Schedule H, Part III, Line 8 Community benefit & methodology for determining medicare costs	THE COSTING METHODOLOGY USED TO DETERMINE THE MEDICARE ALLOWABLE COST WAS BASED ON THE MEDICARE PRINCIPLES USED IN COMPLETING THE MEDICARE COST REPORT. ALL COST REPORTED CAME FROM THE MEDICARE COST REPORT. SSM HEALTH ACCEPTS ALL MEDICARE PATIENTS WITH THE KNOWLEDGE THAT THERE MAY BE SHORTFALLS AND OPERATES TO PROMOTE THE HEALTH OF THE COMMUNITY. SSM HEALTH BELIEVES THAT ANY MEDICARE SHORTFALL SHOULD BE TREATED AS A COMMUNITY BENEFIT BECAUSE MEDICARE DOES NOT FULLY COMPENSATE HOSPITALS FOR THE COST OF PROVIDING HOSPITAL CARE TO MEDICARE BENEFICIARIES, AS MEDICARE ALLOWED COST IS LESS THAN ACTUAL COST.
Schedule H, Part III, Line 9b Collection practices for patients eligible for financial assistance	SSM Health St Louis University Hospital has established a written credit and collection policy and procedures. The billing and collection policies and practices reflect the mission and values of SSM Health, including our special concern for people who are poor and vulnerable. The Hospital embraces its responsibility to serve the communities in which it participates by establishing sound business practices. The Hospital's billing and collection practices will be fairly and consistently applied. All staff and vendors are expected to treat all patients consistently and fairly regardless of their ability to pay. They respond to patients in a prompt and courteous manner regarding any questions about their bills and provide notification of the availability of financial assistance. All uninsured patients will be provided a standard discount for medically necessary inpatient and outpatient services, including services provided at off-

campus outpatient sites. The hospital determined the amount of the discount based on the local managed care market, applicable statutory requirements and other relevant local circumstances. The rate must be no less than the lowest effective discount rate and no greater than the highest effective discount rate for the current managed care contracts of the hospital. Uninsured patients may also qualify for an additional discount based upon financial need under the system financial assistance policy. All accounts due from the patient will receive a statement after discharge or after final adjudication from patient's insurance. Generally the patient will receive 4 months (120 days) of in-house collection efforts (including early out vendors) and 12 months of bad debt collection efforts. The hospital will make Reasonable Efforts to determine FAP eligibility including: 1. The financial assistance summary will be included with each billing statement 2. Extraordinary Collection Activity (ECAs) may not occur until bad debt placement and only after 120 days. 3. ECAs must be suspended if a guarantor submits a FAP application during the application period. 4. Reasonable measures must be taken to reverse ECAs if the application is approved which may include refunding any payments made in excess of amounts owed as an FAP-eligible individual, 5, Bad Debt vendors will gain written approval from SSMH prior to engaging in ECAs. SSMH will review the accounts and verify satisfactory completion of reasonable efforts during the notification and application period. A waiver is not considered reasonable efforts. Obtaining a signed waiver that an individual does not wish to apply for FAP assistance or receive FAP application information will not meet the requirement to make "reasonable efforts" to determine whether the individual is FAP-eligible before engaging in ECAs. All outside collection agencies must comply with state and federal laws, comply with the association of credit and collection professional's code of ethics and professional responsibility and comply with SSM-SLUH's collection and financial assistance policies.

Schedule H, Part VI, Line 2 Needs assessment	SSM Health (SSMH) participates in Community Benefit according to our vision. Through our participation in the healing ministry of Jesus Christ, communities, especially those that are economically, physically, and socially marginalized, will experience improved health in mind, body, spirit and environment. In the tradition of our founders, the Franciscan Sisters of Mary, caring for those in greatest need remains our organizational priority. Today our System Board monitors Community Benefit efforts, and views achievement of our vision as a primary responsibility. The purpose of SSM's Community Benefit program is to assess and address community health needs. Making our communities healthier in measurable ways is always our goal. To fulfill this commitment, SSM's Community Benefit is divided into two parts: 1) Community Health Needs Assessment (CHNA), and 2) Community Benefit Inventory for Social Accountability (CBISA). The CHNA is an assessment and prioritization of community health needs and the adoption and implementation of strategies to address those needs. A CHNA is conducted every three years by each hospital according to the following steps: * Assess and prioritize community health needs: Gather CHNA data from secondary sources; obtain input from stakeholders representing the broad interests of the community through interviews and focus groups; use data to select top health priorities; and complete written CHNA. * Develop, adopt, and implement strategies to address top-health priorities: Establish strategies to address priorities; complete Strategic Implementation Plan; obtain Regional/Divisional Board approval; and integrate strategies into operational plan. * Make CHNA widely available to the public: Publish CHNA and summary document on hospital's website. * Monitor, track, and report progress on top health priorities: Collect data and evaluate progress; report to Regional/Divisional Board every six months and System Board every year; share findings with community stakeholders; and send results to finance

care team staff to pinpoint critical health issues in the community. All hospital CHNAs are completed, approved, and integrated into the organization's strategic plan. We continue to monitor and assess the progress of our local efforts in the spirit of caring for others and improving community health.

The hospital identified various h ealth needs in Schedule H, Part V, Section B, Line 11 the 2018 CHNA. In order to make meaningful impact, and to use its finances most effectively and Facility A, 1 efficiency, the hospital will place primary focus on the following ke y priorities: - Access to care/continuity of care - Substance abuse/mental health - Violen ce Access to care/continuity of care Access to primary care providers is a key priority for the hospital. Improvements will increase the likelihood that community members will have routine check-ups and screenings. Moreover, those with access to primary care are more li kely to know where to go for treatment in acute situations. Communities that lack sufficient access to primary care providers typically have members who delay necessary care when s ick and conditions can become more severe and complicated. Additional facts and figures on access to care show: - Provider Care Rate-Per 100,000 persons, there are 123 providers in St. Louis County and 85 providers in St. Louis City. Primary care providers include pract icing physicians specializing in general practice medicine, family medicine, internal medicine, and pediatrics - Clinical Care Ranking -The quality and accessibility of clinical care heavily impacts the health of a community. Without a sufficient number of providers or adequate insurance coverage, people often do not seek care services and are thus at higher risk of developing preventable illnesses or chronic conditions. People with access to hig h-quality care are more likely to receive effective treatment for their conditions and enj oy better health. St. Louis City is ranked at 27 (1-2 is healthiest) compared to St. Louis County ranked at 2. The ranking is based on a summary composite score calculated from the following measures: uninsured, primary care physicians, mental health providers, dentists, preventable hospital stays, diabetic monitoring, and mammography screening. - 34% of St. Louis City residents have a bachelor's degree or greater and 23% of St. Louis City reside nts have a high school graduation degree - Approximately 15% of St. Louis City resident do n't have health insurance - 19.94% of St. Louis City families live below the poverty line The hospital is involved in the following initiatives to improve access to care in the community served: - In partnership with the Integrated Health Network. utilize community refe rral coordinators to ensure continuity of care for patients and timely access to primary c are follow up - In partnership with local area churches as well as other non-profit organi zations provide health screenings to the residents in underserved communities (areas close to hospital) to identify early signs of disease and assist with follow-up appointments to begin care process - Identify and educate underserved communities on the importance of sc reening mammograms and through a grant with Show Me Health Women offer these services to i dentified individuals - Identi

The use of illicit drugs, abuse of alcohol, and addiction to pharmaceuticals is linked to serious health conditions such as heart disease, cancer, and leads to lost work productivity, healthcare, and crime. Substance abuse also contributes to a wide range of social, ph ysical, mental, and public health problems. Because of these far-reaching consequences of substance abuse, treatment programs have been developed to counter addiction. Statistical data on substance abuse and mental health shows the following: - ER visits related to substance abuse per 10,000 persons over 18 years is 39.3 in St. Louis City - Age adjusted hosp italization related to substance abuse per 10,000 persons over 18 years of age is 27.8 in St. Louis City - Nationally, the incidence of drug-poisoning deaths involving natural and semisynthetic opioids, which include drugs such as oxycodone and hydrocodone, increased fr om 1.0 in 1999 to 4.4 in 2016 - The incidence of drugpoisoning deaths involving heroin in creased from 0.7 in 1999, to 1.0 in 2010, to 4.9 in 2016 - Missouri is statistically higher than the US average of 19.8 drug-poisoning deaths per 100,000 people (ageadjusted). According to the FBI'S Uniform Crime Reporting Program, violent crime include s four offenses: murder and non-negligent manslaughter, rape, robbery, and aggravated assa ult. Violence negatively impacts communities by reducing productivity, decreasing property values, and disrupting social services. Additional data on violence report that: - The vi olent Crime Rate per 100,000 persons is 1,702.8 in St. Louis City and 297.7 in St. Louis C ounty - Social and Economic Factors Ranking is 115 in St. Louis City and 17 in St. Louis C ounty according to the County Health Rankings. Social and economic factors s trongly influence the health of the individual and community. Studies repeatedly show a st rong correlation between socioeconomic status and health outcomes. The hospital has the following action plan in place to improve the community measures on violence: - As a partner in the Hospital Violence Intervention Program Collaborative, identify victims of violence that come to the hospital and offer these victims access to services to decrease violence re-offense -Participate in community educational programs to educate on gun safety and t he use of gun locks -Partner with YWCA to offer SART (Sexual Assault Response Team) to vi ctims of sexual assault in the emergency department which will assist victims in finding s afe housing and counseling services -Connect victims of violence with community resources for education and opportunities that promote economic stability - In partnership with are a high schools, identify at risk individuals and offer educational opportunities as well as volunteer opportunities about health care careers The hospital has no plans to discontin ue other community benefit efforts addressing the remaining CHNA-identified needs and addr ess additional community needs within its efforts. Form and Line Reference	Explanation
Schedule H, Part V, Section B, Line 11 Facility A, 2	Facility A, 2 - SSM Health St Louis University Hospital (Continued). During 2019, the following activities were performed to help address the issues identified in the CHNA: Access to Care: Gateway to Better Health (GBH) is a temporary health care program for uninsured adults in St. Louis City and County. The organization serves individuals from some of St. Louis City and County's highest need zip codes. Patients served are at or below 100 % of the federal poverty level, seventy percent of clients are African American and 40% have a chronic health condition. SSM Health collaborates with other area health systems and community health centers to provide comprehensive health services for this underserved population. Violence: In places where gun violence is prevalent, entire communities suffer. Children exposed to violence in their community, for example, are at increased risk for eventually being involved in gun violence themselves. Addressing the systemic issues that lead to poverty and socioeconomic inequalities is key to ending the gun violence epidemic. 'Life Outside of Violence' is a partnership between research universities Washington University and Saint Louis University. It's also a partnership with four trauma hospitals, including Barnes-Jewish Hospital, SLU, St. Louis Children's Hospital and SSM Cardinal Glennon Children's Hospital. Funded by a three-year, \$1.6 million grant from the Missouri Foundation for Health, the free program is designed to reach and treat St. Louis City and County residents aged 8 to 24 who are injured by gunshot, stabbing or assault. The program offers immediate therapy and counseling to victims of violence while they're still in the hospital, to help them cope with trauma. Therapists are on site at each hospital to offer victims between the ages of 8 and 24 emotional support while they are still in the hospital. This allows for immediate psychological help and the therapis continues working with the family to establish a long-term wellness, violence prevention plan.
