In addition to the program services detailed above, funding was also provided in 2019 for cancer education, prevention and early detection programming; direct patient assistance; community-based patient and family support programs; and esophageal cancer treatment equipment. Thompson Cancer Survival Center Foundation supports the work of TCSC's cancer outreach department which provides hundreds of free and reduced-cost cancer screenings annually in the East Tennessee area. The department's 2019 focus was on breast and lung cancer education and screening. In addition to outreach efforts at community health fairs/free clinics, the department provided approximately 300 no-cost mammograms and provided smoking/vaping cessation education to 500+ college students in partnership with Pellissippi State Community College. Early detection and prevention efforts are the first step to help patients get diagnosed quickly or, if possible, never have to battle the disease at all. The Foundation's Thompson Cares program assisted more than 856 cancer patients in 2019 by helping with life's necessities such as gas and electric bills, medications, prostheses, housing, and more. Also, approximately 250 newly diagnosed patients were provided with a comfort care basket filled with products to help them through the many and varying side effects of chemotherapy. The baskets include items such as Biotene products, lip balm, lemon hard candies, hand sanitizer, antibacterial hand soaps and wipes, a soft toothbrush, a turban, footies, books of encouragement and a journal to record their thoughts and experiences. In 2019, the board of directors of Thompson Cancer Survival Center Foundation approved a distribution of \$15,000 to support the Cancer Support Community of East Tennessee (CSC). The mission of CSC is to ensure that all people impacted by cancer are empowered by knowledge, strengthened by action, and sustained by community. CSC annually facilitates a number of support groups and educational programs that benefit the patients of Thompson Cancer Survival Center and their families. Since its founding in 1990, more than 11,000 people impacted by cancer have been served by CSC. The Foundation continued to support the work of the Laser Center (now a department of Fort Sanders Regional Medical Center) in 2019 with the distribution of donations restricted for the Laser Center's use to fund a new endoscopy system used in the screening and treatment of esophageal cancer and precancerous conditions.

Name: Thompson Cancer Survival Ctr Foundation

Form 990 (2019)

Form 990, Part III, Line 4a:

Multidisciplinary Operating Grant: The Foundation provides grant support for the operations of the Multidisciplinary Treatment Department of the Thompson Cancer Survival Center. Multidisciplinary treatment facilitates specialty physicians discussing treatment options based on the individuality of the patient's circumstances. A multidisciplinary nurse navigator schedules a private consultation for each patient with the members of the specialty team. This approach affords the opportunity for the physician to relate one-on-one with the oncology patient and explain treatment choices in layman's terms. Patients in need of this support come from various Covenant Health facilities, as well as outside facilities. Nurse navigators and a department assistant currently organize, oversee, summarize, and provide follow-up for 4 to 5 multidisciplinary cancer conferences per week. In 2019, 864 patients were presented at multidisciplinary conferences, with 146 of those patients being seen in our multidisciplinary clinics where a nurse navigator is in attendance with each patient to take notes, educate, offer support to patients and families, and become their liaison between all physicians and services. Thompson Cancer Survival Center's nurse navigators assist oncology patients according to their needs and help them overcome multiple barriers to healthcare. Five new nurse navigators were added to the program in 2019. Common barriers include financial, educational, transportation, logistical, linguistic, cultural, and emotional factors, as well as the complicated health care system in general. Our navigators guide patients to sources of financial support, help complete paperwork, educate patients on diagnoses and medical procedures, arrange and coordinate appointments with multiple providers, help with transportation, assist with housing, communicate with providers about unique patient needs, ensure medical records arrive at scheduled appointments, direct patients to support groups or counseling services, and attend patient appointments for support. Working with patients having all solid tumor cancer types, they work diligently to meet the needs of our patients and families. There were 15,667 oncology patient education encounters in 2019, and 949 patients were navigated with complicated issues. For those patients being followed by navigators that have curative treatment, over 100 Survivorship Care Plans were completed by nurse navigators and discussed with patients in 2019. Nurse navigators also led the Low Dose CT Lung Screening Program for Fort Sanders Regional Medical Center and Fort Sanders West. There were 754 total patients scheduled for screenings in 2019. Seventy-nine patients were found to have an abnormal result. All Low Dose CT patients are followed by the multidisciplinary department.

Form 990, Part III, Line 4b:

Social Services Operating Grant: The Foundation provides grant support for the operations of the Social Services Department of the Thompson Cancer Survival Center. The Social Services Department receives referrals from Covenant Health facilities when oncology patients are identified that could benefit from the services provided by this department. In 2019, Social Services supported 1,618 new patient referrals and 4,743 follow-up patients. Additionally, there were 811 new patients referred for nutritional counseling and education and 2,914 follow-up patients were also supported. Healing Touch is another service provided by the Social Services Department. Healing Touch offers a space for patients to relax and escape from the stress of cancer treatment. Patients are seen for pain management and anxiety and find the treatment relaxing and helpful. Healing Touch served 95 patients with 570 visit in 2019. The Social Services Department also offers Genetic Counseling services including breast cancer and hereditary cancer risk assessments. In 2019, the Genetics Clinic provided services for 533 new patients who were in need of counseling, including 165 who pursued genetic testing. Whether patients tested positive or negative for a hereditary cancer syndrome, decided not to pursue testing, or were not appropriate candidates for testing, they and their families were able to make informed decisions regarding their medical management based on the genetic counseling they received.

Form 990, Part III, Line 4c:

Clinical Trials Operating Grant: The Foundation provides a grant to the Thompson Cancer Survival Center ("TCSC") for the operation of its Clinical Trials program. Since the opening of TCSC in 1988, the Clinical Trials Department has enrolled 2,366 patients in clinical trials. The TCSC Clinical Trials Department currently has 11 active treatment patients, 11 patients actively enrolled in research studies, and 135 patients in follow-up studies. In 2019, TCSC Clinical Trials Department enrolled 4 patients to oncology clinical trials. To help with screening efforts, Research Nurse Coordinators are assigned to specific physician schedules for screening and to specific locations for coverage, including Thompson Oncology Group's Oak Ridge, Sevierville, West Knoxville, Downtown Knoxville, and Lenoir City clinics. Opening new studies increases referrals locally and regionally and gives current patients the ability to be treated with state-of-the-art care in their own community. Involvement in prevention, treatment, and data and specimen collection trials offers an improved means of health strategies for individuals at risk for certain cancers, as well as access to proven standard cancer treatments and new, developing cutting edge therapies for those diagnosed with cancer.
