Policies In accordance with the Income Taxes Topic of FASB ASC, the Company evaluates

uncertain tax benefits arising from tax positions taken or expected to be taken based on

the likelihood of being sustained upon examination by applicable tax authorities. If the

Company determines that a tax position is more likely than not of being sustained, it

recognizes the largest amount of the arising benefit that is greater than 50% of being

realized upon settlement in the financial statements. Any tax positions taken or expected

to be taken that do not pass the more likely than not test, the Company establishes

reserves offsetting the benefits related to such positions. Interest and penalties if any,

are included in the current provision for income taxes in the Company's statements of

activities and are included as a current liability in the statement of financial position.
