Form 990 (2019)

Form 990, Part III, Line 4a:

We assist schools (primarily in the state of Illinois) to get solar electricity systems on their school buildings. These systems are tied to the US power grid and that requires agreements be reached with local electricity providers like ComEd and Ameron, the two primary utilities in Illinois. These systems provide public data showing how much solar electricity is being generated by their systems. That data appears online on the website www.illinoisSolarSchools.org. We travel to each school throughout Illinois to maintain their systems/to keep them operating and to help them site their systems when they are originally installed. We do not actually handle their grant funds. Each school must apply for the grant funds and hire their own contractors so they learn how to buy renewable energy systems. We have an internet contractor using a 1099 system and that company maintains the website and adds notices about workshops and training opportunities. We also do hire contractors to fix broken systems if, for example, there is a lightning strike that destroyed the electrical on a system at North Clay High School in southeastern Illinois. But, if the system just needs resetting or restarting or if minor parts need replacing, then we handle those activities for the schools. And we do not charge the schools for anything that we do.

Form 990, Part III, Line 4b:

We conduct teacher training workshops all over Illinois including the Chicago area, Peoria area, and the southern part of Illinois centered in Carbondale. These trainings are completely free and the teachers receive classroom materials for free and we pay for food and parking and substitute teachers so that their respective schools will release them to attend the workshops. In some cases, we also pay for mileage for the teachers if they are driving a long distance. Evaluations were very highly rated again in 2019 and all of the workshops operated at capacity. We hire a NEED org certified teacher and the workshop are done in accordance with State testing requirements. The teachers all receive teacher approved credits from the State of Illinois. Our primary goal is to help students learn about renewable energy and electricity. Hopefully we help students get their job opportunities in fields they would not have considered previously and to improve their science and math skills.

Form 990, Part III, Line 4c:

We are working with another 501(c)(3) Streetlight Guild that promotes artists weh are Black including painters, musicians, poets, etc We provided that non-profit the funds to create a center on East Main Street in Columbus, Ohio as part of our Wilson Avenue energy efficiency project AEP and Columbia Gas were also involved in the project The other non-profit is repaying those funds monthly and then a balloon payment in 50 months
