990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Schedule H, Part I, Line 7 Bad Debt Expense excluded from financial assistance calculation	29242400
Schedule H, Part III, Line 2 Bad debt expense - methodology used to estimate amount	FINANCIAL STATEMENT FOOTNOTE REGARDING BAD DEBT EXPENSE: Performance obligations are identified based on the nature of the services provided. Revenue associated with performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. Performance obligations satisfied over time relate to patients receiving inpatient acute care services. The System measures the performance obligation from admission into the hospital to the point when there are no further services required for the patient, which is generally the time of discharge. For outpatient services, the performance obligation is satisfied as the patient simultaneously receives and consumes the benefits provided as the services are performed. In the case of these outpatient services, recognition of the obligation over time yields the same result as recognizing the obligation at a point in time. Management believes this method provides a faithful depiction of the transfer of services over the term of performance obligations based on the inputs needed to satisfy the obligations. As the System's performance obligations relate to contracts with a duration of less than one year, the System has applied the optional exemption provided in the guidance and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period. The System uses a portfolio approach to account for categories of patient contracts as a collective group rather than recognizing revenue on an individual contract basis. The portfolios consist of major payor classes for inpatient revenue and major payor classes and types of services provided for outpatient revenue. Based on the historical collection trends and other analyzes, the System believes that revenue recognized by utilizing the portfolio approach approximates the revenue that would have been recognized if an individual contract approach were used. The System determines the transaction price, which involves significant estimates and judgment, based on standard charges for goods and services provided, reduced by explicit and implicit price concessions, including contractual adjustments provided to third-party payors, discounts provided to uninsured and underinsured patients in accordance with policy and/or implicit price concessions based on the historical collection experience of patient accounts. The System determines the transaction price associated with services provided to patients who have third-party payor coverage based on reimbursement terms per contractual agreements, discount policies and historical experience. For uninsured patients who do not qualify for charity care, the System determines the transaction price associated with services on the basis of charges, reduced by implicit price concessions. Implicit price concessions included in the estimate of the transaction price are based on historical collection experience for applicable patient portfolios. Patients who meet the System's criteria for charity care are provided care without charge; such amounts are not reported as revenue. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient service revenue in the period of the change. PATIENT RELATED BAD DEBT IS REPORTED CONSISTENT WITH THE FINANCIAL STATEMENTS.

Schedule H, Part III, Line 8 Community benefit & methodology for determining medicare costs	MEDICARE ALLOWABLE COSTS WERE CALCULATED USING A COST-TO-CHARGE RATIO DIRECTLY FROM THE MEDICARE COST REPORT. MEDICARE SHORTFALLS MUST BE ABSORBED BY THE HOSPITAL IN ORDER TO CONTINUE TREATING THE ELDERLY IN OUR COMMUNITY. ADDITIONALLY, IT IS IMPLIED IN INTERNAL REVENUE SERVICE REVENUE RULING 69-545 THAT TREATING MEDICARE PATIENTS IS A COMMUNITY BENEFIT.
