Form 990 (2019)

#### Form 990, Part III, Line 4a:

Bayhealth Medical Center, Inc. provides a full range of patient care, emergency services, and wellness services. Bayhealth Medical Center is comprised of a total of 445 beds in two acute-care hospitals, Kent General Hospital in Dover (317 beds) and Milford Memorial Hospital (128 beds). Bayhealth also has outpatient sites throughout the service area. Both hospitals have Level III trauma centers. They provide a full range of surgical and medical care; radiation and medical oncology and chemotherapy; infusion therapy; cardiovascular services; endovascular surgery; electrophysiology; ambulatory surgery; wound care, perinatology services, and a Level II NICU and PICU. During the twelve months ending June 30, 2020, Bayhealth recorded 96,820 Emergency Room visits, 18,574 patients admitted to beds, 2,241 births, 486,614 outpatient visits, and provided \$68.1 million in unreimbursed care to patients. Bayhealth has affiliations with the University of Pennsylvania's Penn Health in cardiology, oncology, and orthopaedics. It provides physician and medical clinical rotations, housing, and meals for interns and residents from surrounding states. In FY 2020, Bayhealth hosted students from vocational schools, community colleges, and universities for clinical rotations in nursing and other health professions. Because the service area is deemed to be medically underserved, with a shortage of health professionals, Bayhealth actively recruits physicians to the area. In addition, it owns and operates 34 physician practices in Central and Southern Delaware. Bayhealth has an active education program, including health-related classes, support groups, free public screenings, free speakers for community groups, and representation at community events. Bayhealth Medical Center, Inc. provides care to all patients regardless of their ability to pay for the services rendered.

Part I, Line 7 - Explanation of Costing Methodology	A variety of methods were used in order to obtain the most accurate results. Medicare costs were calculated using the data from the Medicare Cost Report, and its Ratio of Cost to Charges. The RCC was also applied to Bad Debt after allowable Medicare Bad Debt was excluded. Other data was determined to be most accurate when pulled from a cost accounting system.
	Bad debt is reported elsewhere on Form 990, but is subtracted for purposes of calculating the Medicare

of Bad Debt Expense ratio of costs to charges (RCC). The Provision for Bad Debt is the result of an estimate by management. It is reviewed frequently in the light of historical and expected collections, and is based on the historical percentage collected in each category.

Form and Line Reference	Explanation						
With Physicans Clinics	Bayhealth has established a number of physicians' practices in order to provide necessary medical care in underserved areas. The physicians and the staffs are all Bayhealth employees. The practices frequently operate at a loss, especially in the early years. Adjustments have been made for Medicaid revenue and for Bad Debt, reported elsewhere on this form.

Part III, Line 2 - Methodology Used
To Estimate Bad Debt Expense
Bad debt is shown at cost, as determined by applying an RCC. Many patients do not complete the application for Charity Care, even if they are encouraged to do so. There are many reasons for their refusal. Bayhealth includes patients with certain verifiable reasons for non-payment and estimates an amount for Bad Debt. The amount is reduced to cost by applying the RCC.

Part III, Line 4 - Bad Debt Expense	The Medical Center provides an allowance for doubtful accounts for estimated losses resulting from the	ı
	unwillingness or inability of patients to make payments for services. The allowance is determined by	ı
	analyzing specific accounts and historical data and trends. Patient accounts receivable are charged off	ı
	against the allowance for doubtful accounts when management determines that recovery is unlikely and	ı
	the Medical Center ceases collection efforts. In evaluating the collectability of accounts receivable, the	ı
	Medical Center analyzes its past history and identifies trends for each of its major payor sources to	ı
	estimate the appropriate allowance for doubtful accounts and provisions for bad debt. Management	ı
	reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for	ı
	doubtful accounts. For receivables associated with services provided to patients who have third-party	1

coverage, the Medical Center analyzes contractually due amounts and provides and allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid). For receivables associated with self-pay patients, the Medical Center records a significant provision for bad debts on the basis of its

The difference between the billed rates and the amounts actually collected after all reasonable internal collection efforts have been exhausted is charged off against the allowance for doubtful accounts.
Part III, Line 8 - Explanation Of Shortfall As Community Benefit	Bayhealth's service area is experiencing an influx of people from areas with a higher cost of living. Many of these people are senior citizens and are Medicare recipients. Bayhealth provides services to them as part of its mission to care for the entire community. The Medicare losses sustained by Bayhealth are a result of Medicare reimbursing at less than operating costs. The IRS community benefit standard for hospitals that

Part VI, Line 2 - Needs Assessment

Bayhealth does service-specific needs assessments periodically by using patient surveys. Bayhealth also surveys other not-for-profits, health organizations, attendees at classes, support groups and screenings to assess the strengths and weaknesses of the programs that Bayhealth offers. Bayhealth has on-going communications with the State of Delaware and with national not-for-profit health organizations. Regular

prescribed Community Health Needs Assessments are also in place.

Part VI, Line 3 - Patient Education of Eligibility for Assistance

All patients or family members who inquire about financial assistance are directed to the Financial Counselor Team of the Patient Access Department (Admissions). Self-pay patients are directed to PATHS, a service contracted by Bayhealth, that screens them for Medicaid and helps them with financial application papers. Bayhealth's invoices state, "If you are not able to pay please contact our Billing Support Department to make suitable arrangements." The Patient Billing Guide is distributed by the Patient Finance and Admissions Departments. The booklet describes types of bills, understanding your bill, privacy policy, collection policy, dispute resolution, payment methods, and has a glossary of financial and insurance terms. A copy of the policy is included upon patient admission and discharge, as well as provided in patient bills an our website. Bayhealth discusses with patients the availability of various government benefits, such as Medicaid or State programs, and employs dedicated staff on-site to assist patients with qualifications for such programs.

Part VI, Line 4 - Community

Bayhealth's service area is designated as a "Medically Underserved AreaX and a "Health Professional Shortage Area" by the federal and state governments. The population of Bayhealth's service area is

growing rapidly because of an influx of retirees arriving from higher-cost-of-living areas in neighboring states, and because of retired military families attracted by the proximity of Dover Air Force Base. Kent and Sussex Counties also have a growing population of residents who do not speak English fluently. Teen pregnancy, school drop-out, infant mortality, and cancer rates are relatively high compared to national averages. In recent years, Delaware housing values have increased faster than those in most of the U.S. Housing values have increased faster than those in most of the growth in median household income. Employment growth is fastest in low-paying sectors, with most of the growth in job sectors paying less than \$26,000 annually. The fastest growing job sector in Sussex County averages

\$25,000 annual salary.

Activities	Bayhealth has invested heavily in recruiting primary care and certain specialty physicians to this medically underserved area. To encourage physicians to relocate to its service area, Bayhealth has formed a number of wholly-owned physician practices, currently employing more than 57 physicians. Additionally, a hospitalist program has been established. Bayhealth staff members serve on various professional, educational, and community boards throughout Delaware. Examples include the Delaware Chapter of March of Dimes; Delaware Health Mother and Infant Consortium; Brain Injury Association of Delaware; Delaware Cancer Consortium Advisory Board; Delaware Breast Cancer Coalition; and the Hope Medical Clinic, Delaware's only 100% free medical facility.

Bayhealth analyzed a variety of publicly reported data and gathered input from key stakeholders in Kent and Sussex County. Diligent attempt s were made to collect, interview, and survey responses from individuals and community-bas ed organizations to gain insight on the needs of vulnerable families in Kent and Sussex Co unty. The 2019 Needs Assessment results revealed opportunities for improvement in health p romotion, disease prevention and improving access to health care in Kent and Sussex County, DE. The needs assessment team collated interview and survey responses in order to priori tize identified health needs and develop implementation strategies to fulfill Bayhealth's mission. Based on the analysis in 2019, the following health needs as a priority for both Kent and Sussex County are: Mental Health, Obesity, Cancer, and availability of providers. Description of Community Served: Kent county is located in the Central part of the State of Delaware. Dover is the county seat and the State's capital, Historically, a rural farmla nd community, Kent County is attempting to preserve its farmland and natural resources while effectively managing the population growth that is occurring in the county. Kent County has a population of 180,786. The county population has grown 11.4% since 2010, which is higher than the state average rate of approximately 8.4% for the same time frame. The most prevalent race in Kent County is white, which represent over 65.6% of the total population. The average Kent County education level is slightly lower than the state average. Bayhea Ith Kent Campus, one of the two hospital facilities owned and operated by Bayhealth, opene d its doors in 1927. Bayhealth Kent Campus has grown in size and services to meet the heal th needs of the communities served. Bayhealth Kent Campus' buildings, include a complex composed of an original three-story core building recently expanded to seven floors, plus tw o major wings and a separate sixstory patient care building. In 2012, Bayhealth invested 168 million dollars to complete phase II construction of Bayhealth Kent Campus, part of Ba yhealth's 10 year strategic plan designed to address present and future health care needs. Phase II added 415,000 square feet to the Kent campus constructing a new welcome center, central services building, expanded emergency department, integrated cancer center and par king garage. In 2015, Bayhealth opened the Progressive Care Unit (PCU) to serve patients who need step-down care. Bayhealth's CHNA focuses on the residents of Kent County. approxim ately 73% of Bayhealth's Kent Campus patients originate from Kent County. Moreover, Kent C ounty Residents rely heavily on the Kent Campus for inpatient services, as evidenced by the approximate 85% of Kent County residents who utilized Bayhealth's Kent General for inpat ient services. In February 2018, Bayhealth invested \$300 million to complete a new ac ute care facility (Bayhealth Sussex Campus) replacing the existing Milford Memorial Hospit al. Built on a 169 acre site, approximately three miles southeast of the existing Milford Memorial Campus, the new hospital is strategically located along Delaware Route 1, the maj or north - south highway in the state and 20 miles south of the Kent Campus. The hospital offers 128 single inpatient rooms making it the only 100% private room facility in the Sta te. Service enhancements include a significantly expanded Emergency Department, the latest radiation therapy services for the treatment of caner, a cardiac catheterization lab and state of the art surgical suites. Sussex County is located in the southern part of the state of Delaware. The county seat is Georgetown. Historically, a rural farmland community, S ussex county is attempting to preserve its farmland and natural resources while effectively managing the population growth that is occurring in the County, Sussex County has a population of 234,225. making it the second largest county in the state in terms of the size of its population. The population has grown 18.8% since 2010, which is much higher that the state average rate of approximately 8.4% for the same time frame. The most prevalent race in Sussex County is white, which currently represents over 83% of the total population. The average education level in Sussex County is slightly lower than the state average. Susse x County is home to three acute care hospital facilities: Bayhealth's Sussex Campus, Beebe Medical Center in Lewes, and Nanticoke Health Services in Seaford. These three hospitals are joining with local community and health resources to focus on one mission - to make Su ssex County one of the healthiest in the nation. As part of the healthier Sussex County in itiative, Bayhealth will focus on addressing important health issues impacting residents of Sussex County. Bayhealth Sussex Campus Community Health Needs Assessment focuses on the residents of Sussex county, the home county of the hospital. Approximately 73% of Sussex C ampus patients originate from Sussex County, Who Was Involved in the Assessment: The assess ment process was initiated jointly by the Education and Strategic planning departments of Bayhealth. The Assessment was primarily conducted by the Education Department. To gain fee dback from persons with broad knowledge of the community served. The goal was to alert Bayhealth partners with the 2019 online survey, garner their p articipation, and help us identify the health needs of both Kent and Sussex residents. How the Assessment was Conducted: Quantitative and Qualitative analyses methods were utilized to generate a comprehensive assessment to fully understand the health needs of the communit y served. Quantitative analyses were conducted using the most recent data available from f ive primary sources:--Delaware Health Tracker (a product of the healthy community network) ;--County Health Rankings & Roadmaps (a collaboration between the Robert Wood Johnson Foun dation and the University of Wisconsin population health institute);--Demographic data fro m the Delaware population consortium; -- Delaware Health statistics center; and, -- Demographi c and socioeconomic data from the US Census bureau. To gain insight, Bayhealth reviewed available data to compare health statistics at the state and county levels to identify areas of health disparity. Based on this analysis, the education department of Bayhealth develop ed discussion topics for a variety of community engagements, including interviews with key stakeholders, focus groups, and online surveys. A variety of community settings were sele cted with a special emphasis on those persons and areas most impacted by health disparitie s. Thematic analysis identified health needs based on available quantitative data and resp onses from interviews and online surveys. Priority Criteria and Outcomes: The criteria used to evaluate and prioritize the health needs identified through the fact-finding process i ncluded:--the seriousness of the issue;--the relative size of the populations affected; --t he degree to which the need particularly affected persons living in poverty or reflected h ealth disparities; -- alignment with Bayhealth's mission and vision; and ,-availability of community resources to address the need. After close review of the community data and disc ussions with medical staff members of Bayhealth, health needs were prioritized jointly by the Education and strategic planning departments. Health Needs Assessment included the following four health concerns identified as priority issues at our Kent and Milford Hospitals. 1. Obesity/Nutrition; 2. Mental Health and Substance Abuse; 3. Cancer; and, 4. DiabetesBayhealth has been actively promoting health awareness and addressing the above concerns through our routine activities offered on a regular basis which include community screenings, clinics and free activities for our patient population. blood pressure clinics are offered weekly at Smyrna, Dover & Milford sites with 2000 visits annually. Oncology attends community events with us and offers information for free/low cost cancer screening exams including prostate, skin and mammograms, as well as education on preventing cancer. Eduation provides free tobacco cessation classes throughout the year. Bayhealth has collaborated with stae, county and voluntary organizations such as attack addiction to advocate for mental health and promote an awareness of substance abuse. To increase access and awareness of existing health care services to meet the communities' needs, Bayhealth offers lecture series quarterly in Dover and Milford. These events provide free education on Health-Related topics such as cancer, healthy eating and personal care for growing older, as well as information on programs and services offered in the community. We average about 200 attendees annually between the sites.Large scale community events, where screenings and information are available, include both our Kent and Sussex health fairs; the river walk event; la vida events partnered with dbcc; women's health events at dafb; 55+ at dover downs, and the great american smoke out.
