Part X, line 2. (Text from footnote to financial statements) The Financial Accounting Standards Board (FASB) provides guidance for how uncertain income tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the [organization's] tax returns to determine whether the tax positions are more likely than not of being sustained when challenged or when examined by the applicable tax authority. Tax positions not deemed to meet the more likely than not threshold would be recorded as a tax benefit or expense and liability in the current year. For the year ended July 31, 2019 and 2018, management has determined there are no uncertain tax positions.
