While the median household income is approximately \$75,000, over 16% of persons are living below poverty level; children under age 18 are disproportionately affected. In addition, 38% of persons speak a language other than English at home. Rady Children's Hospital San Diego (the Hospital) is a regional tertiary and quaternary referral center and provides comprehensive inpatient and outpatient acute, psychiatric and intensive care pediatric services. The Hospital also is the sole pediatric provider and designated pediatric trauma center for San Diego County and is the primary source of pediatric and neonatal intensive care services for both San Diego and Imperial Counties. Also, RCHSD is the pediatric safety net hospital for the region with a medi-cal payor mix hovering over 50%. RCHSD serves as the teaching hospital for the School of Medicine at the University of California, San Diego (UCSD) and, in 2001, RCHSD and UCSD amalgamated where RCHSD became the pediatric provider of inpatient and outpatient medical and surgery services and certain other clinical services for UCSD pediatric patients. There are three large health systems operating in San Diego, Sharp Healthcare, Scripps Health and Kaiser Permanente, as well as other hospital providers. SCHEDULE H, PART V, SECTION B, LINE 5	The CHNA is implemented and managed by a standing CHNA Committee comprised of representatives from seven hospitals and health systems. The 2019 CHNA built on the results of the 2016 CHNA and included three types of community engagement efforts: focus groups with residents, community-based organizations, service providers, and health care leaders; key informant interviews with health care experts; and an online survey for residents and stakeholders. In addition, the CHNA included extensive quantitative analysis of national and state-wide data sets, San Diego County emergency department and inpatient hospital discharge data, community clinic usage data, county mortality and morbidity data, and data related to social determinants of health. Two primary methods were employed in the 2019 CHNA. First, quantitative analyses were conducted of existing publicly available data to provide an overarching view of critical health issues across San Diego County. Second, extensive feedback was gathered from community residents, community-based organizations, Federally Qualified Health Centers (FQHCs), hospitals and health systems, local government agencies, philanthropic organizations and San Diego County Public Health Services through a comprehensive community engagement process to understand the experiences and needs of people in the community. Once these analyses were complete, the CHNA Committee reviewed these data, along with other criteria, to prioritize the top health needs in San Diego County. The CHNA Committee worked with community partners to plan community engagement activities with stakeholders representing every region of San Diego County and all age groups. In addition, the CHNA Committee explicitly sought to engage a wide variety of stakeholders representing diverse numerous racial and ethnic groups. Health leaders and a diverse set of advocacy groups and organizations were also recruited for the process. A total of 579 individuals participated in the 2019 Community Health Needs Assessment: 138 community residents and 441 leaders and experts. Key informant interviews and focus groups were utilized to identify and explore priority health needs, social determinants of health, barriers to care, and community assets and resources. The CHNA online survey was used to rank health conditions and social determinants of health in order of importance within the community. The survey was distributed via email to targeted community-based organizations, social service providers, resident led organizations, federally qualified health centers, governmental agencies, and hospitals and health systems who serve a diverse array of people in San Diego County. SCHEDULE H, PART V, SECTION B, LINE 6A Rady Children's Hospital - San Diego conducted its chna with the following hospitals (see chna, page 9): - Kaiser Foundation Hospital - Palomar Health - Scripps Health - Sharp Healthcare - Tri-City Medical Center - University of California San Diego Health System

Schedule H, Part V, Line 11	Community Health Needs Addressed: According to CHNA committee findings, the following health conditions and social determinants of health are considered top priorities for San Diego County for all age groups (list is in alphabetical order): 1) Access to Health Care; 2) Aging Concerns; 3) Behavioral Health; 4) Cancer; 5) Chronic Health Conditions (Obesity, Diabetes); 6) Community and Social Support; 7) Economic Security; 8) Education; 9) Housing and Homelessness; 10) Safety and Violence. Recognizing that children have unique healthcare needs, Rady Childrens supplemented the findings of the CHNA with the 2017 San Diego County Report Card on Children & Families. Management and Clinical Leadership also considered other pediatric assessments. Top health priorities identified for children include: 1) Behavioral and Mental Health - Depression and Suicide Screening Initiative - RCHSD instituted the Depression and Suicide Screening Initiative to provide Patient Health Questionnaire (PHQ-2) screenings, including PHQ-9, a brief, 9-item self-report screening tool. The questionnaire is being used to identify youth with depression and suicide ideation regardless of whether they are seen in an ambulatory clinic, the emergency department, or admitted as an inpatient. The identification of at-risk youth (based on a high PHQ-9 score or answering yes to the question of whether the child/teen was considering suicide) allow actions to be taken to ensure that the youth are kept safe, receive immediate care, and are connected to follow-up care as needed. - Suicide Prevention: Rady Childrens Center for Healthier Communities (CHC) is working collaboratively with the 9th District PTA and Quality Department to host annual symposiums to educate parents in suicide prevention. In addition, CHC staff attends Suicide Prevention Coalition meetings monthly. - Mental and Behavioral Health Psychiatric Emergency Department - Rady Childrens will establish a fully-functioning, 6-bed Psychiatric Emergency Department in Spring 2020, dedicated to responding to mental and behavioral health emergencies of children and adolescents. Rady Childrens also will provide patients and their families referrals to appropriate care and care coordination services through a behavioral health care connection center launched as part of the Psychiatric Emergency Department 2) Chronic Health Conditions (Obesity) - The San Diego County Childhood Obesity Initiative (COI) is a public-private partnership with the mission of reducing and preventing childhood obesity through policy, systems and environmental change. To fulfill its mission, the COI creates, supports and mobilizes partners from multiple domains (i.e., sectors: government, healthcare, schools & after school, early childhood, community, media and business), provides leadership and vision, and coordinates county-wide efforts in the prevention and reduction of childhood obesity. The Director of the Center for Healthier Communities chairs the Healthcare

The Center for Healthier Communities has participated in, and provided leadership for, the COI Health Domain since its inception in 2006. 3) Other (Injury Prevention, Autism). The Developmental Services department at Rady Childrens provides a continuum of integrated services across various disciplines and community partners to support early brain development, social/emotional development, and the needs of the whole child through every aspect of care delivery. Emphasizing early identification, diagnosis and intervention, a variety of programs are provided, including programs focused on Autism and ADHD. Many of our programs deal with social determinants of health including: 1) Access to Health Care 2) Education 3) Safety and Violence 4) Community and Social Support Mid-City Behavioral Health Urgent Care (BHUC) Social Determinants Needs Addressed: Access to Care, Behavior and Mental Health, Education, Safety and Violence Prevention, Community and Social Support The Mid-City Behavioral Health Urgent Care Clinic addresses the need for immediate access to mental health services for families concerned about their child or adolescents urgent mental health or behavioral symptoms. The Mid-City facility addresses this communitys unmet mental health needs by making services directly available to children and families in their own neighborhood. The comprehensive behavioral health program includes a range of high-quality behavioral health services, including assessment, crisis intervention, medication evaluation, case management and referral to on-going treatment, if needed. The services are available on a "walk-in", no appointment required basis. The BHUC serves children and teens ages 5 to 17 in the Mid-City community and surrounding areas, accepts Medi-Cal and is able to provide services to the uninsured. After receiving services at the BHUC, Rady Childrens staff connects patients with referrals to follow-up services with community providers and partners. Health Stars Social Determinant of Health Addressed: Education, Access to Care, Safety & Violence The Health Stars literacy program holds education sessions for low-income and homeless parents with children ages 0-5. These families may live in affordable housing complexes or homeless shelters. Health Stars brings volunteer pediatricians into the communities they serve to engage with families in their own neighborhoods. This is done to better understand the challenges these families face in achieving a healthy lifestyle. Families learn healthy habits during a series of reading and play sessions, each focused on a specific health topic. The program addresses key child health issues, including discipline, nutrition, safety, sleep and oral health, providing families with childrens books to reinforce healthy behaviors and encourage daily reading

Clinicians lead interactive discussions in a fun, engaging environment with the goal of building parents trust as well as their confidence with their own child interactions and parenting skills. Health Stars also works to connect families with local resources to meet their health, social and behavioral needs. Safe Routes to School (SRTS) Social Determinant of Health Addressed: Education; Safety & Violence Safe Routes to School (SRTS) is a collaboration between Rady Childrens, local government and school districts to make biking and walking to school safe and healthy alternatives to driving. A majority of elementary and middle schoolers arrive to school in a family car. SRTS is a series of strategies that will move parents away from driving their students to school and instead, walk them either part or the entire way, or drop them in a secure location with adults (walking school bus) so the kids can all walk together. Please refer to https://www.rchsd.org/documents/2019/11/community-health-needs-implementation-strategy.pdf for more information on the Community Health Needs Assessment Implementation Strategy. Needs not addressed: Priorities not addressed in this report and the reasons include: Cancer (high incidence in the CHNA pertained to adults); Economic Security (not within the purview of a Childrens Hospital); Housing and Homelessness (not a major factor for a Childrens Hospital, although housing insecure patients are served).
