Schedule H, Part I, Line 3c DISCOUNTED CARE EXCEPTIONS	Patients whose family income exceeds 400% of the FPL may be eligible to receive discounted rates on a case-by-case basis based on their specific circumstances, such as catastrophic illness or medical indigence, at the discretion of the hospital; however the discounted rates shall not be greater than the amounts generally billed to commercially insured [or Medicare] patients. In such cases, other factors may be considered in determining their eligibility for discounted or free services, including: * Bank accounts, investments and other assets * Employment status and earning capacity * Amount and frequency of bills for health care services * Other financial obligations and expenses * Generally, financial responsibility will be no more than 25% of gross family income. The hospital may utilize predictive analytical software or other criteria to assist in making a determination of financial assistance eligibility in situations where the patient qualifies for financial assistance but has not provided the necessary documentation to make a determination. This process is called "presumptive eligibility."

THE BAD DEBT ALLOWANCE IS CALCULATED AS A PERCENTAGE OF PATIENT RECEIVABLES AFTER DEDUCTIONS FOR ESTIMATED PROVISIONS FOR CONTRACTUAL ADJUSTMENTS (DISCOUNTS) ON SERVICES PROVIDED TO ENROLLEES OF MEDICARE, MEDICAID, THIRD-PARTY PAYOR PROGRAMS, CHARITY CARE, UNINSURED DISCOUNTS, AND OTHER ADMINISTRATIVE ADJUSTMENTS.

<p>Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance</p>	<p>SSM Regional Health Services has established a written credit and collection policy and procedures. The billing and collection policies and practices reflect the mission and values of SSM Health, including our special concern for people who are poor and vulnerable, The Health Center embraces its responsibility to serve the communities in which it participates by establishing sound business practices. The Health Center's billing and collection practices will be fairly and consistently applied. All staff and vendors are expected to treat all patients consistently and fairly regardless of their ability to pay. They respond to patients in a prompt and courteous manner regarding any questions about their bills and provide notification of the availability of financial assistance. All uninsured patients will be provided a standard discount for medically necessary inpatient and outpatient services, including services provided at off-campus outpatient sites. The hospital determined the amount of the discount based on the local managed care market, applicable statutory requirements and other relevant local circumstances. The rate must be no less than the lowest effective discount rate and no greater than the highest effective discount rate for the current managed care contracts of the hospital. Uninsured patients may also qualify for an additional discount based upon financial need under the system financial assistance policy. All accounts due from the patient will receive a statement after discharge or after final adjudication from patient's insurance. Generally the patient will receive 4 months (120 days) of in-house collection efforts (including early out vendors) and 12 months of bad debt collection efforts. The hospital will make Reasonable Efforts to determine FAP eligibility including: 1. The financial assistance summary will be included with each billing statement 2. Extraordinary Collection Activity (ECAs) may not occur until bad debt placement and only after 120 days. 3. ECAs must be suspended if a guarantor submits a FAP application during the application period. 4. Reasonable measures must be taken to reverse ECAs if the application is approved which may include refunding any payments made in excess of amounts owed as an FAP-eligible individual. 5. Bad Debt vendors will gain written approval from SSM prior to engaging in ECAs. SSM will review the accounts and verify satisfactory completion of reasonable efforts during the notification and application period. A waiver is not considered reasonable efforts. Obtaining a signed waiver that an individual does not wish to apply for FAP assistance or receive FAP application information will not meet the requirement to make "reasonable efforts" to determine whether the individual is FAP-eligible before engaging in ECAs. All outside collection agencies must comply with state and federal laws, comply with the association of credit and collection professional's code of ethics and professional responsibility and comply with SSM Regional Health Services' collection and financial assistance policies.</p>

<p>Schedule H, Part VI, Line 2 Needs assessment</p>	<p>SSM Health (SSMH) participates in Community Benefit according to our vision, Through our participation in the healing ministry of Jesus Christ, communities, especially those that are economically, physically, and socially marginalized, will experience improved health in mind, body, spirit and environment. In the tradition of our founders, the Franciscan Sisters of Mary, caring for those in greatest need remains our organizational priority. Today our System Board monitors Community Benefit efforts, and views achievement of our vision as a primary responsibility. The purpose of SSMH's Community Benefit program is to assess and address community health needs. Making our communities healthier in measurable ways is always our goal. To fulfill this commitment, SSMH's Community Benefit is divided into two parts: 1) Community Health Needs Assessment (CHNA), and 2) Community Benefit Inventory for Social Accountability (CBISA). The CHNA is an assessment and prioritization of community health needs and the adoption and implementation of strategies to address those needs. A CHNA is conducted every three years by each hospital according to the following steps: * Assess and prioritize community health needs: Gather CHNA data from secondary sources; obtain input from stakeholders representing the broad interests of the community through interviews and focus groups; use data to select top health priorities; and complete written CHNA. * Develop, adopt, and implement strategies to address top-health priorities: Establish strategies to address priorities; complete Strategic Implementation Plan; obtain Regional/Divisional Board approval; and integrate strategies into operational plan. * Make CHNA widely available to the public: Publish CHNA and summary document on hospital's website. * Monitor, track, and report progress on top health priorities: Collect data and evaluate progress; report to Regional/Divisional Board every six months and System Board every year; share findings with community stakeholders; and send results to finance for submission to the Internal Revenue Service (IRS). System Office staff and leaders oversee and monitor SSMH's Community Benefit Program, and ensure reporting is in compliance with IRS regulations. In collaboration with community stakeholders and partner organizations, SSM Health Care Corporation also identifies needs based on assessments and research, and SSMH facilities also involve case managers and care team staff to pinpoint critical health issues in the community. All hospital CHNAs are completed, agreed, and integrated into the organization's strategic plan. We continue to monitor and assess the progress of our local efforts in the spirit of caring for others and improving community health.</p>
<p>Schedule H, Part VI, Line 3 Patient education of eligibility for assistance</p>	<p>Each entity providing medical service shall provide information to the public regarding its charity care policies and the qualification requirements for each of its facilities. When standard system notices and communication regarding charity care are available, these must be used. Modifications to the standard may be made to comply with state and local laws, as well as reflect culturally sensitive terminology for the policy. All notices are easy to understand by the general public, culturally appropriate and available in those languages that are prevalent in the community. They provide information about: * The patient's responsibility for payment, * The availability of financial assistance from public programs and entity charity care and payment arrangements, * The entity's charity policy and application process, and * Who to contact to get additional information or financial counseling. The following types of notices to the public are provided: * Signs in the emergency department, outpatient and inpatient registration and public waiting areas. * Brochures or fliers provided at time of registration and available in the financial counseling areas. * Notices sent with or on patient bills or communications sent to patients and guarantors related to medical services. * Applications provided to uninsured patients at the time of registration. The application for charity care, together with any instructions, must clearly state the policies regarding charity care, including excluded services, eligibility criteria and documentation requirements. Information about the entity's charity policies is also provided to public agencies.</p>

<p>Schedule H, Part V, Section B, Line 11 Facility B, 1</p>	<p>Facility B, 1 - SSM Health St. Francis Hospital - Maryville. The hospital identified various health needs in the 2018 CHNA. In order to make meaningful impact, and to use its financial resources most effectively and efficiency, the hospital will place primary focus on the following key priorities: - Mental Health - Obesity - Mental Health Mental health is inextricably linked to physical health. Poor mental health can have an impact on behaviors that result in poor physical health. Mental health is a common thread in many chronic health conditions. Depression has been linked to higher rates of cardiovascular disease and diabetes. Additionally, persons with depression tend to engage in more risk behaviors for these diseases-such as smoking, poor diet or lack of exercise-than persons without depression. Additionally, data on mental health shows: - Two out of four community groups indicated that mental health or mental illness is one of the most serious health issues facing this community - Nodaway County's rate for poor mental health days is 4.7 compared to the state rate of 4.4 and top US state performers' rate of 3.1. Atchison and Andrew counties (which border Nodaway on the west and south) have poor mental health rates lower than Nodaway at 4.2. and 4.0 respectively - The percentage of Nodaway County's Medicare population has seen a steady increase, 13.8% in 2010 to 17.4% in 2015 - Mental health issues ranked third behind obesity and high blood pressure when asked to select the diseases, challenges or conditions that you have been diagnosed with by a health care provider in the 2018 CHNA community survey - Mental health issues ranked highest when asked the diseases, challenges or conditions that you think are a concern for our community in the 2018 CHNA community survey - For the question "What resource could be used differently to improve health care?", 16 of 101 responses indicated mental health or psychiatric services or resources. The hospital's action plan includes the following initiatives to improve mental health in the community served: - Continue and expand clinic behavioral health offerings - Continue to provide support to organizations providing mental health programs to the community - Enhance relationship with Northwest Missouri State University's wellness center regarding behavioral/mental health concerns - Work with area schools to raise awareness and provide resources for child and adolescent mental health - Increase community education regarding mental health Obesity Obesity continues to be a growing issue for the physical and economic health of our nation. The CDC reports that obesity rates in America have increased from 35% in 2011-2012 to 39.8% in 2015-2016. Obesity-related conditions include heart disease, stroke, type 2 diabetes and certain types of cancer, which are some of the leading causes of preventable, premature death. Additionally, statistics show: - For Nodaway County, 33% of the population are considered obese, compared to the</p>

Schedule H, Part V, Section B, Line 11 Facility B, 1	<p>state rate of 32% and top US performing states at 26% - Physical inactivity is one health factor for obese people. In Nodaway County, 27.6% of the population self-report no leisure time for activity such as running, calisthenics, golf, gardening or walking for exercise. This compares to Missouri at 24.1% and the national rate of 21.8% - Another indicator that may impact healthy eating is the percentage of population with low-food access or living more than mile from the nearest supermarket, supercenter or large grocery store. This indicator is relevant because it highlights populations and geographies facing food insecurity. Nodaway County's percent of population with low-food access is 53.28%, compared to Missouri at 25.57% and the United States as a whole at 22.43% - In Nodaway County, 45.7% of adults aged 18 and older self-report that they have a Body Mass Index between 25.0 and 30.9 (overweight), compared to the state at 35.3% and United States at 35.8%. Excess weight may indicate an unhealthy lifestyle and puts individuals at risk for further health issues - The percentage of obese adults in Nodaway County has seen an increase from 26% in 2004 to 29.9% in 2013. The hospital's action plan includes the following initiatives to improve obesity in the community served: - Continue Healthy Lifestyles and Commit to Be Fit - Continue diabetes education programs and support group - Continue and expand Health 4 Life programs - Continue to expand H4L into surrounding rural schools - Consider surveying immediately after and multi-year post completion - Encourage SSM Health St. Francis caregivers to volunteer to participate - Continue health screenings - Increase community education regarding obesity The hospital has no plans to discontinue other community benefit efforts addressing the remaining CHNA-identified needs and address additional community needs within its efforts. The following community needs were identified but have not been prioritized due to the hospital's limited resources at this time (additional descriptions available in the 2018 CHNA): - Lack of access to healthy food - Accessibility to health screenings</p>

Schedule J, Part I, Line 4b Supplemental nonqualified retirement plan	Pension Restoration Plan: SSM Health (SSMH) provides this supplemental defined benefit nonqualified retirement plan to any employee who is a participant in the SSMH qualified defined benefit plan who earns over the Internal Revenue Service compensation limit. The plan "restores" the benefits to these employees that would have been provided under the SSMH qualified plan if the regulations did not impose compensation limits. An individual can take a distribution from the plan at (1) age 65 or older if the individual is still employed by SSMH or (2) age 55 or older if the individual is no longer employed by SSMH. No individuals listed on Part VII of Form 990 received distributions from the plan in 2019. Capital Accumulation Plan: SSMH provides this supplemental nonqualified retirement plan to executive level employees. The organization contributed a percentage of the employee's base salary into their choice of a select list of investments. The deposits and earnings of the plan are owned by SSMH and are tax-deferred until a distribution is made to the employee. In addition, the plan has special safeguards in place to protect the funds from contingencies, other than insolvency. For contributions made to the plan in 2014 or after, the distribution will occur after the completion of four plan years for all executives that are still actively employed on the distribution date. Any active participant 65 years or older will receive the contribution in the current year. SSMH is a Catholic, not-for-profit health system serving the comprehensive health needs of communities across the Midwest through one of the largest integrated delivery systems in the nation. With care delivery sites in Illinois, Missouri, Oklahoma, and Wisconsin, SSMH includes 23 acute care hospitals, one children's hospital, more than 300 physician offices and other outpatient and virtual care services, 10 post-acute facilities, comprehensive home care and hospice services, a pharmacy benefit company, a health insurance company, and an Accountable Care Organization. The health system employs nearly 40,000 people and is affiliated with 11,000 physicians making it one of the largest employers in every community it serves. Outstanding Patient Experience Award recipients were identified through an evaluation of 10 patient experience measures, using data collected from a 32-question HCAHPS survey of the hospital's own patients. The survey questions focus on patients' perspectives of their care during their inpatient hospital stay. In November 2014, the hospital moved to a new, state-of-the-art building. Improvements with the new facility include all private patient rooms, increasing patient comfort, healing, and safety; ease of patient and visitor transportation between inpatient and outpatient</p>
