990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 8	The shortfall of Medicare revenue to Medicare was calculated according to the cost to charge ratio. Allowable costs of care should be considered community benefit because in the area served by ECH, there are no other providers available to provide the required services. Therefore, the care would become a government obligation and is treated as a community benefit provided by ECH.
Part III, Line 9b	<p>Recommended patient accounts will continue to go through the accounts receivable billing cycle as normal. When the account reaches the customer service/collections manager, financial counseling supervisor or patient accounts supervisor, based on the information given, a decision will be made whether to proceed with collection or refer the account for approval of charity care. The process will occur as follows:</p> <p>I. Financial counselors will try to locate third party payors. If not eligible for any third party coverage (including charities), they may, based upon the financial information received, recommend the patient for charity care.</p> <p>II. Patient counselors will review for any third party payors and verify employment and assets. A charity care application will need to be completed along with tax return, pay stubs, social security award letter and other financial information as may be required.</p> <p>III. The patient accounts supervisor, financial counseling supervisor or customer service/collections manager, based upon account balance and the information given, will make a decision whether to proceed with collection or refer the patient account for approval for charity care.</p> <p>Presumptive eligibility for charity care - there are occasions in which a patient may appear eligible for a charity care discount, but there is no financial assistance information available to support financial aid.</p> <p>A. Some patients are presumed to be eligible for charity care discounts on the basis of individual life circumstances (e.g., homelessness, patients with no income, bankruptcy, deceased patients with no estate or spouse, etc).</p> <p>B. Through the assistance of a third party vendor and certain algorithms, in conjunction with our charity policy guidelines, all accounts, prior to outside collection agency referral, will be tested for presumptive charity.</p> <p>C. The accounts deemed charity will be adjusted off and the remaining accounts will be referred to an outside collection agency.</p> <p>D. Once the agency has had the accounts for six months and has deemed them uncollectible, the accounts with balances of \$1,580 or greater will remain with the agency and be kept on the patient's credit file.</p> <p>E. The accounts returned to the hospital will be placed in a unique financial class and will not be pursued for collections.</p>

Part III Supplemental Information

Provide the information, explanation, or descriptions required for Part I, lines 1a, 1b, 3, 4a, 4b, 4c, 5a, 5b, 6a, 6b, 7, and 8, and for Part II. Also complete this part for any additional information.

Return Reference	Explanation
Part I, Line 3	The Top Management Official is the President who is an employee of East Carolina Health. The compensation is determined by the Compensation and Benefits Committee of the Vidant Health Board using comparative data from like organizations and input from consultants. Compensation of other officers and key employees is also determined by the Compensation and Benefits Committee of the VH Board using comparative data from like organizations and input from consultants. All compensation discussions and actions are documented and approved in the minutes of the Committee.

Return Reference	Explanation
Part I, Line 4b	<p>As of January 1, 2013, the supplemental nonqualified retirement plan was frozen and no further amounts have accrued to its benefit. In lieu of the SERP, the comprehensive defined benefit pension plan will provide an equivalent benefit. The increase in the value of such plans is reflected in the sum of Part II, Column (c).</p> <p>On May 3, 2018, an amendment was adopted in the non-vesting supplemental executive retirement plan (SERP) that effectively transferred the frozen SERP benefits for the remaining 10 active participants to the qualified pension plan to the extent permitted by IRS limits. This resulted in an increase in the reported deferred compensation for these 10 executives. The deferred compensation reported, in part, represents the amounts transferred to their qualified pension plan that was earned over and related to their years of service to the Organization ranging from 14 to 30 years.</p>

As a non-profit organization, VH reinvests all excess of revenues over expenses in programs, services, and facilities that provide access to patient care and health services to the citizens of Eastern Carolina. Overview of Vidant Health Community Benefit Programs 1 Eastern North Carolina is comprised of 14 million people living in 14,000 square miles. Boundaries are from I-95 East to the coast, and from the Virginia line up to and including Onslow County. The area is largely rural and largely poor, with higher than state or national average rates for poverty and uninsured. Health status indicators show increased incidence of disease in the region, especially cancer, heart disease and stroke. VH determines priorities for target populations by working in concert with medical and community agency partners in ongoing assessment of the most pressing health care needs. Many efforts over the past decade have focused on diabetes, pediatric asthma, school health, injury prevention, access to care, nutrition enhancement, physical activities and chronic disease screenings. Also, special programs to manage the care of Medicaid enrollees, address access to both medical care and medications for the uninsured, and coordination of services for children with obesity have been undertaken. The populations that are served by addressing these issues are largely the poor, the underserved, and minorities. Determination of specific populations to address occurs when partners such as the North Carolina Department of Health and Human Services, local health departments, county coalitions, task forces, and physicians identify a quantifiable need, and community partners are engaged to work together with the health system. 2 Funding for community health programs is obtained from both the operating funds of VH entities and external grant-awarding organizations. The VH Board annually provides financial support for the Community Benefit Initiatives program based within each VH hospital. Funds are awarded to community agencies that successfully demonstrate both need and a well-designed plan to address one of the health priorities identified in the Community Health Assessment process. These funds are then awarded to community agencies that successfully demonstrate both need and a well-designed plan to address one of the Foundation's priority categories. In addition, each VH hospital financially supports community health resources within its operating budget. Programs vary according to the hospital's financial ability and community need, but all include collaborative efforts with local health departments, including health screenings and education to targeted populations. VH also has a successful track record of obtaining community health program support from external agencies that award grant funding to a</p>
