Form 990, Part III, Line 4a Description of Program Service	Briefly describe the organization's mission: Since it was founded in 1872 by Catholic sisters, SSM Health (SSMH) has existed to meet the health needs of the communities it serves. SSMH is a Catholic, not-for-profit health system serving the comprehensive health needs of communities across the Midwest through one of the largest integrated delivery systems in the nation. With care delivery sites in Illinois, Missouri, Oklahoma, and Wisconsin, SSMH includes 23 acute care hospitals, one children's hospital, more than 300 physician offices and other outpatient and virtual care services, 10 post-acute facilities, comprehensive home care and hospice services, a pharmacy benefit company, a health insurance company, and an Accountable Care Organization. The health system employs nearly 40,000 people and is affiliated with 11,000 physicians making it one of the largest employers in every community it serves. In the tradition of its founding sisters, SSMH strives to fulfill its mission by providing exceptional health care to everyone who comes to its hospitals, regardless of their ability to pay. Describe the tax-exempt purpose achievements: SSM Integrated Health Technologies Division (SSMIHT) works closely with SSM Hospitals to provide assistance in their health care ministry, including providing technology assistance to their health community activities as appropriate. SSMIHT has two primary, closely related service segments, Clinical Engineering Services (CES) and Information Technology (IHT), which provide the highest standard of maintenance, equipment management, and technology assessment. This service enables SSM caregivers to provide safe and reliable service to our patients. These services aid in reducing cost of the healthcare services of SSM ministries. IHT supports all the information systems, telecommunication and network infrastructure for all of SSM. This includes support of a wide range of applications. Clinical applications provide the information systems used by the acute care facilities to serve SSM's patients and include a fully integrated Electronic Health Record, Patient Registration, Patient Accounting, Physician Connectivity, and multiple other applications. Also included in the clinical systems group are applications utilized by our non-acute care users and include a Home Health and a Physician Practice Management system. The administrative applications provide the business information systems required by SSM to effectively manage operations. Included in this group of products is an Enterprise Resource Planning (ERP) System, which includes financial, materials management and HR/payroll components. Some applications, such as decision support models and benchmarking software, are utilized by both the clinical and the administrative applications. SSMIHT provides the application technology and hardware infrastructure required to support these applications. In addition to maintaining and monitoring computer operations, this group is responsible
