Schedule D, Part X, Line 2 FIN 48 (ASC 740) footnote	Accounting principles generally accepted in the United States of America prescribes recognition thresholds and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Tax benefits will be recognized only if the tax position is more likely than not sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized will be the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the more likely than not test, no tax benefit will be recorded. The TAA would recognize interest and penalties separately from any income tax expense. There was no interest or penalties for the year ended December 31, 2019 and 2018. The TAA is no longer subject to examination within their major tax jurisdictions for the years before 2016. The TAA does not expect significant changes in unrecognized tax benefits in the next twelve months.
