many specific types of cancer are trending downward in the county including colorectal, female breast, lung and male prostate.Though mental heal th issues were not specifically addressed as a strategy in 2016, it was an area that was i dentified through the survey as being one of the most important health problems in the com munity. As such, the hospital has since begun initiatives to increase awareness of this is sue and has engaged in a task force along with mental health providers, law enforcement an d other key partners in the community to develop strategies for cooperative care of patien ts and addressing their unique

They are targeting even ts in the public to build education and awareness and generate discussion as a community.T he latest data on obesity shows the percent of adults who are obese in McPherson County is trending downward since 2015, according to the Kansas Department of Health and Environmen t (KDHE). The latest data from 2017 shows this percentage down to 24.5 from 32.3 in 2015. This is likely due to increased awareness of factors impacting weight gain and overall hea lth. As a result, McPherson County has met the HP 2020 goal in this area. HP 2020 is a com prehensive set of key disease prevention and health promotion objectives. Further, the age -adjusted death rate due to heart attack has been trending downward consistently since 201 2. This can be partly attributed to healthier lifestyles but also to more advanced treatme nts and processes at the local hospital level. The incidences of heart failure have also s teadily declined since 2012 while the levels of hypertension have remained stable.Drug abu se is another area that was identified through the Community Health Needs Assessment as a concern. McPherson County has seen positive results in bringing awareness to these challen ges evidenced by meeting Health People 2020 progress goals in the percent of adults who ar e binge drinkers and in percent of adults who smoke cigarettes, according to the KDHE.
