Supplemental Information

| Return Reference | Explanation |
|-------------------------|---|
| Part X : FIN48 Footnote | <p>The Hospital is exempt from income taxes under Internal Revenue Service Code Section 501(a) as an organization described in Section 501(c)(3) and a similar provision of the state law. Therefore, no provision for income taxes has been made in the accompanying financial statements. However, the Hospital is subject to federal and state income taxes on any unrelated business income resulting from its operations. The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under that guidance, the Hospital may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities based on the technical merits of the position. Examples of tax positions include the tax-exempt status of the organization and various positions related to the potential sources of unrelated business taxable income. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. There were no unrecognized tax benefits identified or recorded as liabilities for fiscal years ending December 31, 2019 and 2018. The Hospital files income tax returns in the U.S. Federal jurisdiction and the state of Oklahoma. The statute of limitations for both federal and Oklahoma tax returns is three years, therefore all tax returns filed over three years ago are no longer subject to examination.</p> |

| Form and Line Reference | Explanation |
|---|--|
| Part I, Line 7 - Explanation of Costing Methodology | The costing methodology for line 7a is calculated using a patient cost-to-charge ratio as computed using Worksheet 2, Ratio of Patient Care Cost-to-Charges. Calculation of Worksheet 2 represents a percentage of adjusted patient care cost to gross patient charges. The percentage calculated using Worksheet 2 is multiplied by the patient charges written off under financial assistance policies to arrive at the community benefit expense. The costing methodology for line 7b is calculated using a patient cost-to-charge ratio as computed using Worksheet 2, Ratio of Patient Care Cost-to-Charges. Gross patient charges related to Medicaid are multiplied by the percentage calculated in Worksheet 2 to arrive at the community benefit expense related to Medicaid. Direct offsetting revenue represents net Medicaid patient service revenue (gross Medicaid patient service revenue less Medicaid contractual adjustments). The costing methodology for line 7c is calculated using a patient cost-to-charge ratio as computed using Worksheet 2, Ratio of Patient Care Cost-to-Charges. Gross patient charges related to other means tested government programs (Medicare) are multiplied by the percentage calculated in Worksheet 2 to arrive at the community benefit expense related to other means tested government programs. Direct offsetting revenue represents net patient revenue from other means tested government programs (gross patient service revenue less contractual adjustments). |

| Part III, Line 2 - Methodology Used To Estimate Bad Debt Expense | Bad debt expense is comprised of actual patient write-offs, patient recoveries and an estimate of patient uncollectible accounts receivable at any point in time. Patient write-offs and patient recoveries are recorded consistent with collections policies and procedures. The estimate of patient uncollectible accounts receivable, net of any related discounts, is based on review of balance aging and historical collection rates adjusted accordingly for any prospective circumstances that can impact future collection rates, and are determined consistent with collections policies and procedures. Bad debt expense relates to patient responsible balances. Contractual insurance adjustments and any related uncollectible estimates on such receivable balances are included in net patient service revenue. |

990 Schedule H, Supplemental Information

| Form and Line Reference | Explanation |

| Part III, Line 4 - Bad Debt Expense | <p>Patient receivables are uncollateralized customer and third-party payor obligations. Payments of patient receivables are allocated to the specific claims identified on the remittance advice or, if unspecified, are applied to the earliest unpaid claim. The carrying amount of patient receivables is reduced by a valuation allowance that reflects managements best estimate of amounts that will not be collected from patients. Management reviews patient receivables by age and payor class and applies percentages to determine estimated amounts that will not be collected from patients due to bad debts. Management considers historical write off and recovery information in determining the estimated bad debt provision. The portion of the valuation allowance related to the provision for amounts that will not be collected from patients due to bad debts is disclosed on the balance sheet. Generally, amounts due from patients and third-party payors that reach 180 days old are charged off as uncollectible based on managements review and approval.</p> |
