Form and Line Reference	Explanation
SCHEDULE H, PART V, SECTION B, LINE 11	Community Health Improvement Plan Disclosure Statement Kingman Healthcare Inc (KHI), in partnership with the Mohave County Department of Public Health (MCDPH) leads a broad community initiative to improve health and quality-of-life in Mohave County communities. The initiative engages community stakeholders and the public to make measurable improvements in community health. It involves the following process, which is conducted on a three-year cycle: 1. Researchers collect facts and statistics regarding health and quality-of-life in Mohave County. This process includes speaking to Mohave County residents to obtain their insights. The information is then published in a report called a Community Health Needs Assessment (CHNA). 2. Based on the information in the CHNA, KHI and MCDPH work with community members and stakeholders to identify priority health issues. Those groups develop a plan to address the chosen priorities in three Mohave County regions: Kingman, Bullhead City, and Lake Havasu City. We document the results of these planning efforts in a Community Health Improvement Plan (CHIP) for each region. 3. Guided by the priorities and strategies outlined in each community's respective CHIP, community participants collaborate to implement each region's health improvement plan. KHI plans to address significant needs identified in the 2019 CHNA as follows: - Mental Health - KHI continues to implement strategies to integrate behavioral health services in all KHI primary care clinics and certain specialty clinics (pain clinic, cancer center, etc.). The program educates staff and implements processes for identifying and treating patients who are struggling with depression or who are otherwise at high risk for self-harm. - Substance abuse- KHI continues to implement strategies to address the opioid crisis and other substance abuse issues. These strategies include implementing an evidence-based program in the KHI Emergency Department, acute care areas, and outpatient clinics for identifying patients who have addiction risks or current addiction issues. We are now screening most patients for these risk factors. Once identified, behavioral health specialists work with them to ensure they have resources, education, support and treatment when appropriate. Additionally, KHI's team of substance counselors, psychology nurses, and psychiatrists provide MAT (Medication Assisted Treatment) for Opioid addiction. - Healthcare needs- KHI continues to implement strategies to meet identified health and wellness needs of our community. Our overall aim is to provide a full range of high-quality medical services in our rural healthcare system that meet or exceed those found in larger urban areas. Our success is measured by the number of residents who can avoid travel to other areas and receive the medical services they need close to home. To this aim, KHI is implementing strategies to continue recruiting medical talent and implementing state-of-the-art technologies for

SCHEDULE H, PART V, SECTION B, LINE 11	r delivering high-quality care For example we plan to continue building our medical imaging, diagnostic, and surgical capabilities for addressing common chronic disease conditions Additionally, to meet identified community needs, KHI continues to focus on providing advanced capabilities in cardiac care, wound care, cancer care, along with rehabilitation and pain management therapies - Provider shortages-Attracting adequate numbers of healthcare providers is one of KHI's biggest challenges? both now and for the foreseeable future Like the rest of the country, we need more providers to meet healthcare needs in our community But, the nationwide shortage of doctors and other healthcare providers continues to intensify One key KHI strategy for alleviating the problem is to continue building and strengthening KHI's medical residency program The current priority is choosing strong candidates who would consider staying in Kingman after completing their training In addition to its physician training programs, KHI strategies include employing more nurse practitioner s and physician assistants to provide general medical care Additionally, KHI is working to implement telemedicine technology for evaluating, diagnosing, and treating certain health conditions - Health Care Costs- KHI continues to implement strategies to assist residents in reducing their healthcare costs Chief among our strategies is to educate the community on how to reduce their risk of chronic disease through healthy lifestyle choices (proper diet, exercise, not smoking, etc) We continue to promote healthy lifestyle messaging in our publications, advertising, health fairs, health lectures, and other public communications Additionally, specific information is provided to patients during visits with their primary care provider Other KHI strategies for reducing healthcare costs involve strict fiscal management along with cost transparency to the public for making informed healthcare cost decisions KHI future strategies do not specifically address the following issues identified in the 2019 CHNA because they are outside the scope of our current operations - Food insecurity - Excessive housing cost - High residential segregation - Cost of transportation for low-income residents However, KRMC provides many programs and services that directly or indirectly help to improve outcomes in these health areas Additionally, through our community benefit program, we financially support community organizations that directly support and address the community needs identified by the Community Health Needs Assessment
