Financial assistance policies exist to provide relief for those who cannot pay for medical care. MDI Hospital provides care to persons covered by governmental programs including Medicare, Medicaid, VA, and CHAMPUS. The unreimbursed value for providing care to these patients approximates \$632,332. The Hospital continues to provide a number of health services and preventative health programs to the community. Available programs include cardiac pulmonary rehabilitation, care coordination, wellness programs, diabetes education, annual wellness exams, nutrition counseling, parenting, pregnancy and sibling classes, physical and occupational therapy programs, speech therapy, medication therapy management, health coaching, care management, coagulation management, financial and insurance workshops, and our oral health program which included education and outreach to the community, schools, and service providers. The Hospital provides volunteers as Certified Application Counselors to help enroll and educate members of our community into the Health Insurance Exchange options. Throughout the year, staff from the Hospital make presentations to area school children regarding smoking cessation, wellness, health, activity, nutrition, and oral health, including Give Kids a Smile Day, in which free or reduced cost screenings are available. Additionally, community groups such as the YMCA, Alcoholics Anonymous, Cancer Support, and Palliative Care use the Hospital's conference rooms for their meetings. Many hospital staff members serve other nonprofits in capacities such as volunteer hours and board of directors' memberships, as well as memberships in service organizations such as the local Healthy Acadia, Rotary, Chamber of Commerce, and Lions/Lioness clubs.

Return Reference	Explanation
Part X, Line 2:	<p>The Hospital and BBRV are exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (Code). MDMC is a for-profit entity and is, therefore, subject to income taxes. Income taxes are recorded based upon the asset and liability method as prescribed by Financial Accounting Standards Board (FASB) ASC 740, Income Taxes. At April 30, 2020 and 2019, MDMC has certain net operating loss carryforwards which have been reduced by a valuation allowance of an equal amount as it is not presently considered likely that the deferred tax assets will be realized. Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position they have historically taken on various tax exposure items including unrelated business income or tax status. Under guidance issued by the FASB, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the "more-likely-than-not" threshold, based upon the technical merits of the position. Estimated interest and penalties, if applicable, related to uncertain tax positions are included as a component of income tax expense. The Organization has evaluated the positions taken on its filed tax returns. The Organization has concluded no uncertain income tax positions exist at April 30, 2020.</p>

Form and Line Reference	Explanation
Part I, Line 7:	The costing methodology utilized for this table was derived from Worksheet 2, Ratio of patient care cost to charges with data from filed cost reports for the fiscal year.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 7g:	The Hospital provides to the community several provider based physician and specialty practices to serve this rural island population. These practices are listed on Part V of this schedule. The facility subsidizes their operating costs to maintain access and coordination of care to our population.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part I, Line 7, Column (f):	The Bad Debt expense included on Form 990, Part IX, Line 25, Column (A), but subtracted for purposes of calculating the percentage in this column is \$ 5,972,022.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 2:	<p>The estimated cost of bad debt expense as reported is derived from the accounting systems and software the organization uses to calculate the cost-to-charge ratio from the as-filed Medicare Cost Reports. Mount Desert Island Hospital (MDI Hospital) estimates the cost of bad debt expense using accounting systems and software from our organization to calculate the cost of care from the as filed Medicare Cost Reports. This estimate best represents the value of providing care for those services that will be considered or deemed uncollectible. The value of these services at cost is estimated to be \$3,491,573. This is the amount the Hospital must forgive as a benefit to the community for providing services.</p>

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 3:	The Hospital's financial assistance policy provides administrative and accounting guidelines for the identification, classification, and reporting of patients receiving financial assistance as distinguished from bad debts. Accordingly, the Hospital has estimated that no amount of bad debt expense at cost is attributable to patients eligible under the organization's financial assistance policy.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 4:	See Footnote 2 on Page 13-14 of the attached audited financial statements.

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 8:	<p>The IRS Form 990, Schedule H instructions and guidance provide a template in Worksheet 2 as a way to determine the overall cost to charge ratio that could be applied throughout Schedule H in order to convert charges to cost. Where applicable, we have utilized the Worksheet 2 template calculation. The only area where we did not utilize this template calculation was in Schedule H, Part III, Section B, Line 6, Medicare allowable costs and payments related to the subsidized health services. Instead, the Hospital utilized the Medicare Cost Report estimated cost and payment for these services. The Hospital believes that provider based clinics listed in the Cost Report should be considered a community benefit due to the fact that without the Hospital subsidizing and offering the services that these clinics offer, the community-at-large would have to travel 45 minutes or more to the nearest similar hospital. As such, Mount Desert Island Hospital believes that by offering and subsidizing these clinics within its community, thus enabling community members to have easy access and an easier commute for these services, the entire community at large benefits.</p>

990 Schedule H, Supplemental Information

Form and Line Reference	Explanation
Part III, Line 9b:	<p>The Hospital would not initiate collection efforts against a patient that qualified for a sliding fee scale unless that patient failed to meet his or her obligation under a mutually agreed upon payment arrangement. After it was determined that the patient did not qualify for a readjustment to his or her payment terms, the Hospital would follow normal notification practices dictated by our collection policy, which is in compliance with the 501(r) regulations. Upon the qualifying defaults a patient's account may result in collection efforts. If the collection agency suspects or gains knowledge that someone may need to apply for one of the programs, the agency sends out a financial assistance application to the patient or guarantor and proceeds to notify MDIH of the outreach. Information about our free and sliding scale programs is on our website, on our account statements, and posted in public areas and at our provider clinics. Our Plain Language Summary is posted within our community as well. We also make available a Patient Financial Counselor to help advocate, assist and navigate the process.</p>

Form and Line Reference	Explanation
Part VI, Line 2:	<p>MDI Hospital assesses the health needs of the community through the use of a collaborative Community Health Needs Assessment. As a key participant in the CHNA process, our institution is able to further address and identify those areas of most concern and need in our community. A community needs assessment is a point-in-time effort to measure the health and wellbeing of the community. It serves as a constructive tool to and basis for MDI Hospital's strategic and subsequent action planning to develop health policy advocacy, allocate resources, improve or expand existing services, implement new programs and collaborate with other community health care providers. A Community Health Needs Assessment also serves as a benchmark for future assessment of measured progress toward established community health objectives. MDI Hospital's Community Health Needs Assessment provides an opportunity to gain insight into the needs and assets that are served. It also provides a measure to identify and address the needs of the vulnerable populations within our community. The MDI Hospital process was a partnership with Healthy Acadia, a comprehensive community health coalition that was formed in 2001 with public health funding provided by the Maine Center for Disease Control and Prevention. The Community Health Improvement Plan and Health Needs Assessment were performed using the Mobilizing for Action through Planning and Partnerships process, which utilized a broad cross-section of our demographic and service area. This process delivered the basis for the assessment which demonstrated the strengths and opportunities for our plan. This process involved the gathering of quantitative data such as demographics, health indicators, and local statistical information as well as qualitative data from public surveys, focus groups, and community stakeholders. The data helps support short-term and long-term decisions about allocation of community human and capital resources. Participants included members of the Hospital's medical staff, nursing staff, board of trustees and administration. Focus groups were used to gain feedback from diverse and remote populations, as we are an institution that serves the rural and coastal community of Mount Desert Island and the other islands off the coast of Hancock County. This assessment, in conjunction with the Maine Shared Health Needs Assessment and Planning Process, which provides detailed surveillance data about the chronic health conditions or improved health of the population we serve, allows for a comparative measurement to determine priorities of focus. This collaborative effort developed several themes for strategic initiatives and goals. The organization reviewed the overarching needs and validated those to the health needs of the community. This process was reviewed and prioritized through the Board Designated Planning Committee of the organization, which develops and maintains oversight of the Hospital's official Community Health Needs Assessment and Implementation and Evaluation Plans. The Implementation Plan is reviewed periodically and updated as strategies and initiatives are completed or modified. Those items that were not achievable are reviewed and documented so as to help surpass the barrier for successful implementation and/or develop alternatives in the future. In its 2019 tax year, MDI Hospital continued to implement the results of the 2016 plan as there were several broad-reaching programs that will continue to be a focus for our organization, using supplemental data from the Maine Shared Health Needs and Planning Process (Maine SHNAPP). They were outlined in our corresponding implementation plan under the evaluation process. The 2016 plan continued on the foundation from the 2011 CHNA addressing the newly identified opportunities and has been approved by the Hospital's CHNA planning committee which has been authorized by the Hospital's board of directors to oversee the CHNA process on the board's behalf. The supplemental plan was approved, as well, while the Hospital engaged in a comprehensive update to its CHNA in partnership again with Healthy Acadia. The results are available upon request and through www.mdihospital.org. The Hospital also hosts community forums strategically located at sites throughout the service area to continue dialogue around accessibility to services, and ongoing healthy viability. These conversations aid in the ongoing development of the CHNA. The Hospital's county-wide Community Health Needs Assessment, which aligns many state and county partners in Hancock County, was led primarily by Northern Light Health and identified several health initiatives that MDI Hospital developed as part of its adopted implementation plan. The implementation and evaluation plans and CHNA are located on the Hospital's public website along with a notice to solicit comments from the community regarding any questions, suggestions or concerns regarding the CHNA and the implement</p>

Form and Line Reference	Explanation
Part VI, Line 3:	<p>The Financial Assistance Policy (FAP) information is sent with all account statements and is printed on the back of the statement. A notice of the FAP in plain language is also available on our Hospital website, posted in public areas, and available within the departments and provider clinics of our organization. The Hospital provides a Patient Financial Counselor to help navigate the process to ensure that our patients have access to the care and services they need. MDI Hospital is committed to providing access to quality healthcare services with compassion, dignity, and respect for those we serve, particularly the poor, indigent, and underserved in our communities, regardless of their ability to pay. We assist our patients who cannot afford to pay for part or all of the services received by working with our community to identify those in need and find the financial resources that may be made available to them. MDI Hospital has adopted guiding principles when handling billing, collections, and financial support functions for our patients. We provide effective communications with patients regarding hospital bills and make affirmative efforts to help patients apply for public and private financial support programs, including providing resources to perform the application process on behalf of the patient. We have implemented policies and procedures for assisting low income patients in a consistent manner that is in compliance with the State of Maine Chapter 150 Guidelines for Free and Reduced Care. These policies are reviewed by the Finance Committee of the Board of Trustees at a minimum annually, or as deemed necessary. The adjustment for Amounts Generally Billed is made annually after the acceptance of MDI Hospital's Medicare Cost Report by the regional Fiscal Intermediary (MAC). A Patient Financial Counselor is also available to assist with triaging patient needs and working with our patients to align resources. This representative is available to explain and review patient payment obligations. We also have a Patient Advocate to facilitate issues that arise during the course of this process. Information about Hospital-based financial support policies and external support programs that provide coverage for services is made available to patients during the pre-registration and registration processes and/or through communications with patients seeking financial assistance. Support is available to uninsured and underinsured patients who do not qualify for public programs or other means of assistance. Notification about financial assistance programs at MDI Hospital, including contact information, is available through messaging included on patient bills, at provider clinics, in public areas, through care management and billing support staff, in registration areas, and at the reception areas in the Hospital and at our provider clinics. Patient brochures describing the financial counseling services, our financial assistance policies, financial assistance application, and the applicable services which are available in these areas as well as on our public website, www.mdihospital.org. Form and Line Reference	Explanation
Part VI, Line 4:	<p>MDI Hospital is a 25-bed critical access hospital located in Bar Harbor, Maine and licensed by the State of Maine. The mission is to provide compassionate care and strengthen the health of our community by embracing tomorrow's methods and respecting time-honored values. Its services include acute inpatient, swing bed, 24-hour emergency center, diagnostic services, lab, physical therapy, pharmacy, obstetrics, nursery, and surgical services. Along with hospital services, the Hospital employs the majority of primary and specialty care physicians in the area. The Hospital provides the only behavioral health clinic services in Hancock County and partners with community agencies to sponsor Substance Use Disorder Treatment. These services have been identified as a need in the CHNA for mental and substance use treatment availability and the removal of stigma associated with mental and substance use disorders. Hancock and Washington counties are considered rural by the State of Maine and the United States Census Bureau, under guidelines set forth by the Office of Management and Budget (OMB). The Hospital service area (HSA) as defined by the Maine Health Data Organization (MHDO) uses the statistical method where the greatest proportion of residents received their inpatient care. The Hospital's primary service area is Mount Desert Island and the towns it supports as well as the outer islands off the coast of Bar Harbor, Northeast Harbor, and Southwest Harbor. Also included in our service area are the towns of Trenton and Lamoine, Maine. The Hospital entered into a collaborative to bring dental and oral health services to Mount Desert Island, which is defined as a federally underserved location for dental health and identified as a need in the Hospital's CHNA. MDI Hospital sponsors a dental center in Southwest Harbor to address the community's needs for oral health, expanding access the past year to our community for outreach and dental health services.</p>

Form and Line Reference	Explanation
Mount Desert Island Hospital	<p>Part V, Section B, Line 5: In response to the COVID-19 pandemic, on April 9, 2020 the IRS released Notice 2020-23, which extended the time in which a state-licensed hospital must release an updated CHNA until July 15, 2020. Later in 2020, the IRS released Notice 2020-56 which further postponed this due date for hospitals required to complete a CHNA that would have been otherwise due between April 1, 2020 and December 31, 2020 to December 31, 2020. Prior to the issuance of Notice 2020-23 and 2020-56, MDI Hospital had begun the process of completing its next CHNA and Implementation Strategy which was an update to its CHNA completed in tax year 2016. The Hospital was required to make its next CHNA widely available to the public by April 30, 2020. However, due to significant resource constraints brought about by the pandemic, it was unable to complete its new CHNA until after April 30, 2020. As the Hospital was required to complete its next CHNA and Implementation Plan between April 1, 2020 and December 31, 2020 it is eligible for and is relying on the relief provided in Notice 2020-23 and 2020-56. As the Hospital completed both its new CHNA and Implementation Plan prior to December 31, 2020 it did not fail to meet the requirements of Section 501(r) with respect to these publications. However, this Schedule H is to cover the tax period of May 1, 2019 through April 30, 2020 and therefore, in accordance with the IRS instructions, the information conveyed in this filing is to report on the CHNA and Implementation Plan in place during the tax period covered by the return. The Hospital will therefore report on its new CHNA and Implementation Plan on its next Form 990 and Schedule H filing. Mount Desert Island (MDI) Hospital participated in the Maine State Statewide Community Health Needs Assessment (CHNA) that focused on individual counties within the State, and during tax year 2016 also collaborated with Healthy Acadia to perform a service area CHNA. The CHNA for Hancock County provided an avenue to look at State of Maine surveillance data and validate our implementation plan and evaluation plan. MDI Hospital felt that its community and service area would best be served by a more focused and representative CHNA. MDI Hospital collaborated with Healthy Acadia to perform a focused CHNA for our services area commencing in September 2015. Additionally, MDI Hospital partnered with a number of other medical and community organizations to prepare a countywide CHNA that was completed in February 2016 and made widely available to the public at the start of tax year 2016. The CHNA presents the combined findings of three separate studies and surveys, which together consider the responses from a broad cross section of the community, including health care professionals from a variety of backgrounds and people who work at other types of nonprofits, the private sector, education, and social services. MDI Hospital also hosted Community Forums throughout the service area to</p>

While there were two strategies that were outside of the main purview of the Hospital, the organization committed to providing feedback and support to help start a Farmers' Market and created walking maps of the community to encourage healthy activities. The Hospital is continuing with the implementation strategies that were first adopted in tax year 2016 with its current CHNA as they are again recognized as ongoing initiatives in the Hancock County CHNA. The Hospital is using the strategies from the 2014 countywide CHNA survey, as well. The Hospital completed its CHNA in partnership with Healthy Acadia. The Hospital's Planning Committee oversees the work and the implementation of the CHNA including revisions and ongoing implementation evaluations. Schedule H, Part V, Section B, Line 20d:	MDI Hospital does not assume or engage in presumptive eligibility in assessing financial assistance or government assistance. However, any individual residing in the State of Maine who indicates the financial inability to pay a bill for a medically necessary service shall be evaluated for Financial Assistance. The patient's potential eligibility for governmental or other coverage will be assessed. This may include Medicaid and participation in Health Insurance Exchange coverage and subsidies. Additionally, a Financial Assistance Application/Disclosure Form is used to document each patient's overall financial situation. Credit reports may be used to verify the individual's financial circumstances. If an engaged collection agency suspects or gains knowledge that someone may need to apply for one of our programs, the agency sends out a financial assistance application to the patient or guarantor and proceeds to notify MDIH of the outreach. Accordingly, each collection agency engaged is aware of the policy on Financial Assistance. This allows the agency to report amounts that they have determined to be uncollectible due to the inability to pay in accordance with the Financial Assistance eligibility guidelines.
